Management Report of Fund Performance

August 7, 2019

This interim management report of fund performance for Life & Banc Split Corp. (the “Fund”) contains financial highlights but does not contain the unaudited interim financial statements of the Fund. The unaudited interim financial statements follow this report. You may obtain a copy of the audited annual or unaudited interim financial statements, at no cost, by calling 1-866-642-6001 or by sending a request to Investor Relations, Brompton Funds, Bay Wellington Tower, Brookfield Place, 181 Bay Street, Suite 2930, Box 793, Toronto, Ontario, M5J 2T3, or by visiting our website at www.bromptongroup.com or SEDAR at www.sedar.com. Shareholders may also contact Brompton Funds by using one of these methods to request a copy of the Fund’s proxy voting policies and procedures, proxy voting disclosure record, Independent Review Committee’s report, or quarterly portfolio disclosure.

All figures in this management report of fund performance, unless otherwise noted, are based on the Fund’s Net Asset Value, which is calculated in accordance with the terms of the Fund’s constating documents.

THE FUND

Life & Banc Split Corp. is a mutual fund corporation managed by Brompton Funds Limited (the “Manager”). The Fund has Class A and Preferred shares outstanding which trade on the Toronto Stock Exchange (“TSX”) under the symbols LBS and LBS.PR.A, respectively. The Class A and Preferred shares are RRSP, DPSP, RRI, RESP and TFSA eligible. The Preferred shares are rated Pfd-3 by Dominion Bond Rating Service Limited (“DBRS”).

Preferred shares of the Fund receive fixed, cumulative quarterly payments. Payments are usually in the form of eligible Canadian dividends which are taxed at a lower rate to individuals than interest income. Preferred shares have a priority claim ahead of the Class A shares on the Fund’s assets in the event of termination. However, the Net Asset Value of Preferred shares does not benefit from growth in value of the underlying stocks. Class A shares capture the movement of the underlying stocks but in a more magnified way than if an investor owned the underlying portfolio of securities directly. This magnification of return is commonly known as “leverage.”

INVESTMENT OBJECTIVES AND STRATEGIES

The Fund's investment objectives are:

- i) to provide holders of Preferred shares with fixed, cumulative, preferential quarterly cash distributions in the amount of \$0.13625 per share and to return the original issue price of \$10.00 per Preferred share to shareholders at maturity; and
- ii) to provide holders of Class A shares with regular monthly cash distributions, targeted to be \$0.10 per share, and the opportunity for growth in Net Asset Value per share.

To achieve these objectives, the Fund invests in a common share portfolio composed of the following six Canadian banks and four Canadian life insurance companies on an equally weighted basis at the time of investment and on any subsequent rebalancing:

Banks	Life Insurance Companies
Bank of Montreal	Great-West Lifeco Inc.
Canadian Imperial Bank of Commerce	iA Financial Group
National Bank of Canada	Manulife Financial Corporation
Royal Bank of Canada	Sun Life Financial Inc.
The Bank of Nova Scotia	
The Toronto-Dominion Bank	

The portfolio is rebalanced at least annually to adjust for changes in the market value of investments and to reflect the impact of a merger or acquisition affecting one or more of the banks or life insurance companies. The Fund may write covered call options and cash-covered put options in respect of the portfolio to generate additional distributable income for the Fund and/or to reduce the volatility of the Fund. In addition, the Fund may sell investments for working capital purposes or replace investments with proceeds from the exercise of covered call options previously written.

RECENT DEVELOPMENTS

Treasury Offering

On April 4, 2019, the Fund completed a treasury offering (the "Treasury Offering") of Class A shares and Preferred shares for aggregate gross proceeds of approximately \$25.5 million. The Class A shares were offered at a price of \$8.10 per Class A share and the Preferred shares were offered at a price of \$10.00 per Preferred share.

RISKS

Risks associated with an investment in the shares of the Fund are discussed in the Fund's 2018 annual information form, which is available on the Fund's website at www.bromptongroup.com or on SEDAR at www.sedar.com. There were no changes during the period ended June 30, 2019 that materially affected the risks associated with an investment in the shares of the Fund as they were discussed in the annual information form.

RESULTS OF OPERATIONS

Distributions

For the first six months of 2019, distributions to Class A shareholders were \$0.60 per share, unchanged from the same period in 2018, reflecting monthly distributions of \$0.10 per Class A share. Preferred share distributions were \$0.2725 per share, an increase from \$0.2375 in 2018. Since inception, the Fund has distributed \$14.25 per Class A share and \$6.43 per Preferred share. Based on the June 30, 2019 closing market price of the Fund, the current distribution rate represented a yield of 15.6% on Class A shares and 5.3% on Preferred shares. The Fund has a distribution reinvestment plan which allows participating Class A shareholders to automatically reinvest monthly distributions, commission free, in additional Class A shares of the Fund. During the first six months of 2019, 64,939 Class A shares were acquired in the market pursuant to this plan at an average price of \$7.82 per share.

