INVESTMENT APPROACH

Overview

This ETF provides high monthly distributions and the opportunity for capital appreciation through an investment in an actively managed portfolio of large cap European dividend growth companies selected by Brompton, complemented by a proprietary covered call options program.

Our PM team first uses top-down analysis to identify attractive sectors. Rigorous fundamental analysis focuses the portfolio on at least 20 large capitalization European equities that have a history (or in the managers view, a future likelihood) of dividend growth. The PMs then set the level of covered call writing, with the goal of optimizing distributable cash and total returns while reducing portfolio volatility.

Investment Highlights: Europe

Why Invest In Europe?

- Manager believes European equities are currently attractively valued and have significantly lagged the performance of their U.S. peers
- Diversification benefits: Europe provides an opportunity for Canadians to diversify by investing in equity sectors that are underrepresented in the Canadian market

Founded in 2000, Brompton is an experienced investment fund manager with income focused investment solutions including TSX traded closed-end funds and exchange-traded funds. Our funds are designed to address investors' cash flow requirements and to provide them with value-added diversification strategies. Since inception, Brompton has paid out over \$2.8 billion in distributions. For those investors that do not require the regular cash flow, our funds also offer commission-free distribution reinvestment plans for additional units in the funds. For the level of service provided, our funds are known for their low management fees and costs.
