\$10.00 per Preferred Share and \$15.00 per Class A Share

This prospectus qualifies the issuance of Preferred Shares and Class A Shares of Dividend Growth Split Corp. (the “Company”). The Preferred Shares and the Class A Shares are offered separately but will be issued only on the basis that an equal number of each class of shares will be issued and outstanding.

The Company will utilize a split share structure on a low cost basis to provide investors with an investment in 20 large capitalization Canadian equities selected from those TSX-listed equities that have demonstrated the highest dividend growth rate over a five-year period and have a current dividend yield of at least 2.0% per annum. These companies have a history of strong earnings growth, which has resulted in an average dividend growth rate of approximately 22% per annum over the past five years. The Portfolio has an average dividend yield of 3.2% per annum and an average market capitalization of \$24.8 billion.

Class A Shareholders will receive the benefits of high monthly cash distributions, the potential for capital appreciation and low management fees through an equally-weighted leveraged investment in the Portfolio. Preferred Shareholders will receive attractive quarterly distributions supported by the high quality of the underlying assets. The Preferred Shares have been provisionally rated Pfd-2 by Dominion Bond Rating Service Limited.

The investment objectives for the Class A Shares are to provide their holders with regular monthly cash distributions targeted to be \$0.10 per Class A Share representing a yield on the issue price of the Class A Shares of 8.0% per annum and to provide holders of Class A Shares with the opportunity for growth in net asset value per Class A Share.

The investment objectives for the Preferred Shares are to provide their holders with fixed cumulative preferential quarterly cash distributions in the amount of \$0.13125 per Preferred Share representing a yield on the issue price of the Preferred Shares of 5.25% per annum and to return the original issue price to holders of Preferred Shares at the time of redemption of such shares on November 30, 2014.

The net proceeds of the offering will be invested, on an equally-weighted basis, in a portfolio consisting of common shares of the 20 high dividend growth rate companies set out below.

Brompton Funds Management Limited is the Manager of the Company and is responsible for providing management services required by the Company. The Manager is a member of the Brompton Group of Companies which provides specialized financial products and services to clients. The Manager currently manages 22 public investment funds totalling approximately \$3.3 billion in assets as at September 20, 2007. See “The Manager”. Highstreet Asset Management Inc. is responsible for investing the net proceeds of the offering to purchase securities for the Portfolio and to rebalance the Portfolio in accordance with the Investment Guidelines and Rebalancing Criteria. Highstreet will at its discretion selectively write covered call options from time to time on the shares included in the Portfolio in order to generate additional distributable income for the Company. It is expected that cash distributions over the life of the Company will be derived primarily from dividends received on the securities in the Portfolio, net realized capital gains from the Portfolio (including premiums from writing covered call options) and, where those sources are insufficient, by returning capital. The Company would be required to generate a total return of approximately 9.4% per annum in order to return the original issue price of the Preferred Shares and Class A Shares to shareholders on the November 30, 2014 redemption date while making its targeted distributions. As at September 20, 2007, the Portfolio generated dividend income of 3.2% per annum and would be required to generate an additional 6.2% per annum from other sources to return and distribute such amounts.

(continued from cover)

Prospective purchasers may purchase (i) Class A Shares and/or Preferred Shares by a cash payment, or (ii) by an exchange of freely tradeable shares of Exchange Eligible Issuers, either Class A Shares and Preferred Shares together in Units (consisting of one Class A Share and one Preferred Share per Unit) or only Class A Shares (the “Exchange Option”). The Exchange Option does not constitute, and is not to be construed as, a take-over bid for an Exchange Eligible Issuer. Pursuant to the Exchange Option for Units, the number of Units issuable in exchange for each share of an Exchange Eligible Issuer deposited by a prospective purchaser will be determined by dividing (i) the weighted average trading price of the shares of such Exchange Eligible Issuer on the TSX during the three consecutive trading days ending on November 16, 2007, adjusted to reflect dividends and distributions, if any, that may be declared by the Exchange Eligible Issuer that will not be received by the Company (the “Exchange Price”) by \$25.00 (being the sum of the original issue price of one Class A Share and one Preferred Share). Pursuant to the Exchange Option for Class A Shares, prospective purchasers will receive Class A Shares in exchange for shares of Exchange Eligible Issuers and \$0.01 in cash per Class A Share. The number of Class A Shares issuable in exchange for each share of an Exchange Eligible Issuer deposited by a prospective purchaser will be determined by dividing the Exchange Price by \$15.00 (being the original issue price of a Class A Share). The exchange ratios will be adjusted to reflect the \$0.01 per Class A Share to be received by prospective purchasers. Fractional Class A Shares and/or Units will not be issued. All prospective purchasers (whether subscribing for shares by cash payment or through the Exchange Option) will be entitled to withdraw their purchase on or before midnight on the second business day after receipt or deemed receipt of the final prospectus and any amendment in accordance with applicable securities laws. See “Exchange Option” and “Purchasers’ Statutory Rights”. A purchaser utilizing the Exchange Option who is a resident of Canada for purposes of the *Income Tax Act* (Canada), who holds shares of Exchange Eligible Issuers as capital property and who enters into a joint election with the Company may obtain a tax-deferred rollover for Canadian tax purposes. **Purchasers who wish to obtain such a tax-deferred rollover must submit to the Company a duly completed Tax Election Package (as defined below) within 30 days of the Closing Date (as defined below). Certain Agents (as defined below) may require the Tax Election Package to be submitted at an earlier date.** See “Exchange Option”, “Canadian Federal Income Tax Considerations” and “Procedure for Tax Election”.

The Preferred Shares and the Class A Shares will be redeemed by the Company on November 30, 2014. The redemption price payable by the Company for each Preferred Share outstanding on November 30, 2014 will be equal to the lesser of (i) \$10.00 plus any accrued and unpaid distributions thereon, and (ii) the Net Asset Value of the Company (as defined herein) on that date divided by the number of Preferred Shares then outstanding. The redemption price payable by the Company for each Class A Share outstanding on November 30, 2014 will be equal to the greater of (i) the NAV per Unit on that date minus the sum of \$10.00 and any accrued and unpaid distributions on a Preferred Share, and (ii) nil. Holders of Preferred Shares and Class A Shares will also be entitled to surrender their shares for retraction concurrently on a quarterly basis and on a monthly basis prior to November 30, 2014. See “Description of Share Capital”.

The TSX has conditionally approved the listing of the Preferred Shares and the Class A Shares, subject to the fulfillment by the Company of the requirements of such stock exchange on or before January 15, 2008, including distribution to a minimum number of shareholders.

There is currently no market through which the Preferred Shares or Class A Shares may be sold and purchasers may not be able to resell securities purchased under this prospectus. The Agents may over-allot or effect transactions as described under “Plan of Distribution”.

