⁽¹⁾ Distribution rate is based on market price as at March 31, 2019. Source: Thomson Reuters.

⁽²⁾ The board of directors has approved an extension of the maturity date of the Class A and Preferred shares of the company. The current maturity date of November 28, 2019 will be extended for an additional period of three to five years. The new term will be announced by news release at least 60 days prior to the current termination date.

⁽³⁾ Please visit www.bromptongroup.com for further information.

⁽⁴⁾ Class A share distribution of \$0.10/mo (\$1.20/p.a) will be declared and paid in any month, only if the net asset value per unit (each unit consisting of one Class A and one Preferred share) is in excess of \$15.00, based on the most recently calculated NAV as of the date of each distribution declaration.

⁽⁵⁾ Returns are for the periods ended March 31, 2019. The table shows the Fund's compound return on a Class A share, Preferred share and unit for each period indicated, compared with the S&P/TSX Composite Index ("Composite Index"). The Composite Index tracks the performance of a broad index of large-capitalization issuers listed on the TSX. The Fund invests in a passively managed portfolio of 20 companies that is rebalanced at least annually. It is therefore not expected the Fund's performance will mirror that of the Composite Index, which has a more diversified portfolio. The Composite Index is calculated without the deduction of management fees, fund expenses and trading commissions, whereas the performance of the Fund's performance is calculated after deducting such fees and expenses. Further, the performance of the Fund's Class A shares is impacted by the leverage provided by the Fund's Preferred shares.

There are ongoing fees and expenses associated with owning shares of an investment fund. An investment fund must prepare disclosure documents that contain key information about the Fund.
