⁽¹⁾ Distribution rate based on market price as at June 30, 2020. Source: TMX Group Inc.

⁽²⁾ Subject to the extension of the term for periods of up to five years as determined by the board of directors. The announcement of any extension will be made by news release at least 60 days prior to the then current termination date.

⁽³⁾ Class A share distribution of \$0.10/mo (\$1.20/p.a) will be declared and paid in any month, only if the net asset value per unit (each unit consisting of one Class A and one Preferred share) is in excess of \$15.00, based on the most recently calculated NAV as of the date of each distribution declaration. As of the date of this brochure, the Class A distribution is suspended until this condition is met.

⁽⁴⁾ Returns are for the periods ended June 30, 2020. The table shows the Fund's compound return on a Class A share, Preferred share and unit for each period indicated compared with the S&P/TSX Capped Energy Index ("Energy Index"), the S&P/TSX Composite Index ("Composite Index") and the S&P/TSX Preferred Share Index ("Preferred Share Index") (together the "Indices"). The Energy Index is derived from the Composite Index and tracks the performance of equity securities that are in the energy sector of the Toronto Stock Exchange (the "TSX"). The Composite Index tracks the performance, on a market-weight basis, of a broad index of large-capitalization issuers listed on the TSX. The Preferred Share Index tracks the performance, on a market weight basis, of a broad index of preferred shares trading on the TSX that meet the criteria relating to size, liquidity and issuer rating. The Fund invests, on an approximately equal-weight basis, in a portfolio comprised of at least 15 large-capitalization North American oil and gas companies. Since the Indices have more diversified portfolios that only include TSX-listed issuers, it is not expected that the Fund's performance will mirror that of the Indices. The Indices are calculated without the deduction of management fees, fund expenses and trading commissions, whereas the performance of the Fund is calculated after deducting such fees and expenses. Further, the performance of the Fund's Class A shares is impacted by the leverage provided by the Fund's Preferred shares.

The indicated rates of return are the historical annual compounded total returns including changes in share value and reinvestment of all distributions and do not take into account certain fees such as redemption costs or income taxes payable by any securityholder that would have reduced returns. Investment funds are not guaranteed, their values change frequently and past performance may not be repeated.
