⁽¹⁾ Distribution rate based on market price as at September 30, 2019. Source: TMX Group Inc.

⁽²⁾ Subject to the extension of the term for periods of up to five years as determined by the board of directors. The announcement of any extension will be made by news release at least 60 days prior to the then current termination date.

⁽³⁾ Please visit www.bromptongroup.com for further information.

⁽⁴⁾ Class A share distribution of \$0.10/mo (\$1.20/p.a) will be declared and paid in any month, only if the net asset value per unit (each unit consisting of one Class A and one Preferred share) is in excess of \$15.00, based on the most recently calculated NAV as of the date of each distribution declaration.

⁽⁵⁾ Returns are for the periods ended September 30, 2019. The tables show the Fund's compound returns on a Class A share, Preferred share and unit for each period indicated, compared with the MSCI World Index ("MSCI"), the S&P/TSX Composite Index ("Composite Index") and the S&P/TSX Preferred Share Index ("Preferred Share Index"). MSCI captures large and mid cap representation across 23 developed Markets countries. MSCI covers approximately 85% of the free float-adjusted market capitalization in each country. The Composite Index tracks the performance of a broad index of large-capitalization issuers listed on the Toronto Stock Exchange ("TSX"). The Preferred Share Index tracks the performance, on a market weight basis, of a broad index of preferred shares trading on the TSX. The Fund invests in a passively managed portfolio of 20 companies that are included in the Composite Index and the portfolio is rebalanced at least annually. It is therefore not expected the Fund's performance will mirror that of the Composite Index which has a more diversified portfolio. Further, the Indexes is calculated without the deduction of management fees, fund expenses and trading commissions whereas the performance of the Fund is calculated after deducting such fees and expenses.