Revenues and Expenses

The Fund's investment portfolio generated revenue of \$0.37 per Class A share during the first six months of 2019, unchanged from the same period of 2018. Total expenses were \$0.10 per Class A share for the first six months of 2019, compared to \$0.09 per Class A share in the same period of 2018.

Net Asset Value

At June 30, 2019, the Net Asset Value per Class A share was \$7.23, up from \$5.91 at December 31, 2018, a 22.3% increase due to portfolio performance. The Net Asset Value of the Fund is determined by taking the total assets of the Fund and deducting the Fund's liabilities. For these purposes, the Preferred shares are not considered a liability of the Fund. The aggregate Net Asset Value of the Fund was \$470.4 million at June 30, 2019, up from \$412.0 million at December 31, 2018. The \$58.4 million increase reflected a net investment gain of \$56.7 million, \$14.1 million in proceeds from the Preferred share Treasury Offering and \$11.4 million in proceeds from the Class A share Treasury Offering, partially offset by \$16.0 million in Class A share distributions, \$7.2 million of Preferred share distributions and \$0.6 million of agents' fees and issuance costs related to the Treasury Offering.

Investment Portfolio

At June 30, 2019 and December 31, 2018, the Fund's investments included common shares of six banks and four insurance companies as indicated in the Investment Objectives and Strategies section.

As reported in the table below, the Fund had a net realized and net change in unrealized gain of \$49.4 million during the first six months of 2019. Insurance companies had total realized and net change in unrealized gains of \$29.1 million, while banks accounted for the remaining gain. During the first six months of 2019, the Fund selectively wrote call options on the insurance companies and banks in the portfolio to generate premiums of \$1.4 million and had a net realized loss on the options of \$0.1 million. The realized loss represents the premiums received, less the amount paid to close out the options. During the first six months of 2019, the Fund wrote call options on an average notional value of 6.9% of the Fund's portfolio. At June 30, 2019, there were seven option contracts outstanding, with a notional value representing 7.6% of the portfolio.

Insurance	0.1	29.0	29.1
Options	(0.1)	(0.1)	(0.2)
Total	\$ 1.5	\$ 47.9	\$ 49.4

Liquidity

To provide liquidity for shareholders, the Class A shares and Preferred shares of the Fund are listed on the TSX under the symbols LBS and LBS.PR.A, respectively. Investors may retract their shares in accordance with the Fund's retraction provisions for each class of share.

RELATED PARTY TRANSACTIONS

Related party transactions consist of services provided by the Manager pursuant to a management agreement. See the Management Fees section below.

MANAGEMENT FEES

Pursuant to a management agreement, the Manager provides management and administrative services to the Fund for which it is paid a management fee equal to 0.60% per annum of the Net Asset Value of the Fund. The management fee is used by the Manager to cover its costs to obtain the Fund's assets, the cost to administer the Fund, the cost of investment management services and for profit. The Fund also pays the Manager a service fee equal to 0.40% per annum of the Net Asset Value of the Class A shares. The service fee is in turn paid by the Manager to investment dealers based on the proportionate number of Class A shares held by clients of each dealer at the end of each calendar quarter. For the first six months of 2019, management and service fees amounted to \$1.5 million and \$0.4 million, respectively.

FINANCIAL HIGHLIGHTS

The following tables show selected key financial information about the Fund and are intended to help readers understand the Fund's financial performance for the fiscal periods indicated. This information is derived from the Fund's unaudited interim and audited annual financial statements. *The information in the following tables is presented in accordance with National Instrument ("NI") 81-106 and, as a result, does not act as a continuity of opening and closing Net Assets per Class A share.* The increase (decrease) in Net Assets from operations is based on average shares outstanding during the period, and all other numbers are based on actual shares outstanding at the relevant point in time.

⁽¹⁾ MER for Class A shares is based on the requirements of NI 81-106 and includes the total expenses of the Fund for the stated period, including distributions on Preferred shares and issuance costs, but excluding brokerage commissions on securities transactions, and is expressed as an annualized percentage of the average Net Asset Value of the Fund for Class A shares over the period. Please see the Expense Ratio section following this table for further discussion of the calculation.

⁽²⁾ The trading expense ratio represents total commissions and transaction costs expressed as an annualized percentage of daily average Net Asset Value of the Fund during the period.

⁽³⁾ The Fund’s portfolio turnover rate indicates how actively the Fund manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher the Fund’s portfolio turnover rate in a year, the greater the trading costs payable by the Fund in the year and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of the Fund. Portfolio turnover rate is calculated by dividing the lesser of the cost of purchases and the proceeds of sales of portfolio securities for the period, excluding cash and short-term investments maturing in less than one year, by the average market value of such investments during the period.

⁽⁴⁾ A unit includes one Class A share and one Preferred share. Net Asset Value per unit is determined by the Net Asset Value of the Fund, for which the Preferred shares are not treated as liabilities.

⁽⁵⁾ Net Asset Value per Preferred share does not include accrued Preferred share distributions.

