Overview

This ETF is designed to provide stable monthly cash distributions and the opportunity for capital appreciation by investing in a diversified, actively managed portfolio of global infrastructure companies, which may also include their suppliers of services or equipment. An active covered call writing program is used to generate additional income and reduce overall portfolio volatility.

Investment Highlights

- Diversified portfolio of global infrastructure companies
- Stable monthly income plus growth potential
- Covered call writing to enhance income and lower portfolio volatility
- Infrastructure equities have historically outperformed global equities with lower risk³
- Global trends - the energy transition, digitalization, reshoring, and government investment are creating significant long-term demand for infrastructure
