

# Brompton Global Healthcare Income & Growth ETF

June, 2020

## Overview

This ETF provides high monthly distributions and the opportunity for capital appreciation through an investment in an actively managed portfolio of large cap global healthcare companies selected by Brompton, complemented by a proprietary covered call options program.

Our Portfolio Management team first uses a top-down analysis to identify attractive sub-sectors. Rigorous fundamental analysis focuses the portfolio on 15 to 30 global healthcare companies which offer a combination of growth and value characteristics. The PMs then set the level of covered call writing, with the goal of optimizing distributable cash and total returns.

## GLOBAL TRENDS DRIVING LONG TERM GROWTH IN HEALTHCARE

### 1 Aging Population Driving Higher Spending

Global population over the age of 65 is expected to reach 1.5 billion by the year 2050, more than double today's level.<sup>1</sup>

The global average life expectancy is rising and now exceeds 80 years in some developed countries.<sup>1</sup>

Healthcare spending increases with age; Americans over 65 spend 3x as much on healthcare than younger individuals.<sup>2</sup>
