EXCHANGE TRADED FUNDS

## Overview

This ETF provides high monthly distributions and the opportunity for capital appreciation through an investment in an actively managed portfolio of large cap global Healthcare companies selected by Brompton, complemented by a proprietary covered call options program.

Our PM team first uses top-down analysis to identify attractive sub-sectors. Rigorous fundamental analysis focuses the portfolio on 15 to 30 global Healthcare companies which offer a combination of growth and value characteristics. The PMs then actively set the level of covered call writing, with the goal of optimizing distributable cash and total returns while reducing portfolio volatility.

## Investment Highlights: Healthcare Sector

Strong historical earnings growth and stable relative share performance.

Under-represented sector in the Canadian equity market; diversification benefits.

### Long term trends are supportive of healthcare equities:

- **Demographics:** Aging world population is expected to result in increased demand for healthcare products and services
- **Emerging Markets:** Rising incomes should lead to higher healthcare spending
- **Innovation:** Opening up new frontiers for services, equipment and therapies
- **Mergers & Acquisitions:** Potential for added value for investors

## Portfolio: August 31, 2020