In the opinion of counsel, if the Preferred Shares or the Class A Shares are listed on a prescribed stock exchange, Preferred Shares and Class A Shares will be qualified investments under the Tax Act for trusts governed by registered retirement savings plans, registered retirement income funds and deferred profit sharing plans. Trusts governed by registered education savings plans should consult their own advisors as to eligibility. See “Eligibility for Investment”.

See “Risk Factors” for a discussion of certain factors that should be considered by prospective investors in Preferred Shares and Class A Shares. There is no assurance that the Company will be able to achieve its distribution or capital preservation and appreciation objectives.

PROSPECTUS SUMMARY

The following is a summary of the principal features of this offering and should be read together with the more detailed information and financial data and statements contained elsewhere in this prospectus. Certain capitalized terms used, but not defined, in this summary are defined in the "Glossary of Terms". Unless otherwise indicated, all references to dollar amounts in this prospectus are to Canadian dollars.

The Company

Dividend Growth Split Corp. (the "Company") is a mutual fund corporation established under the laws of the Province of Ontario on September 25, 2007. The Manager of the Company is Brompton Funds Management Limited. Highstreet Asset Management Inc. is responsible for investing the net proceeds of the offering to purchase securities for the Portfolio and to rebalance the Portfolio in accordance with the Investment Guidelines and Rebalancing Criteria.

The Offering

Offering: The offering consists of Preferred Shares and Class A Shares of the Company. The Preferred Shares and the Class A Shares are offered separately but will be issued only on the basis that an equal number of each class of shares will be issued and outstanding.

Amounts:

Minimum:	\$14,000,000 (1,400,000 Preferred Shares)
Maximum:	\$40,000,000 (4,000,000 Preferred Shares)
Minimum:	\$21,000,000 (1,400,000 Class A Shares)
Maximum:	\$60,000,000 (4,000,000 Class A Shares)

Prices: \$10.00 per Preferred Share
\$15.00 per Class A Share

Investment Rationale: The Company will utilize a split share structure on a low cost basis to provide investors with an investment in 20 large capitalization Canadian equities selected from those TSX-listed equities that have demonstrated the highest dividend growth rate over a five-year period and have a current dividend yield of at least 2.0% per annum. These companies have a history of strong earnings growth, which has resulted in an average dividend growth rate of approximately 22% per annum over the past five years. The Portfolio has an average dividend yield of 3.2% per annum and an average market capitalization of \$24.8 billion.

Class A Shareholders will receive the benefits of high monthly cash distributions, the potential for capital appreciation and low management fees through an equally-weighted leveraged investment in the Portfolio. Preferred Shareholders will receive attractive quarterly distributions supported by the high quality of the underlying assets. The Preferred Shares have been provisionally rated Pfd-2 by Dominion Bond Rating Service Limited.

Investment Objectives: The investment objectives for the Class A Shares are to provide their holders with regular monthly cash distributions targeted to be \$0.10 per Class A Share representing a yield on the issue price of the Class A Shares of 8.0% per annum and to provide holders with the opportunity for growth in the net asset value per Class A Share.

The investment objectives for the Preferred Shares are to provide their holders with fixed cumulative preferential quarterly cash distributions in the amount of \$0.13125 per Preferred Share representing a yield on the issue price of the Preferred Shares of 5.25% per annum and to return the original issue price to holders of Preferred Shares at the time of redemption of such shares on November 30, 2014 (the "Maturity Date").

See "Investments of the Company — Investment Objectives".

Investment Guidelines: The net proceeds of the offering will be invested, on an equally-weighted basis, in a portfolio consisting of common shares of the 20 high dividend growth rate companies set out below.

Royal Bank of Canada	Manulife Financial Corporation	Teck Cominco Limited
The Toronto-Dominion Bank	Great-West Lifeco Inc.	TransCanada Corporation
The Bank of Nova Scotia	Sun Life Financial Inc.	TELUS Corporation
Canadian Imperial Bank of Commerce	Power Corporation of Canada	Enbridge Inc.
Bank of Montreal	IGM Financial Inc.	Shaw Communications Inc.
National Bank of Canada	Industrial Alliance Insurance and Financial Services Inc.	Canadian Utilities Limited
	AGF Management Limited	Manitoba Telecom Services Inc.

Highstreet is responsible for investing the net proceeds of the offering in the Portfolio securities and to rebalance the Portfolio in accordance with the Investment Guidelines and Rebalancing Criteria. Highstreet, in its discretion, will selectively write covered call options or cash covered put options from time to time on a portion of the shares held in the Portfolio to generate additional returns. The securities which may be subject to call options and put options and the terms of such options will vary from time to time, based on Highstreet's assessment of the market conditions. Given that Highstreet is 80% owned by AGF Management Limited, Highstreet does not currently expect to write options in respect of AGF shares for or in the Portfolio.

- (1) Market Capitalization is based on the closing market price per share on September 20, 2007 multiplied by the number of shares outstanding at that date.
- (2) Dividend yield is based on the most recently announced quarterly dividend rates annualized, divided by the closing market price at September 20, 2007.
- (3) Represents the five-year annualized dividend growth rate to September 20, 2007.
- (4) Average annual total return is based on the period from September 20, 2000 to September 20, 2007.
- (5) Total return is the compounded annual growth rate assuming reinvestment of dividends or distributions.

Distributions: It is expected that cash distributions on the Preferred Shares and the Class A Shares over the life of the Company will be derived primarily from dividends received on the securities in the Company's Portfolio, net realized capital gains from the Portfolio including premiums from writing covered call options and, where those sources are insufficient, by returning capital.

Assuming that the gross proceeds of the offering are \$75 million and fees and expenses are as presented in this prospectus, and assuming that the original issue prices of the Preferred Shares and the Class A Shares are returned to the holders on the Maturity Date, in order to achieve the Company's targeted annual distributions for the Class A Shares (which assumes that the Preferred Share distributions have been made), the Company will be required to generate an average annual total return (comprised of net realized capital gains, option premiums and dividends) on the Portfolio of approximately 9.4%. As at September 20, 2007, the Portfolio generated dividend income of 3.2% per annum and would be required to generate an additional 6.2% per annum from other sources to return and distribute such amounts.

Exchange Option:

Prospective purchasers may purchase (i) Class A Shares and/or Preferred Shares by a cash payment, or (ii) by an exchange of freely tradeable shares of Exchange Eligible Issuers, either Class A Shares and Preferred Shares together in Units (consisting of one Class A Share and one Preferred Share per Unit) or only Class A Shares (the “Exchange Option”). The Exchange Option does not constitute, and is not to be construed as, a take-over bid for an Exchange Eligible Issuer.

