

PORTFOLIO MANAGER COMMENTARY - JUNE 30, 2020

Portfolio Review

Brompton Split Banc Corp. (the “Fund”) invests in a portfolio consisting primarily of the six largest Canadian banks as well as up to 10% of the portfolio can be invested, from time to time, in global financial companies through an investment in the Brompton North American Financials ETF (“BFIN”). BFIN is an exchange-traded fund that invests in the equity securities of North American financial services companies with a market capitalization of at least \$5 billion. Last year SBC’s mandate was modernized to allow the Manager to rebalance and/or reconstitute the portfolio more frequently than annually, at its discretion, for reasons other than mergers or fundamental corporate actions, so that the Fund may respond to security or market developments on a timely basis.

In the first half of 2020, Units (1 Class A share plus 1 Preferred share) of the Fund were down 19.0% versus the S&P/TSX Financials Index, which was down 16.2%, and the S&P/TSX Banks Index, which was down 15.5%. Canadian banks remain well capitalized (11%-12% CET1), which provides material cushion against loan losses, which are expected to impair retail and commercial portfolios amid the Covid-19 pandemic. We continue to believe the current pandemic will be an earnings issue for the banks, rather than a balance sheet issue. Canadian banks’ expense growth may moderate, yet the promise of positive operating leverage is likely out of reach as revenue risks rise. Banks are prudently managing costs and working to improve efficiency ratios, despite higher technology spending, yet near-term operational uncertainty may pressure goals.

The Fund was also negatively impacted from its holdings in BFIN, which was down 17.6%. BFIN’s performance was impacted by an overweight position in Diversified and Regional banks as well as Life and Health Insurance.

⁽¹⁾ Returns are for the periods ended June 30, 2020. The table shows the Fund's compound return on a Class A share, Preferred share and unit for each period indicated compared with the S&P/TSX Capped Financials Index ("Financials Index"), the S&P/TSX Composite Index ("Composite Index") and the S&P/TSX Preferred Share Index ("Preferred Index") (together the "Indices"). The Financials Index is derived from the Composite Index based on the financials sector of the Global Industry Classification Standard. The Composite Index tracks the performance, on a market weight basis, of a broad index of large-capitalization issuers listed on the Toronto Stock Exchange ("TSX"). The Preferred Share Index tracks the performance, on a market weight basis, of a broad index of preferred shares trading on the TSX that meet the criteria relating to size, liquidity and issuer rating. The Fund passively invests on an approximately equal weight basis in a portfolio comprised of six Canadian banks which are in both the Financials Index and the Composite Index but may hold up to 10% of its assets in global financial services companies. Since the Indices have more diversified portfolios, it is not expected that the Fund's performance will mirror that of the Indices. The Index returns are calculated without the impact of management fees, fund expenses and trading commissions, whereas the performance of the Fund is calculated after deducting such fees and expenses. Further, the performance of the Fund's Class A shares is impacted by the leverage provided by the Fund's Preferred shares.
