## Overview

This ETF provides high monthly distributions and the opportunity for capital appreciation through an investment in an actively managed portfolio of large-cap global dividend growth companies selected by Brompton, complemented by a proprietary covered call options program.

Our PM team first uses a top-down analysis to identify attractive sectors. Rigorous fundamental analysis focuses the portfolio on at least 20 Global Dividend Growth Companies with a market capitalization of at least \$10 billion, that have a history (or in the Manager's view a future likelihood) of dividend growth. The PMs then set the level of covered call writing (up to a maximum of 33%) with the goal of optimizing distributable cash and total returns, while reducing portfolio volatility.

## Investment Highlights: Global Dividend Growers

- Global Dividend Growth shares have outperformed the MSCI World Index over the past 15 years, with less risk<sup>3</sup>
- Opportunity to access a broader universe of high quality global companies that are expected to achieve strong earnings growth, leading to potential share price appreciation and increased dividends
- Global equities provide opportunity for Canadians to diversify in sectors that are underrepresented in Canada