In order to utilize the Exchange Option, a prospective purchaser must deposit shares of one or more Exchange Eligible Issuers with the Exchange Agent through CDS prior to 5:00 p.m. (Toronto time) on November 15, 2007. Such deposit must be made by way of a book-entry deposit through a CDS Participant. CDS Participants may have an earlier deadline for receiving instructions from their clients to make deposits into the Exchange Option. See “Exchange Option”.

Under the Exchange Option for Units, the number of Units (consisting of one Class A Share and one Preferred Share) issuable in exchange for each share of an Exchange Eligible Issuer deposited by a prospective purchaser will be determined by dividing the Exchange Price by \$25.00 (being the sum of the original issue price of one Class A Share and one Preferred Share). Fractional Units will not be issued.

Under the Exchange Option for Class A Shares, prospective purchasers will receive that number of Class A Shares issuable in exchange for shares of Exchange Eligible Issuers as determined in the manner described below and \$0.01 in cash per Class A Share. The number of Class A Shares issuable in exchange for each share of an Exchange Eligible Issuer deposited will be determined by dividing the Exchange Price by \$15.00 (being the original issue price of a Class A Share). Such exchange ratios will be adjusted to reflect the \$0.01 per Class A Share to be received by prospective purchasers. Fractional Class A Shares will not be issued.

The Company issued a press release on November 20, 2007 announcing the exchange ratios under the Exchange Option for shares of the Exchange Eligible Issuers. See “Exchange Option”.

All prospective purchasers (whether subscribing for shares by cash payment or through the Exchange Option) will be entitled to withdraw their purchase on or before midnight on the second business day after receipt or deemed receipt of the final prospectus and any amendment in accordance with applicable securities laws. See “Exchange Option” and “Purchasers’ Statutory Rights”.

A purchaser utilizing the Exchange Option who is a resident of Canada for purposes of the *Income Tax Act* (Canada) (the “Tax Act”), who holds shares of Exchange Eligible Issuers as capital property and who enters into a joint election with the Company may obtain a tax-deferred rollover for Canadian tax purposes. **Purchasers who wish to obtain such a tax-deferred rollover must submit to the Company a duly completed Tax Election Package within 30 days of the Closing Date. Certain Agents may require the Tax Election Package to be submitted at an earlier date.**

See “Exchange Option”, “Canadian Federal Income Tax Considerations” and “Procedure for Tax Election”.

Use of Proceeds:

The net proceeds from the issue of Preferred Shares and Class A Shares of the Company offered hereby after payment of the Agents’ Fee and the offering expenses will be used by the Company to acquire the securities that will comprise the Portfolio.

Manager:

Brompton Funds Management Limited is the manager of the Company and is responsible for providing management and administrative services required by the Company. The Manager is a member of the Brompton Group of Companies which provides specialized financial products and services to clients. The Manager currently manages 22 public investment funds with total assets of approximately \$3.3 billion as at September 20, 2007. See “The Manager”.

Highstreet:

Highstreet Asset Management Inc. is responsible for investing the net proceeds of the offering to purchase securities for the Portfolio and to rebalance the Portfolio in accordance with the Investment Guidelines and Rebalancing Criteria. Highstreet is an investment management firm with total assets under management as at August 31, 2007 of approximately \$5.2 billion. Highstreet, in its discretion, will selectively write covered call options from time to time on the shares included in the Portfolio in order to generate additional distributable income for the Company. See “Highstreet”.

Eligibility for Investment:

In the opinion of counsel, if the Preferred Shares or the Class A Shares are listed on a prescribed stock exchange, such shares will be qualified investments under the Tax Act for trusts governed by registered retirement savings plans, registered retirement income funds or deferred profit sharing plans. Trusts governed by registered education savings plans should consult their own advisors as to eligibility.

Preferred Shares

- Rating:** The Preferred Shares have been provisionally rated Pfd-2 by DBRS.
- Distributions:** Holders of record of Preferred Shares on the last business day of February, May, August and November will be entitled to receive fixed cumulative preferential quarterly cash distributions of \$0.13125 per share to yield 5.25% per annum on the issue price of Preferred Shares and will be paid on or before the tenth business day following the end of the period for which the distribution is payable. Such distributions may consist of ordinary dividends, capital gains dividends or returns of capital. See “Description of Share Capital — Certain Provisions of the Preferred Shares”. The initial distribution on the Preferred Shares payable to Preferred Shareholders of record on February 29, 2008, will be pro-rated based on an anticipated closing date of December 3, 2007 and is expected to be \$0.12837 per Preferred Share.
- Redemption:** The Preferred Shares will be redeemed by the Company on November 30, 2014. The redemption price payable by the Company for a Preferred Share on that date will be equal to the lesser of (i) \$10.00 plus any accrued and unpaid distributions thereon, and (ii) the NAV of the Company on that date divided by the number of Preferred Shares then outstanding.
- Retraction Privileges:** **Monthly Retraction:** Preferred Shares may be surrendered at any time for retraction by the Company but will be retracted only on a monthly Retraction Date. Preferred Shares surrendered for retraction by a holder of Preferred Shares at least ten business days prior to a Retraction Date will be retracted on such Retraction Date and such Shareholder will be paid on or before the tenth business day of the following month. Shareholders whose Preferred Shares are retracted on a Retraction Date will be entitled to receive a retraction price per share equal to 96% of the lesser of (i) the NAV per Unit determined as of the relevant Retraction Date, less the cost to the Company of the purchase of a Class A Share for cancellation, and (ii) \$10.00. The cost of the purchase of a Class A Share will include the purchase price of the Class A Share, commission and such other costs, if any, related to the liquidation of any portion of the Portfolio required to fund such purchase. See “Description of Share Capital — Certain Provisions of the Preferred Shares — Retraction Privileges”. On any monthly retraction of Preferred Shares the Company will purchase for cancellation an equal number of Class A Shares in the market so that there will be an equal number of Preferred Shares and Class A Shares outstanding at all times.
- Quarterly Concurrent Retraction:** A holder of a Preferred Share may concurrently retract an equal number of Preferred Shares and Class A Shares on a Quarterly Retraction Date, commencing in February 2008, at a retraction price equal to the NAV per Unit on that date, less any costs associated with the retraction, including commissions and other such costs, if any, related to the liquidation of any portion of the Portfolio required to fund such retraction. The Preferred Shares and Class A Shares must both be surrendered for retraction at least ten business days prior to a Quarterly Retraction Date. Payment of the proceeds of retraction will be made on or before the tenth business day of the following month.
- Priority:** The Preferred Shares rank in priority to the Class A Shares with respect to the payment of distributions and the repayment of capital in the dissolution, liquidation or winding up of the Company.

