

# Brompton Global Dividend Growth ETF

**TSX:BDIV**

## October, 2019 Overview

This ETF provides high monthly distributions and the opportunity for capital appreciation by investing in an actively managed portfolio of large-cap global dividend growth companies selected by Brompton, complemented by a proprietary covered call options program to enhance monthly income.

Our PM team first uses a top-down analysis to identify attractive sectors. Rigorous fundamental analysis focuses the portfolio on at least 20 global Dividend Growth Companies with a market capitalization of at least \$10 billion, that have a history (or, in the Manager's view, a future likelihood) of dividend growth. The PMs then set the level of covered call writing (up to a maximum of 33%) with the goal of optimizing distributable cash and total returns and reduce portfolio volatility.

## GLOBAL DIVIDEND GROWTH - INVESTMENT RATIONALE

### 1 Dividend Growth Offers Higher Returns with Lower Risk

Since 2009, the MSCI World Dividend Masters Index (an index of global dividend growth equities) has outperformed the MSCI World Index by 2.5% per annum while those returns have been less risky (1.7% per annum less annualized volatility).<sup>1</sup>

Global Dividend Growth Outperformance

### 2 Stronger Global Earnings Growth

Stronger corporate earnings growth globally may provide opportunity for higher equity prices and dividend increases.<sup>2</sup>
