WHY INVEST?

- Equal weight investment in common shares of Canada's four largest publicly-listed life insurance companies ("LifeCos")
- Manager believes Lifecos are attractively valued relative to historical levels, representing a compelling entry point
- Potential for capital appreciation for Class A shares due to leveraged exposure to the LifeCos, which have a dominant market position in Canada and significant international operations
- Distributions:
 - Preferred Shares - Target of \$0.625 p.a.; \$6.73 dividends declared since inception
 - Class A Shares - Target of \$0.90 p.a.⁴; \$5.88 distributions declared since inception

INVESTMENT OBJECTIVES

To provide holders of Preferred shares with fixed cumulative preferential quarterly cash distributions and to return the original issue price on the maturity date³.

To provide holders of Class A shares with regular monthly cash distributions and the opportunity for capital appreciation.

⁽¹⁾ Distribution rate is based on market price as at September 30, 2019. Source: TMX Group Inc.

⁽²⁾ Subject to the extension of the term for periods of up to five years as determined by the board of directors.

⁽³⁾ Please visit www.bromptongroup.com for further information.

⁽⁴⁾ Provided the net asset value per unit (each unit consisting of one Class A and one Preferred share) is in excess of \$15.00.

⁽⁵⁾ Returns are for the periods ended September 30, 2019. The table shows the Fund's compound return on a Class A share, Preferred share and unit for each period indicated, compared with the S&P/TSX Capped Financials Index ("Financials Index") and the S&P/TSX Composite Index ("Composite Index"). The Financials Index is derived from the Composite Index based on the financials sector of the Global Industry Classification Standard. The Composite Index tracks the performance, on a market weight basis, of a broad index of large-capitalization issuers listed on the TSX. The Fund passively invests on an equal weight basis in a portfolio comprised of four Canadian life insurance companies which are in both the Financials Index and the Composite Index. Since the indices have more diversified portfolios it is not expected that the Fund's performance will mirror that of the indices. The indices are calculated without the impact of management fees, fund expenses and trading commissions, whereas the performance of the Fund is calculated after deducting such fees and expenses. Further, the performance of the Fund's Class A shares is impacted by the leverage provided by the Fund's Preferred shares.

You will usually pay brokerage fees to your dealer if you purchase or sell shares of the Fund on the Toronto Stock Exchange or other alternative Canadian trading system (an "exchange"). If the shares are purchased or sold on an exchange, investors may pay more than the current net asset value when buying shares of the investment fund and may receive less than the current net asset value when selling them.

There are ongoing fees and expenses associated with owning shares of an investment fund. An investment fund must prepare disclosure documents that contain key information about the Fund. You can find more detailed information about the Fund in the public filings available at www.sedar.com. The indicated rates of return are the historical annual compounded total returns including changes in share value and reinvestment of all distributions and do not take into account certain fees such as redemption costs or income taxes payable by any securityholder that would have reduced returns. Investment funds are not guaranteed, their values change frequently and past performance may not be repeated.