Class A Shares

- Distributions:** The Company intends to pay monthly non-cumulative distributions to the holders of Class A Shares in an amount targeted to be \$0.10 per Class A Share representing a yield on the issue price of the Class A Shares of 8.0% per annum. Such distributions will be paid on or before the tenth business day of the month following the month in respect of which the distribution is made. Such distributions may consist of ordinary dividends, capital gains dividends or returns of capital. See “Description of Share Capital — Certain Provisions of the Class A Shares”. The initial distribution payable to Class A Shareholders of record on December 31, 2007, will be pro-rated based on an anticipated closing date of December 3, 2007 and is expected to be \$0.09355 per Class A Share. There can be no assurance that the Company will be able to pay distributions to the holders of Class A Shares at the targeted rate or at all.
- No distributions will be paid on the Class A Shares if (i) the distributions payable on the Preferred Shares are in arrears, or (ii) in respect of a cash distribution, after payment of the distribution by the Company, the NAV per Unit would be less than \$15.00. In addition, it is intended that the Company will not pay distributions in excess of the targeted \$0.10 per month, on the Class A Shares if, after payment of the distribution, the NAV per Unit would be less than \$25.00 unless the Company has to make such distributions to fully recover refundable taxes.

Redemption: The Class A Shares will be redeemed by the Company on November 30, 2014. The redemption price payable by the Company for a Class A Share on that date will be equal to the greater of (i) the NAV per Unit minus the sum of \$10.00 plus any accrued and unpaid distributions on a Preferred Share, and (ii) nil.

Retraction Privileges: **Monthly Retraction:** Class A Shares may be surrendered by holders thereof at any time for retraction by the Company but will be retracted only on a monthly Retraction Date. Class A Shares surrendered for retraction by a holder of Class A Shares at least ten business days prior to a Retraction Date will be retracted on such Retraction Date and such Shareholder will be paid on or before the tenth business day of the following month. Shareholders whose Class A Shares are retracted on a Retraction Date will be entitled to receive a retraction price per Class A Share equal to 96% of the difference between (i) the NAV per Unit determined as of the relevant Retraction Date, and (ii) the cost to the Company of the purchase of a Preferred Share for cancellation. The cost of the purchase of a Preferred Share will include the purchase price of the Preferred Share, commission and such other costs, if any, related to the liquidation of any portion of the Company's Portfolio required to fund such purchase. If the NAV per Unit is less than \$10.00, the retraction price of a Class A Share will be nil. See "Description of Share Capital — Certain Provisions of the Class A Shares — Retraction Privileges". On any monthly retraction of Class A Shares the Company will purchase for cancellation an equal number of Preferred Shares in the market so that there will be an equal number of Preferred Shares and Class A Shares outstanding at all times.

Quarterly Concurrent Retraction: A holder of Class A Shares may concurrently retract an equal number of Class A Shares and Preferred Shares on a Quarterly Retraction Date, commencing in February 2008, at a retraction price per share equal to the NAV per Unit on that date, less any costs associated with the retraction, including commissions and other such costs, if any, related to the liquidation of any portion of the Portfolio required to fund such retraction. The Class A Shares and the Preferred Shares must both be surrendered at least ten business days prior to a Quarterly Retraction Date. Payment of the proceeds will be made on or before the tenth business day of the following month.

Risk Factors

An investment in Preferred Shares or Class A Shares is subject to certain risk factors, including:

- (i) the financial performance of the Portfolio;
- (ii) there is no assurance that the Company will be able to meet its distribution objectives or will return an amount equal to the original issue price of the Preferred Shares or an amount at least equal to the original issue price of the Class A Shares;
- (iii) the market price of the Preferred Shares and the Class A Shares will be sensitive to interest rate fluctuations;
- (iv) the Class A Shares represent a leveraged investment and therefore the potential returns on such shares is amplified both to the benefit and detriment of the Class A Shareholders;
- (v) there can be no assurance that the Preferred Shares will maintain their rating by DBRS. Any lowering or withdrawal of the rating may have a negative effect on the market value of the Preferred Shares;
- (vi) reliance on Highstreet;
- (vii) liquidity and counterparty risks associated with the writing of covered call options and cash covered put options and other risks associated with the Company's use of derivative instruments;
- (viii) change in volatility levels of the securities in the Portfolio;
- (ix) the Company's lack of operating history and the current absence of a public trading market for the Preferred Shares and the Class A Shares;
- (x) the fact that the Company is relying on the CRA's published administrative position regarding the tax treatment of option transactions and has not requested or received an advance income tax ruling relating to the application of this administrative position to the Company;
- (xi) if a significant number of Class A Shares and Preferred Shares are redeemed, the trading liquidity of the Shares could be significantly reduced;
- (xii) counterparty risks associated with securities lending; and
- (xiii) risks associated with the Tax Election.

See "Risk Factors".

Canadian Federal Income Tax Considerations

Taxation of the Company:

At the date of the closing of the offering, provided that the Preferred Shares or the Class A Shares are listed on a prescribed stock exchange in Canada, the Company will qualify, and intends to continue to qualify, as a mutual fund corporation under the Tax Act. As a mutual fund corporation, the Company will be entitled to capital gains refunds in respect of: (i) capital gains dividends paid by it; and (ii) qualifying redemptions. As a result thereof and of the deduction of expenses and taxable dividends on shares of taxable Canadian corporations, the Company should not be subject to any significant net income tax liability.

Taxation of Shareholders Resident in Canada:

Distributions: Dividends other than capital gains dividends (“Ordinary Dividends”) received by individuals on the Preferred Shares and the Class A Shares will be subject to the normal gross-up and dividend tax credit rules for dividends received from taxable Canadian corporations. On February 21, 2007 amendments to the Tax Act were enacted to provide an enhanced dividend gross-up and tax credit for eligible dividends received after 2005 from taxable Canadian corporations. Ordinary Dividends received by corporations (other than specified financial institutions) on the Preferred Shares or the Class A Shares will generally be deductible in computing taxable income.

Ordinary Dividends received by corporations (other than private corporations and certain other corporations) on the Preferred Shares (but not the Class A Shares) will be subject to a 10% tax under Part IV.1 of the Tax Act to the extent that such dividends are deductible in computing taxable income.

Ordinary Dividends received by private corporations (and certain other corporations) on the Preferred Shares and Class A Shares will be subject to a refundable tax under Part IV of the Tax Act.

The amount of any capital gains dividend received by a Shareholder from the Company will be considered to be a capital gain of the Shareholder from the disposition of capital property in the taxation year of the Shareholder in which the capital gains dividend is received.

The amount of any payment received by a Shareholder as a return of capital on a Preferred Share or a Class A Share will not be required to be included in income. Instead, such amount will reduce the adjusted cost base of such Share to such Shareholder, assuming such Share is held as capital property by such Shareholder. To the extent that such adjusted cost base to such Shareholder would otherwise be a negative amount, the Shareholder will be deemed to have realized a capital gain at that time and the adjusted cost base will be increased by the amount of such deemed capital gain.

