Overview

This ETF provides high monthly distributions and the opportunity for capital appreciation by investing in an actively managed portfolio of Global Real Assets companies (primarily real estate, utilities, infrastructure, resources), complemented by a proprietary covered call options program to enhance monthly income. Our Portfolio Management team first uses a top-down analysis to identify attractive sub-sectors. Rigorous fundamental analysis including the integration of ESG factors focuses the portfolio on well-positioned, large-capitalization Real Assets issuers. The Portfolio Managers then actively set the level of covered call writing with the goal of optimizing distributable cash and total returns, and reducing portfolio volatility.

FundataGrade Rating reflects performance as of October 31, 2022 and is subject to change monthly. The FundGrade rating system evaluates funds based on their risk-adjusted performance, measured by Sharpe Ratio, Sortino Ratio and Information Ratio. The score for each ratio is calculated individually, covering all time periods from 2 to 10 years. The scores are then equally weighted in calculating a monthly FundGrade rating. The FundGrade ratings are divided between five tranches from "A Grade" (superior performance) to "E Grade" (lower performance). The top 10% of funds earn an A Grade; the next 20% of funds earn a B Grade; the next 40% of funds earn a C Grade; the next 20% of funds receive a D Grade; and the lowest 10% of funds receive an E Grade. To be eligible, a fund must have received a FundGrade rating every month in the previous year. For more information, see www.FundGradeAwards.com.