Expense Ratio

The MER per Class A share noted in the table for the first six months of 2019 was 10.18%, up from 9.75% in 2018, due to the higher cost of leverage and to issuance costs and agents’ fees incurred for the Fund’s Treasury Offering in April. The MER per Class A share also includes Preferred share distributions, which represent the cost of leverage. The MER per Class A share, excluding issue costs and Preferred share distributions, was 2.17% for the first six months of 2019, up from 1.97% for 2018.

The MER per unit was 7.46% for the first six months of 2019 compared to 5.74% in 2018. The MER per unit, excluding Preferred share distributions (which were covered by the portfolio’s dividend income and issue costs), was 0.92% for the first six months of 2019, compared to 0.91% for 2018. This ratio is more representative of the ongoing efficiency of the administration of the Fund.

PAST PERFORMANCE

The following chart and table show the past performance of the Fund. Past performance does not necessarily indicate how the Fund will perform in the future. The information shown is based on Net Asset Value per Class A share and per unit (each unit consists of one Class A share and one Preferred share) and assumes that distributions (including deemed distributions based on the intrinsic value of the warrants at approximately the exercise date of the warrants) made by the Fund on the Class A shares and units in the periods shown were reinvested (at Net Asset Value per Class A share and per unit, respectively) in additional Class A shares and units of the Fund.

The bar chart shows the Fund's returns for a Class A share and a unit for the periods ended December 31, 2009 to June 30, 2019. The chart shows, in percentage terms, how investments held in a Class A share and a unit on the first day of each fiscal period would have changed by the last day of the fiscal period.

Year-by-Year Returns

⁽¹⁾ Period from January 1, 2019 to June 30, 2019.

The following table shows the Fund's compound return on a Class A share, Preferred share and unit for each period indicated, compared with the S&P/TSX Capped Financials Index ("Financials Index"), the S&P/TSX Composite Index ("Composite Index") and the S&P/TSX Preferred Share Index ("Preferred Index"). The Financials Index is derived from the Composite Index based on the financials sector of the Global Industry Classification Standard. The Composite Index tracks the performance, on a market-weight basis, of a broad index of large-capitalization issuers listed on the TSX. The Preferred Index is comprised of preferred shares listed and trading on the Toronto Stock Exchange that meet criteria relating to size, liquidity and issuer rating. The Fund invests in a passively managed portfolio of four insurance companies and six banks. The Fund is therefore not expected to mirror the performance of indices, which have more diversified portfolios. Further, the indices are calculated without the deduction of management fees, fund expenses and trading commissions, whereas the performance of the Fund is calculated after deducting such fees and expenses.

Compound Returns

	Six Months Ended June 30, 2019	Since Inception ⁽¹⁾
Life & Banc Split Corp. – Class A shares ⁽²⁾	32.7%	8.6%
S&P/TSX Capped Financials Index	14.3%	7.5%

S&P/TSX Preferred Share Index	(0.9%)	1.3%
Life & Banc Split Corp. – units ⁽³⁾	13.9%	6.7%

⁽¹⁾ Period from October 17, 2006 (commencement of operations) to June 30, 2019 (annualized return).

⁽²⁾ Based on the Net Asset Value per Class A share and Preferred share and assuming that distributions on the Class A shares and Preferred shares made by the Fund in the periods shown were reinvested (at Net Asset Value per Class A share and Preferred share) in additional Class A shares and Preferred shares of the Fund.

⁽³⁾ Based on the Net Asset Value per unit (each unit includes one Class A share and one Preferred share) and assuming that distributions on the units made by the Fund were reinvested (at Net Asset Value per unit) in additional units of the Fund.

Since inception, and during the first six months of 2019, the Class A shares have outperformed the relative benchmark indices as a result of the strong appreciation of the banks and insurance companies in the portfolio, which was enhanced by the use of leverage provided by the Preferred shares.

NOTES TO THE FINANCIAL STATEMENTS (Unaudited)

June 30, 2019 and 2018

1. GENERAL INFORMATION

Life & Banc Split Corp. (the “Fund”) is a mutual fund corporation established under the laws of the Province of Ontario on September 6, 2006. Brompton Funds Limited (the “Manager”) is responsible for managing the affairs of the Fund and manages the Fund’s portfolio and options program. The Fund is listed on the Toronto Stock Exchange and commenced operations on October 17, 2006. CIBC Mellon Trust Company (and certain of its affiliates) is the custodian of the Fund’s assets and prepares the weekly valuations of the Fund. The address of the Fund’s registered office is Bay Wellington Tower, Brookfield Place, Suite 2930, 181 Bay Street, Toronto, Ontario, M5J 2T3.

The Fund invests in a portfolio comprised of common shares of six major Canadian banks and four major, publicly traded Canadian life insurance companies.

These financial statements were approved by the Board of Directors of Life & Banc Split Corp. on August 7, 2019.

