## Overview

Brompton Enhanced Multi-Asset Income ETF (BMAX) is designed to provide attractive monthly distributions and the opportunity for capital appreciation by investing in a leveraged portfolio of Brompton's equity covered call ETFs and preferred share ETFs.

By combining a variety of investment strategies, diversified by geography, sector and asset class into a single exchange-traded fund, BMAX provides investors an efficient way to access a portfolio built for various market conditions.

## Benefits of the Multi-Asset Approach

BMAX offers a unique multi-asset approach which combines global equities and non-traditional preferred share investments into a diversified portfolio solution. This multi-asset blend has provided strong historical performance with lower volatility compared with single asset class indices.

## For Investors Who

Are looking for a diversified investment solution

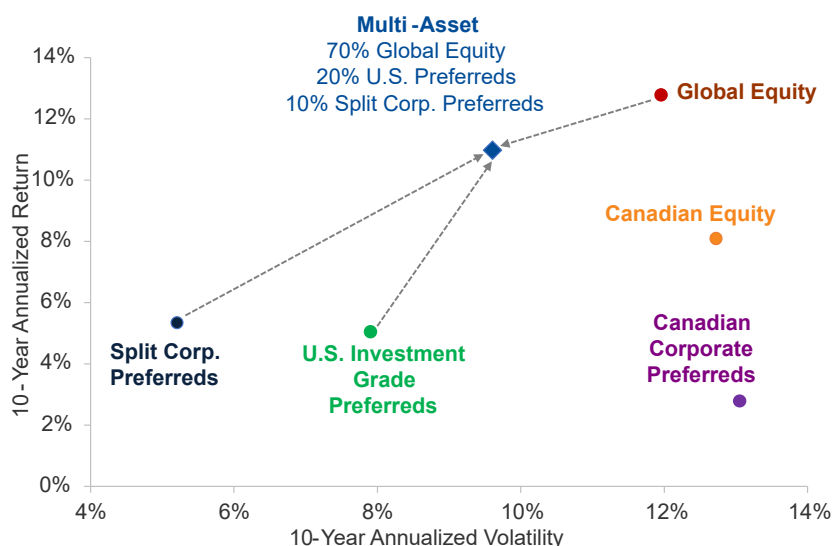

Are comfortable with leverage