Dispositions: A disposition, whether by way of redemption, retraction or otherwise, of a Preferred Share or a Class A Share held as capital property will result in a capital gain or capital loss to the holder thereof.

Exchange Option-Tax Election: A purchaser utilizing the Exchange Option who is a resident of Canada for purposes of the Tax Act, who holds shares of an Exchange Eligible Issuer as capital property and who enters into a joint election with the Company may obtain a tax-deferred rollover for Canadian tax purposes. See “Exchange Option”, “Purchasers’ Statutory Rights”, “Canadian Federal Income Tax Considerations” and “Procedure for Tax Election”.

Purchasers who qualify to make the joint tax election with the Company and who wish to take advantage of such tax-deferred rollover must submit to the Company duly completed Tax Election Packages within 30 days of the Closing Date as described under the heading “Procedure for Tax Election”. Certain Agents may require the Tax Election Package to be submitted at an earlier date.

Exchange Option-No Tax Election: A purchaser utilizing the Exchange Option who does not enter into a joint election with the Company generally will realize a capital gain (or a capital loss) in the taxation year of the shareholder in which the disposition of the shares of the Exchange Eligible Issuer occurs to the extent that the fair market value of the shares received on the exchange (plus the amount of any cash received) exceed (or are less than) the adjusted cost base of the shares of the Exchange Eligible Issuer to the shareholder and any reasonable costs of disposition. The Company believes that the issue price of the shares offered hereunder reflects their fair market value but this is not binding on the Canada Revenue Agency.

For a detailed explanation of certain Canadian federal income tax considerations, see “Canadian Federal Income Tax Considerations”.

Summary of Fees And Expenses Payable by the Company

The following table contains a summary of the fees and expenses payable by the Company. For further particulars see “Fees and Expenses”.

<u>Type of Charge</u>	<u>Description</u>
Fees payable to the Agents for selling Preferred Shares and Class A Shares	\$0.30 per Preferred Share (3.0%) \$0.90 per Class A Share (6.0%)
Expenses of issue	The Company will pay the expenses incurred in connection with the offering of Preferred Shares and Class A Shares by the Company, estimated to be \$525,000 in the case of the minimum offering and \$720,000 in the case of the maximum offering, but not to exceed 1.5% of the gross proceeds of the offering.
Fees payable to the Manager and Highstreet	An annual fee of 0.60% of the Company’s NAV calculated and payable monthly, plus applicable taxes, will be paid to the Manager for acting as manager of the Company. The Manager will be responsible for paying the fees of Highstreet out of this amount.
Service Fee	A Service Fee will be paid to each dealer whose clients hold Class A Shares. The Service Fee will be calculated and paid at the end of each calendar quarter and will be equal to 0.40% annually of the value of the Class A Shares held by clients of the dealers, plus any applicable taxes. For these purposes, the value of a Class A Share will be the NAV per Unit less \$10.00 plus any accrued and unpaid distributions on a Preferred Share.
Ongoing Expenses	The Company will pay all ordinary expenses incurred in connection with its operation and administration, estimated to be \$205,000 per annum. The Company will also be responsible for commissions and other costs of portfolio transactions and any extraordinary expenses which it may incur from time to time.

THE COMPANY

Dividend Growth Split Corp. is a mutual fund corporation incorporated under the laws of the Province of Ontario on September 25, 2007. The Articles of the Company will be amended prior to closing to create the Preferred Shares and the Class A Shares. See "Description of Share Capital". The Manager of the Company is Brompton Funds Management Limited. Highstreet Asset Management Inc. is responsible for investing the net proceeds of the offering to purchase securities for the Portfolio and to rebalance the Portfolio in accordance with the Investment Guidelines and Rebalancing Criteria.

The principal office of the Company and the Manager is located at Bay Wellington Tower, Brookfield Place, 181 Bay Street, Suite 2930, Toronto, Ontario, M5J 2T3. The principal office of Highstreet is located at 244 Pall Mall Street, Suite 350, London, Ontario, N6A 5P6.

Status of the Company

While the Company is technically considered to be a mutual fund corporation under the securities legislation of certain provinces of Canada, the Company is not a conventional mutual fund and has obtained exemptions from certain requirements of NI 81-102 and NI 81-106.

The Company differs from conventional mutual funds in a number of respects, most notably as follows (i) while the Preferred Shares and Class A Shares of the Company may be surrendered at any time for redemption, the redemption price is payable monthly whereas the securities of most conventional mutual funds are redeemable daily, (ii) the Preferred Shares and Class A Shares of the Company are to have a stock exchange listing whereas the securities of most conventional mutual funds do not, and (iii) unlike most conventional mutual funds, the Preferred Shares and Class A Shares will not be offered on a continuous basis.

Rating of the Preferred Shares

The Preferred Shares have been provisionally rated Pfd-2 by DBRS. A security rating is not a recommendation to buy, sell or hold securities and may be subject to revision or withdrawal at any time by DBRS.

Rationale for the Company

The Company will utilize a split share structure on a low cost basis to provide investors with an investment in 20 large capitalization Canadian equities selected from those TSX-listed equities that have demonstrated the highest dividend growth rate over a five-year period and have a current dividend yield of at least 2.0% per annum. These companies have a history of strong earnings growth, which has resulted in an average dividend growth rate of approximately 22% per annum over the past five years. The Portfolio has an average dividend yield of 3.2% per annum and an average market capitalization of \$24.8 billion.

Class A Shareholders will receive the benefits of high monthly cash distributions, the potential for capital appreciation and low management fees through an equally-weighted leveraged investment in the Portfolio. Preferred Shareholders will receive attractive quarterly distributions supported by the high quality of the underlying assets. The Preferred Shares have been provisionally rated Pfd-2 by Dominion Bond Rating Service Limited.

INVESTMENTS OF THE COMPANY

Investment Objectives

The investment objectives for the Class A Shares are to provide their holders with regular monthly cash distributions targeted to be \$0.10 per Class A Share representing a yield on the issue price of the Class A Shares of 8.0% per annum and to provide holders of Class A Shares with the opportunity for growth in net asset value per Class A Share.

The investment objectives for the Preferred Shares are to provide their holders with fixed cumulative preferential quarterly cash distributions in the amount of \$0.13125 per Preferred Share representing a yield on the issue price of the Preferred Shares of 5.25% per annum and to return the original issue price to holders of Preferred Shares at the time of redemption of such shares on November 30, 2014.

Investment Guidelines

The net proceeds of the offering will be invested, on an equally-weighted basis, in a portfolio consisting of common shares of the 20 high dividend growth rate companies set out below.