2. BASIS OF PRESENTATION

These condensed interim financial statements have been prepared in compliance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) applicable to the preparation of interim financial statements, including International Accounting Standard (“IAS”) 34, *Interim Financial Reporting*. These financial statements should be read in conjunction with the annual financial statements for the year ended December 31, 2018, which have been prepared in accordance with IFRS. The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities (including derivative financial instruments) at fair value through profit or loss.

3. SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of the financial statements are set out below. These policies have been consistently applied.

a) Financial Instruments

The Fund’s portfolio of investments is managed, and performance is evaluated, on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets’ performance and to make decisions. The Fund has not taken the option to irrevocably designate any equity securities as fair value through other comprehensive income (“FVOCI”). The contractual cash flows of the Fund’s debt securities that are solely principal and interest are neither held for the purpose of collecting contractual cash flows nor held both for collecting contractual cash flows and for sale. The collection of contractual cash flows is only incidental to achieving the Fund’s business model’s objective. Consequently, all investments are measured at fair value through profit or loss (“FVTPL”). Derivative assets and liabilities are also measured at FVTPL.

The Fund’s obligation for Net Assets attributable to holders of redeemable Class A shares is measured assuming the redemption of shares at Net Asset Value on the valuation date. All other financial assets and liabilities are initially recognized at fair value and subsequently measured at amortized cost. Under this method, financial assets and liabilities reflect the amounts required to be received or paid, discounted when appropriate, at the financial instrument’s effective interest rate. The Fund’s accounting policies for measuring the fair value of its investments and derivatives are the same as those used in measuring its published Net Asset Value. The carrying values of the Fund’s financial assets and liabilities that are not carried at FVTPL approximate their fair values due to their short-term nature.

b) Fair Value Measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets (such as publicly traded marketable securities) is based on quoted market prices at the close of trading on the measurement date. The Fund uses the last bid price for financial assets and the last ask price for financial liabilities. The Fund’s policy is to recognize transfers into and out of the fair value hierarchy levels as of the date of the event or change in circumstances giving rise to the transfer.

The fair value of financial assets and liabilities that are not traded in an active market, including over-the-counter derivatives, is determined using valuation techniques. The Fund uses a variety of methods and makes assumptions that are based on market conditions existing at each measurement date. Valuation techniques include the use of comparable recent arm’s length transactions, reference to other instruments that are substantially the same, and others commonly used by market participants that make the maximum use of observable inputs. Refer to note 12 for further information about the Fund’s fair value measurements.

c) Cash

Cash is comprised of demand deposits with financial institutions.

d) Investment Transactions and Income and Expense Recognition

Investment transactions are accounted for on the trade date. The interest for distribution purposes shown on the Statements of Comprehensive Income represents the coupon interest received by the Fund accounted for on an accrual basis. The Fund does not amortize premiums paid or discounts received on the purchase of fixed income securities except for zero coupon bonds, which are amortized on a straight line basis.

Realized gain (loss) on sale of investments and change in unrealized gain (loss) on investments are determined on an average cost basis. Average cost does not include amortization of premiums or discounts on fixed income securities with the exception of zero coupon bonds. Dividend income and dividend expense on securities sold short are recognized on the ex-dividend date.

Option premiums paid or received by the Fund are, so long as the options are outstanding, reflected as an asset or liability, respectively, in the Statements of Financial Position and are valued at an amount equal to the current market value of an option that would have the effect of closing the position. Gains or losses realized upon expiration, repurchase or exercise of the options are included in net realized gains or losses on options.

e) Transaction Costs

Transaction costs directly attributable to the acquisition or disposal of an investment are expensed in the period incurred and disclosed as “Transaction costs” in the Statements of Comprehensive Income.

f) Income Taxes

The Fund is a mutual fund corporation as defined in the Income Tax Act (Canada) (the “Act”) and is subject to tax in respect of its net realized capital gains. This tax is refundable in certain circumstances. Also, the Fund is generally subject to tax of 38 $\frac{1}{3}$ % under Part IV of the Act on taxable dividends received from Canadian corporations in the year. This tax is fully refundable upon payment of sufficient dividends.

The Fund is also a financial intermediary corporation as defined in the Act and, as such, is not subject to tax under Part IV.1 of the Act on dividends received nor is it generally liable to tax under Part VI.1 on dividends paid by the Fund on taxable preferred shares as defined in the Act.

Given the investment and dividend policy of the Fund and taking into account the deduction of expenses and taxable dividends on shares of taxable Canadian corporations, the Fund does not expect to be subject to any appreciable amount of non-refundable Canadian income tax. Accordingly, no income tax provision has been recorded.

g) Securities Lending

The Fund may enter into securities lending transactions. These transactions involve the temporary exchange of securities as collateral with a commitment to deliver the same securities on a future date. Income is earned from these transactions in the form of fees paid by the counterparty and, in certain circumstances, interest paid on securities held as collateral. Income earned from these transactions is recognized on an accrual basis and included in the Statements of Comprehensive Income.

h) Classification of Redeemable Shares by the Fund

As required under International Accounting Standard (“IAS”) 32, *Financial Instruments: Presentation*, shares of an entity which include a contractual obligation for the issuer to repurchase or redeem them for cash or another financial asset must be classified as financial liabilities. Under IFRS, the Fund’s Preferred shares remain as liabilities as they are not the most subordinate class of shares. The Fund’s Class A shares do not meet the criteria in IAS 32 for classification as equity. The Class A shares contain multiple redemption features and, therefore, have been reclassified as financial liabilities. Class J shares are redeemable at \$1.00 per share.