**Royal Bank of Canada
The Toronto-Dominion Bank
The Bank of Nova Scotia
Canadian Imperial Bank of
Commerce
Bank of Montreal
National Bank of Canada**

**Manulife Financial Corporation
Great-West Lifeco Inc.
Sun Life Financial Inc.
Power Corporation of Canada
IGM Financial Inc.
Industrial Alliance Insurance and
Financial Services Inc.
AGF Management Limited**

**Teck Cominco Limited
TransCanada Corporation
TELUS Corporation
Enbridge Inc.
Shaw Communications Inc.
Canadian Utilities Limited
Manitoba Telecom Services Inc.**

Highstreet Asset Management Inc. is responsible for investing the net proceeds of the offering to purchase securities for the Portfolio and to rebalance the Portfolio in accordance with the Investment Guidelines and Rebalancing Criteria. Highstreet, in its discretion, will selectively write covered call options and cash covered put options from time to time in respect of the shares included in the Portfolio in order to generate additional distributable income for the Company. Given that Highstreet is 80% owned by AGF Management Limited (“AGF”), Highstreet does not currently expect to write options in respect of AGF shares for or in the Portfolio. The Company may from time to time hold cash and cash equivalents.

Rebalancing Criteria

The Portfolio will be rebalanced at least annually, (i) to adjust for changes in the market value of investments, (ii) to remove a company included in the Portfolio that ceases to pay or suspends its dividends, (iii) to reflect the impact of a merger, acquisition or other significant corporate action or event of or affecting one or more of the companies in the Portfolio, and (iv) in exceptional circumstances, the board may, in its discretion, remove from or purchase securities of a company for the Portfolio, provided that the investment acquired complies with the Company's Investment Restrictions.

The Portfolio may contain more or less than 20 investments but shall not include less than 15 investments. In addition, between the rebalancing dates, the Company may sell Portfolio securities for working capital purposes or replace Portfolio securities with proceeds from the exercise of covered call options previously written. In order to rebalance the Portfolio, Highstreet will, at the time of rebalancing, calculate the market value of the Portfolio, less any amount to be used for working capital purposes, and divide such resultant amount by the number of issuers to be included in the Portfolio. Rebalancing transactions will be effected as soon as is reasonably practicable thereafter. As a result of changes in market prices of the shares in the Portfolio between rebalancing dates, it is not expected that the issuers included in the Portfolio will be exactly equally-weighted at any given time.

The Portfolio may also be rebalanced in the event of any future offering of shares by the Company. New Preferred Shares and Class A Shares may not be issued for net proceeds per Unit less than the most recently calculated Net Asset Value per Unit prior to the date of the settling of the subscription price by the Company.

Investment Restrictions

The Company is subject to certain investment restrictions that, among other things, limit the equity securities and other securities that the Company may acquire for the Portfolio. The Company's investment restrictions may not be changed without the approval of the holders of the Preferred Shares and Class A Shares by a two-thirds majority vote of such holders who attend and vote at a meeting called for such purpose. See “Shareholder Matters — Acts Requiring Shareholder Approval”. The Company's investment restrictions provide that the Company may:

- (a) in addition to the Portfolio, only purchase equity securities of a TSX-listed issuer if such securities are common shares with a dividend growth rate over the previous five-year period, with a minimum current dividend yield of 2% per annum and a minimum market capitalization of \$2 billion. The Company will generally invest in Portfolio securities on an equally-weighted basis however, the board, will have discretion to determine the appropriate composition of the Portfolio in the event of mergers or other transactions involving the companies, as the board may see fit;

- (b) purchase debt securities only if such securities are cash equivalents;
- (c) write a call option in respect of any security only if such security is actually held by the Company in the Portfolio at the time the option is written;
- (d) dispose of any security included in the Company's Portfolio that is subject to a call option written by the Company only if such option has either terminated or expired;
- (e) write put options in respect of any security only if (i) the Company is permitted to invest in such security, and (ii) so long as the options are exercisable, the Company continues to hold cash equivalents sufficient to acquire the security underlying the options at the aggregate strike price of such options;
- (f) reduce the total amount of cash equivalents held by the Company, if the total amount of cash equivalents held by the Company remains an amount not less than the aggregate strike price of all outstanding put options written by the Company;
- (g) not acquire or continue to hold any security that is a "specified property" as defined in subsection 18(1) of the legislative proposals to amend the Tax Act released by the Minister of Finance (Canada) on September 16, 2004 if the total of all amounts each of which is the fair market value of a specified property would exceed 10% of the total of all amounts each of which is the fair market value of a property of the Company;
- (h) not enter into any arrangement (including the acquisition of securities for the Portfolio and the writing of covered call options in respect thereof) where the result is a dividend rental arrangement for the purposes of the Tax Act; and
- (i) not purchase derivatives and enter into derivative or other transactions, including call options and put options, and short-sale arrangements, except as specifically permitted under NI 81-102 or as permitted by the Canadian Securities Administrators.

In addition, but subject to these investment restrictions, the Company has adopted the standard investment restrictions and practices set forth in NI 81-102 (as it may be amended from time to time). A copy of such standard investment restrictions and practices will be provided by the Manager to any person on request.

Securities Lending

In order to generate additional returns, the Company may lend Portfolio shares to securities borrowers acceptable to the Company pursuant to the terms of a securities lending arrangement under which (i) the borrower will pay to the Company a negotiated securities lending fee and will make compensation payments to the Company equal to any distributions received by the borrower on the securities borrowed, (ii) the securities loans must qualify as "securities lending arrangements" for the purposes of the Tax Act, and (iii) the Company will receive collateral security. The securities lending agent for the Company will be responsible for the ongoing administration of the securities loans, including the obligation to mark-to-market the collateral on a daily basis. All securities lending arrangements will comply with the provisions of NI 81-102 and such other conditions as the Company may require.

THE PORTFOLIO

Composition

The Company will initially invest the net proceeds of the offering primarily in shares of the issuers listed above under "Investments of the Company — Investment Guidelines" and may from time to time write covered call options on or cash covered put options in respect of a portion of the shares held in the Portfolio to generate additional returns.

Voting Rights in the Portfolio Securities

Shareholders will have no voting rights in respect of securities held by the Company. The Company has delegated to the Manager the responsibility for voting on matters for which the Company receives, in its capacity as a securityholder, proxy materials for a meeting of securityholders of an issuer included in the Portfolio. In fulfilling these duties, the Manager has appointed Highstreet and Highstreet has adopted the following policies and procedures: (i) it is Highstreet's policy to seek to ensure that proxies for securities held by the Company are voted consistently and in the best interests of the Company; (ii) Highstreet has engaged the services of a reputable third party that specializes in voting proxies and whose established guidelines and practices meet the Manager's fiduciary responsibility outlined above, to vote the proxies related to the securities held by the Company and to provide information related to such voting for the purpose of providing the necessary reporting by the Company; (iii) the Manager proposes to adopt the written policies and procedures of Highstreet that are based on established guidelines and practices; and (iv) Highstreet will review the recommendations made by such third party from time to time to monitor compliance with the established policies and procedures.