NOTES TO THE FINANCIAL STATEMENTS (Unaudited) (continued)

June 30, 2019 and 2018

4. REDEEMABLE SHARES**Units**

A unit means a notional unit consisting of one Preferred share and one Class A share. Net Asset Value per unit is determined by (i) the aggregate value of the assets of the Fund, less (ii) the aggregate value of the liabilities of the Fund (the Preferred shares will not be treated as liabilities), including any distributions declared and not paid that are payable to shareholders, less (iii) the stated capital of Class J shares (\$100).

Class J Shares

The Fund is authorized to issue an unlimited number of Class J shares.

As of June 30, 2019, 100 (December 31, 2018 – 100) Class J shares were outstanding.

Class J shares are not entitled to receive dividends but are entitled to one vote per share. The Class J shares are redeemable and retractable at a price of \$1.00 per share.

Redeemable Class A Shares**Authorized**

The Fund is authorized to issue an unlimited number of Class A shares.

The Fund intends to pay monthly, non-cumulative distributions to the holders of Class A shares. No distributions will be paid on Class A shares if (i) distributions payable on the Preferred shares are in arrears or (ii) after the payment of the distributions by the Fund, the Net Asset Value per unit is less than \$15.00.

The Class A shares rank subsequent to the Preferred shares but in priority to the Class J shares with respect to the payment of distributions and the repayment of capital on the dissolution, liquidation or winding-up of the Fund. Each Class A share is entitled to one vote on certain shareholder matters.

The maturity date of the Class A shares was extended from November 29, 2018 to October 30, 2023. The Class A shares are scheduled to be redeemed by the Fund on that date unless the term of the Fund is extended. The redemption price payable by the Fund for a Class A share on that date will be equal to the greater of (i) the Net Asset Value per unit on that date minus the sum of \$10.00, plus any accrued and unpaid distributions on the Preferred shares, and (ii) nil.

Class A shares may be surrendered for retraction by the Fund at least 10 business days prior to the second last business day of a month (“Retraction Date”). Holders of Class A shares whose Class A shares are surrendered for retraction will be entitled to receive a price per Class A share equal to 96% of the difference between (i) the Net Asset Value per unit determined as of the relevant Retraction Date and (ii) the cost to the Fund of the purchase of a Preferred share for cancellation. The cost of the purchase of a Preferred share includes the purchase price of the Preferred share, commission and such other costs, if any, related to the liquidation of any portion of the Fund’s portfolio required to fund such purchase. If the Net Asset Value per unit is less than \$10.00, the retraction price of a Class A share will be nil.

A holder of Class A shares may concurrently retract an equal number of Class A and Preferred shares on the November Retraction Date of each year, at a price per unit equal to the Net Asset Value per unit on that date, less any costs associated with the retraction, including commissions and other such costs, if any, related to the liquidation of any portion of the portfolio required to fund such retraction. The Class A shares and the Preferred shares must both be surrendered for retraction at least 10 business days prior to the November Retraction Date.

As a result of the extension of the maturity date to October 30, 2023, holders of Class A shares could have retracted their Class A shares on November 29, 2018 by providing notice by the last business day of October 2018. This special retraction right did not require the surrender of both a Class A share and a Preferred share.

The Fund’s Class A shares are classified as financial liabilities on the Statements of Financial Position.

On July 4, 2018, the Fund completed an offering of 2,532,000 Class A shares at a price of \$9.80 per share for gross proceeds of \$24,813,600. Agents' fees and issue costs amounted to \$1,210,652.

On December 3, 2018, the Fund completed an offering of 1,164,400 Class A shares at a price of \$8.08 per share for gross proceeds of \$9,408,352. Agents' fees and issue costs accounted for \$450,767.

On April 4, 2019, the Fund issued 1,408,600 shares at \$8.10 per share for gross proceeds of \$11,409,660. Agent's fees and issue costs amounted to \$587,274.

During the period ended June 30, 2019, pursuant to the monthly retraction option, no Class A shares were purchased for cancellation (six-month period ended June 30, 2018 – nil).

On June 30, 2019, the Class A shares' closing market price was \$7.69 per share (December 31, 2018 – \$6.68).

Redeemable Preferred Shares

Authorized

The Fund is authorized to issue an unlimited number of Preferred shares.