The policies of the third party service provider adopted by Highstreet set forth guidelines for voting on routine matters including appointment of auditors and the election of directors and on non-routine matters such as shareholder rights plans, mergers and corporate restructurings and share based compensation plans. Highstreet will review voting positions taken by the service provider to ascertain whether proxies are voted in compliance with the established policies and procedures. Highstreet will maintain annual proxy voting records for the Company for record keeping purposes.

Credit Facility

The Company may establish a credit facility which may be used by the Company for working capital purposes. The Company expects that the maximum amount it borrows thereunder will be limited to 5% of NAV. The Company may pledge Portfolio shares as collateral for amounts borrowed thereunder.

Covered Call Option Writing

The Company intends to sell call options in respect of some or all of the common shares held in the Portfolio. Such call options may be either exchange traded options or over-the-counter options. Since call options will be written only in respect of common shares that are in the Portfolio and the Investment Restrictions of the Company prohibit the sale of securities subject to an outstanding option, the call options will be covered call options at all times.

The holder of a call option purchased from the Company will have the option, exercisable during a specific time period or at expiry, to purchase the securities underlying the option from the Company at the strike price per security. By selling call options, the Company will receive option premiums, which are generally paid within one business day of the writing of the option. If at any time during the term of a call option or at expiry the market price of the underlying securities is above the strike price, the holder of the option may exercise the option and the Company will be obligated to sell the securities to the holder at the strike price per security. Alternatively, the Company may repurchase a call option it has written that is in-the-money by paying the market value of the call option. If, however, the option is out-of-the-money at expiration of the call option, the holder of the option will likely not exercise the option, the option will expire and the Company will retain the underlying security. In each case, the Company will retain the option premium. See "Call Option Pricing".

The amount of option premium depends upon, among other factors, the volatility of the price of the underlying security: generally, the higher the volatility, the higher the option premium. In addition, the amount of the option premium will depend upon the difference between the strike price of the option and the market price of the underlying security at the time the option is written. The smaller the positive difference (or the larger the negative difference), the more likely it is that the option will become in-the-money during the term and, accordingly, the greater the option premium. See "Call Option Pricing".

When a call option is written on a security in the Portfolio, the amounts that the Company will be able to realize on the security during the term of the call option will be limited to the dividends received prior to the exercise of the call option during such period plus an amount equal to the sum of the strike price and the premium received from writing the option. In essence, the Company will forego potential returns resulting from any price appreciation of the security underlying the option above the strike price in favour of the certainty of receiving the option premium.

Call Option Pricing

Many investors and financial market professionals price call options based on the Black-Scholes Model. In practice, however, actual option premiums are determined in the marketplace and there can be no assurance that the values generated by the Black-Scholes Model can be attained in the market.

Under the Black-Scholes Model (modified to include distributions), the primary factors that affect the option premium received by the seller of a call option are the following:

Factor	Description
<i>Price volatility of the underlying security</i>	The volatility of the price of a security measures the tendency of the price of the security to vary during a specified period. The higher the price volatility, the more likely that the price of that security will fluctuate (either positively or negatively) and the greater the option premium. Price volatility is generally measured in percentage terms on an annualized basis, based on price changes during a period of time immediately prior to or trailing the date of calculation.
<i>The difference between the strike price and the market price of the underlying security at the time the option is written</i>	The smaller the positive difference (or the larger the negative difference), the greater the option premium.
<i>The term of the option</i>	The longer the term, the greater the call option premium.
<i>The “risk-free” or benchmark interest rate in the market in which the option is issued</i>	The higher the risk-free interest rate, the greater the call option premium.
<i>The distributions expected to be paid on the underlying security during the relevant term</i>	The greater the distributions, the lower the call option premium.

Call Option Volatility History

The historical average of the trailing 30-day volatility history (expressed in percentage terms on an annualized basis) for all of the common shares currently that would be included in the Portfolio for the period beginning September 20, 2000 and ending September 20, 2007 is as follows:

	<u>Average</u>	<u>Low</u>	<u>High</u>	<u>Current</u>
Portfolio⁽¹⁾	21.9%	12.7%	43.5%	21.5%

⁽¹⁾ Data provided by Highstreet.

The information set forth above is historical and is not intended to be, nor should it be construed as, an indication as to future volatility levels of the securities in the Portfolio.

Utilization of Cash Equivalents

The Company may, from time to time, hold a portion of its assets in cash equivalents. The Company may also, from time to time, utilize such cash equivalents to provide cover in respect of the writing of cash covered put options, which is intended to generate additional returns and to reduce the net cost of acquiring the securities subject to the put options and for working capital purposes. Such cash covered put options will only be written in respect of securities in which the Company is permitted to invest. See “Investments of the Company — Investment Restrictions”.

The holder of a put option purchased from the Company will have the option, exercisable during a specific time period or at expiry, to sell the securities underlying the option to the Company at the strike price per security. By selling put options, the Company will receive option premiums, which are generally paid within one business day of the writing of the option. The Company, however, must maintain cash equivalents in an amount at least equal to the aggregate strike price of all securities underlying the outstanding put options that it has written. If at any time during the term of a put option or at expiry the market price of the underlying securities is below the strike price, the holder of the option may exercise the option and the Company will be obligated to buy the securities from the holder at the strike

price per security. In such case, the Company will be obligated to acquire a security at a strike price, which may exceed the then current market value of such security. If, however, the option is out-of-the-money at the expiration of the put option, the holder of the option will likely not exercise the option and the option will expire. In each case, the Company will retain the option premium.

Required Return

Based on the assumptions that the gross proceeds of the offering are \$75 million and fees and expenses are as presented in this prospectus, in order to achieve the Company's targeted annual distributions for the Class A Shares (which assumes that the Preferred Share distributions have been made) and assuming the original issue prices of the Preferred Shares and the Class A Shares are returned to the holders of the Maturity Date, the Company will be required to generate an average annual total return (comprised of net realized capital gains, option premiums and dividends) on the Portfolio of approximately 9.4%. As at September 20, 2007, the Portfolio generated dividend income of 3.2% per annum and would be required to generate an additional 6.2% per annum from other sources to return and distribute such amounts.

Use of Other Derivative Instruments

In addition to writing covered call options and cash covered put options, to the extent permitted by Canadian securities regulators from time to time, the Company may also purchase call options and put options with the effect of closing out existing call options and put options written by the Company. The Company may also purchase put options in order to protect the Company from declines in the market prices of the individual securities in the Portfolio or in the value of the Portfolio as a whole. The Company may enter into trades to close out positions in such permitted derivatives.