Holders of Preferred shares were entitled to receive fixed, cumulative, preferential quarterly cash distributions of \$0.11875 per share up to November 29, 2018. Commencing November 30, 2018, the quarterly cash distributions were increased to \$0.13625 per share. The Preferred shares rank in priority to the Class A shares with respect to the payment of distributions and the repayment of capital on the dissolution, liquidation, or winding-up of the Fund. Each Preferred share is entitled to one vote on certain shareholder matters.

The maturity date of the Preferred shares was extended from November 29, 2018 to October 30, 2023. The Preferred shares are scheduled to be redeemed by the Fund on that date unless the term of the Fund is extended. The redemption price payable by the Fund for a Preferred share will be equal to the lesser of (i) \$10.00, plus any accrued and unpaid distributions thereon, and (ii) the Net Asset Value of the Fund on that date divided by the number of Preferred shares then outstanding.

Preferred shares may be surrendered for retraction by the Fund at least 10 business days prior to the second last business day of a month ("Retraction Date"). Shareholders whose Preferred shares are retracted will be entitled to receive a price per share equal to 96% of the lesser of (i) the Net Asset Value per unit determined as of the relevant Retraction Date, less the cost to the Fund of the purchase of a Class A share for cancellation, and (ii) \$10.00. The cost of the purchase of a Class A share will include the purchase price of the Class A share, commission and other costs, if any, related to the liquidation of any portion of the portfolio required to fund such purchase.

A holder of Preferred shares may also concurrently retract an equal number of Preferred shares and Class A shares on the second last business day of November of each year (except for a year in which there is a scheduled maturity date) at a price per unit equal to the Net Asset Value per unit on that date, less any costs associated with the retraction, including commissions and such other costs, if any, related to the liquidation of any portion of the portfolio required to fund such retraction. The Preferred shares and Class A shares must both be surrendered for retraction at least 10 business days prior to the November Retraction Date.

As a result of the extension of the maturity date to October 30, 2023, holders of Preferred shares could have retracted their Preferred shares on November 29, 2018 by providing notice by the last business day of October 2018. This special retraction did not require the surrender of both a Preferred share and a Class A share.

Issued

	2019	2018
	Number of Shares	Number of Shares
Redeemable Preferred shares, outstanding at January 1	25,887,658	22,193,972
Issuance of redeemable Preferred shares	1,408,600	—
Redeemable Preferred shares, outstanding at June 30	27,296,258	22,193,972

On July 4, 2018, the Fund completed an offering of 2,532,000 Preferred shares at a price of \$10 per share for gross proceeds of \$25,320,000.

On December 3, 2018, the Fund completed an offering of 4,898,432 Preferred shares at a price of \$10 per share for gross proceeds of \$48,984,320.

On April 4, 2019, the Fund issued 1,408,600 Preferred shares at a price of \$10 per share for gross proceeds of \$14,086,000.

The difference between the issuance price of Preferred shares following an offering and the redemption value, plus accrued dividends, is treated as premium received. The cumulative premium received over the years is \$222,759, which is amortized over the life of the Preferred shares.

As of December 31, 2018, the premium was completely amortized and carried a zero balance. Hence, no amortization was done during the period ended June 30, 2019 (six-month period ended June 30, 2018 – \$32,002).

During the period ended June 30, 2019, pursuant to the monthly retraction option, no Preferred shares were purchased for cancellation (six-month period ended June 30, 2018 – nil).

On June 30, 2019, the Preferred shares' closing market price was \$10.20 per share (December 31, 2018 – \$9.84).

NOTES TO THE FINANCIAL STATEMENTS (Unaudited) (continued)

June 30, 2019 and 2018

5. CAPITAL MANAGEMENT

The Fund's capital is comprised of its Net Assets attributable to holders of redeemable Class A shares. The Fund's objectives in managing its capital are:

- i) to provide holders of Preferred shares with fixed, cumulative, preferential quarterly cash distributions and to return the original issue price to holders of the shares on the maturity date, the terms of which may be extended for a period of up to five years as determined by the Board of Directors or such other date if the term of the Fund is extended, and
- ii) to provide holders of Class A shares with regular monthly cash distributions targeted to be \$0.10 per share and the opportunity for growth in Net Asset Value per share.

The Fund manages its capital taking into consideration the risk characteristics of its holdings. In order to manage its capital structure, the Fund may adjust the amount of distributions paid to shareholders or return capital to shareholders.

6. DISTRIBUTIONS TO SHAREHOLDERS

Distributions are made on a quarterly basis on the Preferred shares and on a monthly basis on the Class A shares. Distributions are payable no later than the tenth business day of the following month.

For the period ended June 30, 2019, the Fund declared distributions of \$0.60 (six-month period ended June 30, 2018 – \$0.60) per Class A share and recorded distributions of \$0.2725 (six-month period ended June 30, 2018 – \$0.2375) per Preferred share, which amounted to \$15,955,175 (six-month period ended June 30, 2018 – \$13,316,384) and \$7,246,309 (six-month period ended June 30, 2018 – \$5,271,068), respectively.

On July 24, 2019, the Fund declared \$0.10 per Class A share in monthly distributions for record date July 31, 2019.

7. RELATED PARTY TRANSACTIONS**a) Management and Service Fees**

Pursuant to a management agreement, the Manager provides management, administrative and advisory services, including key management personnel, to the Fund. In consideration for these services, the Fund pays a management fee equal to 0.60% per annum of the Net Asset Value of the Fund, plus applicable taxes. The Net Asset Value of the Fund is determined by taking the total assets of the Fund and deducting the Fund's liabilities. For these purposes, the Class A and Preferred shares are not considered liabilities of the Fund. These fees are calculated and payable monthly. The Fund also pays to the Manager a service fee equal to 0.40% per annum of the Net Asset Value of the Class A shares. The service fee is in turn paid by the Manager to the investment dealers in proportion to the number of shares held by clients of each dealer at the end of each calendar quarter.

For the period ended June 30, 2019, the management fee amounted to \$1,538,130 (six-month period ended June 30, 2018 – \$1,429,802), of which \$261,101 was payable as of June 30, 2019 (December 31, 2018 – \$797 prepaid). The service fees for the period ended June 30, 2019 amounted to \$383,061 (six-month period ended June 30, 2018 – \$387,909), with \$197,886 payable as of June 30, 2019 (December 31, 2018 – \$153,816). The Fund is responsible for the payment of all expenses relating to its operations and the carrying on of its business.

b) Independent Review Committee Fees

The total remuneration paid to members of the Independent Review Committee during the period ended June 30, 2019 was \$17,356 (six-month period ended June 30, 2018 – \$11,455) and consisted only of fees. As at June 30, 2019, there was \$8,971 in Independent Review Committee fees payable (December 31, 2018 – nil).

8. INVESTMENT TRANSACTIONS

Investment transactions, excluding brokerage commissions, for the periods ended June 30 were as follows:

	2019	2018

10. SECURITIES LENDING

The Fund has entered into a securities lending program with its custodian, CIBC Mellon Trust Company (and certain of its affiliates). The aggregate market value of all securities loaned by the Fund cannot exceed 50% of the assets of the Fund. The Fund will receive collateral of at least 102% of the value of the securities on loan. Collateral will generally be comprised of cash and obligations of, or guaranteed by, the Government of Canada or a province thereof, or the United States Government or its agencies, or a permitted supranational agency as defined in National Instrument 81-102. The market values of the securities on loan and the related collateral at June 30, 2019 were \$6.3 million (December 31, 2018 – \$14.2 million) and \$6.6 million (December 31, 2018 – \$14.9 million), respectively.

Securities lending income reported in the Statements of Comprehensive Income is net of a securities lending charge which the Fund's custodian, CIBC Mellon Trust Company (and certain of its affiliates), is entitled to receive.

For the periods ended June 30, securities lending income was as follows:

	2019	2018
Gross securities lending income	\$ 15,720	\$ 3,812
Securities lending charges	(4,716)	(1,143)
Net securities lending income received by the Fund	\$ 11,004	\$ 2,669

During the period ended June 30, 2019, securities lending charges represented 30.0% (six-month period ended June 30, 2018 – 30.0%) of the gross securities lending income.

NOTES TO THE FINANCIAL STATEMENTS (Unaudited) (continued)

June 30, 2019 and 2018

11. FINANCIAL RISK MANAGEMENT

The Fund's investment activities expose it to a variety of financial risks. The Schedule of Investment Portfolio presents the securities held by the Fund as at June 30, 2019, and groups the securities by market segment. The following comparative summary represents the investment sectors held by the Fund as at December 31, 2018. Significant risks that are relevant to the Fund are discussed below.

As at	December 31, 2018
Investment Sector	% of Portfolio
Banks	60.5%
Insurance	39.5%
Total	100.0%

The Manager attempts to minimize the potential adverse effects of these risks on the Fund's performance by employing regular rebalancing of the investment portfolio within the constraints of the investment objectives. To assist in managing these risks, the Manager also maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy and restrictions, internal guidelines, and securities regulations.

The investment portfolio is comprised of Canadian-dollar-denominated, exchange-listed equity securities.

a) Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate risk or currency risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital. The Manager attempts to moderate this risk through the careful management of derivatives within the parameters of the investment strategy. Except for options written, the maximum risk of loss resulting from financial instruments is equivalent to their fair value. No additional risk is introduced by covered call options written.

The Fund is exposed to other price risk from its investment in equity securities and option contracts. As at June 30, 2019, had the prices on the respective stock exchanges for these securities increased by 10%, with all other variables held constant, Net Assets attributable to holders of redeemable Class A shares would have increased by approximately \$44.6 million or 22.6% (December 31, 2018 – approximately \$41.2 million or 26.9%). Similarly, had the prices on the respective stock exchanges for these securities decreased by 10%, with all other variables held constant, Net Assets attributable to holders of redeemable Class A shares would have decreased by approximately \$47.2 million or 23.9% (December 31, 2018 – approximately \$41.4 million or 27.1%). In practice, the actual trading results may differ, and the difference could be material.

b) Credit Risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. The Fund did not have significant credit risk exposure as at June 30, 2019 and December 31, 2018. The carrying amount of securities on loan, cash and income receivable represents the maximum credit risk exposure as they will be settled in the short term.

All transactions in securities are settled/paid for upon delivery. The risk of default is considered minimal as delivery of securities sold is only made once the Fund has received payment. The trade will fail if either party fails to meet its obligation.

The Fund has entered into a securities lending program with its custodian; see note 10. Credit risk associated with these transactions is considered minimal as all counterparties have a sufficient, approved credit rating and the value of cash or securities held as collateral must be at least 102% of the fair value of the securities loaned.

c) Liquidity Risk

Liquidity risk is the risk that the Fund may not be able to settle or meet its obligations on time or at a reasonable price. The Fund is exposed to liquidity risk through its monthly and annual retractions of Class A shares and Preferred shares. For the monthly and annual retractions of Class A shares and Preferred shares, the Fund receives notice at least 10 business days prior to the retraction dates, which gives the Manager time to sell securities, although there may not be sufficient time to sell the securities at a reasonable price. As a result of the extension of the maturity date of the Fund to October 30, 2023, holders of Class A shares and Preferred shares could retract their shares on November 29, 2018 by providing notice by the last business day of October 2018.

The tables below list the Fund's financial liabilities into relevant maturity groupings based on the remaining period between the financial statement date and the contractual maturity date.

As at June 30, 2019	Less Than 3 Months	3 Months to 1 Year	Greater Than 1 Year	Total
Option contracts written, at fair value	\$ 222,827	\$ —	\$ —	\$ 222,827
Accounts payable and accrued liabilities	579,887	—	—	579,887
Distributions payable to shareholders	6,448,741	—	—	6,448,741
Total	\$ 7,251,455	\$ —	\$ —	\$ 7,251,455

As at December 31, 2018	Less Than 3 Months	3 Months to 1 Year	Greater Than 1 Year	Total
Option contracts written, at fair value	\$ 19,730	\$ —	\$ —	\$ 19,730
Accounts payable and accrued liabilities	351,114	—	—	351,114
Distributions payable to shareholders	5,820,581	—	—	5,820,581
Total	\$ 6,191,425	\$ —	\$ —	\$ 6,191,425

d) Currency Risk

Currency risk is the risk that financial instruments that are denominated in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. As at June 30, 2019 and December 31, 2018, the Fund had no exposure to currency risk.

12. FAIR VALUE MEASUREMENT

The Fund's assets and liabilities recorded at fair value have been categorized within a hierarchy which gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3).

The Fund classifies its investments and derivative assets/liabilities into three categories based on the nature of the inputs used to determine their fair value. The categories and the nature of the inputs used in each category are as follows:

Level 1: Inputs that reflect unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2: Inputs, other than quoted prices, that are observable for the asset or liability, either directly or indirectly, including inputs in markets that are not considered to be active.

Level 3: Inputs that are unobservable. There is little if any market activity. Inputs into the determination of fair value require significant management judgement or estimation.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Assets and liabilities at fair value as at June 30, 2019	Level 1	Level 2	Level 3	Total
Equities	\$ 473,692,243	\$ —	\$ —	\$ 473,692,243
Option contracts written	(222,827)	—	—	(222,827)
Total	\$ 473,469,416	\$ —	\$ —	\$ 473,469,416

Assets and liabilities at fair value as at December 31, 2018	Level 1	Level 2	Level 3	Total
Equities	\$ 414,340,458	\$ —	\$ —	\$ 414,340,458
Option contracts written	(19,730)	—	—	(19,730)
Total	\$ 414,320,728	\$ —	\$ —	\$ 414,320,728

The Preferred shares issued and outstanding as at June 30, 2019 had a retraction price per share of \$10.00 (December 31, 2018 – \$10.00) and a traded price per share of \$10.20 (December 31, 2018 – \$9.84).

There were no transfers of financial assets and liabilities between the levels during the period ended June 30, 2019 and the year ended December 31, 2018.

All fair value measurements above are recurring. The carrying values of cash, income receivable, prepaid expenses, distributions payable and accounts payable and accrued liabilities approximate their fair values due to their short-term nature. Fair values are classified as level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as level 1 subsequently ceases to be actively traded, it is transferred out of level 1. In such cases, the instrument is reclassified into level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as level 3.

a) Equities

The Fund's equity positions are classified as level 1 as the securities are actively traded and a reliable price is observable. The net realized and net change in unrealized gain from equity securities during the period ended June 30, 2019 was \$49,622,247 (six-month period ended June 30, 2018 – loss of \$20,017,426).

b) Option Contracts

The Fund's option contracts written are classified as level 1 as the options are based on unadjusted quoted prices in active markets. The net realized and net change in unrealized loss from option contracts during the period ended June 30, 2019 was \$129,044 (six-month period ended June 30, 2018 – gain of \$540,803).