EXCHANGE OPTION

Methods to Purchase Shares

In addition to acquisitions of Class A Shares and Preferred Shares by a cash payment, prospective purchasers may purchase by an exchange of freely tradeable shares of Exchange Eligible Issuers, either Class A Shares and Preferred Shares together in Units (consisting of one Class A Share and one Preferred Share per Unit) or only Class A Shares (the "Exchange Option").

Procedure

A prospective purchaser of shares who elects to use the Exchange Option must do so by means of a book-entry deposit through CDS. Prospective purchasers intending to utilize the Exchange Option must deposit shares of one or more Exchange Eligible Issuers with the Exchange Agent through CDS prior to 5:00 p.m. (Toronto time) on November 15, 2007. Such book-entry deposits must be made by a CDS Participant who may have an earlier deadline for receiving instructions from its clients to deposit shares into the Exchange Option. Once submitted to the Exchange Agent through CDS, a deposit of shares of Exchange Eligible Issuers under the Exchange Option (including the transfers authorized thereby) is, subject to the completion of this offering, irrevocable unless withdrawn or rescinded as described below under the heading "Withdrawal and Rescission of Exchange Option Elections". By authorizing a deposit of shares of an Exchange Eligible Issuer under the Exchange Option through CDS, a prospective purchaser authorizes the transfer to the Company of each such share and represents and warrants that the prospective purchaser has full right and authority to transfer the shares and is the beneficial owner of such shares, that such shares have not previously been conveyed, that the transfer of such shares is not prohibited by laws applicable to the prospective purchaser and that such shares are free and clear of all liens, encumbrances and adverse claims. Such representations and warranties will survive the issuance of Class A Shares or Units in exchange for such shares of an Exchange Eligible Issuer. The Company's interpretation of the terms and conditions of the Exchange Option will be final and binding. The Company reserves the right to waive any conditions of the Exchange Option and to accept or reject, in whole or in part, any deposit of shares made pursuant to the Exchange Option. A purchaser utilizing the Exchange Option who is a resident of Canada for purposes of the Tax Act, who holds shares of an Exchange Eligible Issuer as capital property and who enters into a joint election with the Company may obtain a tax-deferred rollover for Canadian tax purposes.

If for any reason shares of an Exchange Eligible Issuer deposited pursuant to the Exchange Option are not acquired by the Company, the holders of such shares will be notified of such fact as soon as practicable following the closing or the termination of this offering, as the case may be, and such shares will be re-credited to their accounts through CDS.

Determination of Exchange Ratios

Pursuant to the Exchange Option for Units, the number of Units issuable in exchange for each share of an Exchange Eligible Issuer deposited by a prospective purchaser will be determined by dividing the weighted average trading price of the shares of such Exchange Eligible Issuer on the TSX during the three consecutive trading days ending on November 16, 2007, adjusted to reflect dividends and distributions, if any, that may be declared by the Exchange Eligible Issuer that will not be received by the Company (the "Exchange Price") by \$25.00 (being the sum of the original issue price of one Class A Share and one Preferred Share). The exchange ratios will be rounded down to four decimal places. If a prospective purchaser of shares has deposited shares of an Exchange Eligible Issuer pursuant to the Exchange Option, and if the exchange of such shares for Units would otherwise result in the issuance of a fractional Class A Share or Preferred Share, the Company will, after all applicable withdrawal periods have expired, forward a cash payment to such prospective purchaser, equal to \$25.00 multiplied by such fraction, in lieu of issuing a fractional share.

Pursuant to the Exchange Option for Class A Shares, prospective purchasers will receive that number of Class A Shares issuable in exchange for shares of Exchange Eligible Issuers as determined in the manner described below and \$0.01 in cash per Class A Share. The number of Class A Shares issuable in exchange for each share of an Exchange Eligible Issuer deposited will be determined by dividing the Exchange Price by \$15.00 (being the original issue price of a Class A Share). The exchange ratios under the Exchange Option for Class A Shares will be adjusted to reflect the \$0.01 per Class A Share to be received by prospective purchasers. Fractional Class A Shares will not be issued.

Exchange Eligible Issuers

The following table lists those Exchange Eligible Issuers whose common shares will be accepted by the Company pursuant to the Exchange Option and indicates the Exchange Price and the Exchange Ratio for the common shares of each Exchange Eligible Issuer.

Withdrawal and Rescission of Exchange Option Elections

Each prospective purchaser who has authorized the deposit through CDS of shares of an Exchange Eligible Issuer under the Exchange Option will have the right to withdraw such deposit by notifying in writing such prospective purchaser's investment advisor or other CDS Participant who effected the deposit at any time prior to the close of business (Toronto time) on November 27, 2007. To be effective, a written notice of withdrawal must be either delivered in person or by courier to such investment advisor or other CDS Participant within the specified time, who in turn will direct CDS to notify the Exchange Agent of such withdrawal. In addition, prospective purchasers under the Exchange Option will be entitled to withdraw or rescind their purchase on or before midnight on the second business day after receipt or deemed receipt of this prospectus and any amendment. To be effective, a written notice of withdrawal or rescission must be either delivered in person or by courier to such prospective purchaser's investment advisor or other CDS Participant who effected the deposit. Any such notice of withdrawal or rescission must specify the shares of an Exchange Eligible Issuer to be so withdrawn or rescinded and the name of the prospective purchaser, and notification thereof must be received by the Exchange Agent through CDS prior to the specified time. Each such notice must be signed by the person who authorized the deposit under the Exchange Option. A prospective purchaser also has the rights described under "Purchasers' Statutory Rights".

No director or officer of the Company is, or within 10 years prior to the date of this prospectus has been, a director, officer or promoter of any issuer that, while such person was acting in that capacity, was the subject of a cease trade or similar order or an order that denied the company access to any statutory exemptions for a period of more than 30 consecutive days or was declared a bankrupt or made a voluntary assignment in bankruptcy, made a proposal under any legislation relating to bankruptcy or insolvency or was subjected to or instituted any proceeding, arrangement or compromise with creditors or had a receiver, receiver-manager or trustee appointed to hold the assets of that person.

Independent Review Committee

NI 81-107, which came into force on November 1, 2006, requires all publicly offered investment funds, such as the Company, to establish an independent review committee. The independent review committee is required to be comprised of a minimum of three members, each of whom must be independent of the Manager, entities related to the Manager and the Company. In accordance with NI 81-107, the initial members of the independent review committee were appointed prior to May 1, 2007 and full compliance with NI 81-107 was required by November 1, 2007.

The independent review committee functions in accordance with applicable securities law, including NI 81-107. The mandate of the independent review committee is to review and provide its decisions to the Manager on conflict of interest matters that the Manager has referred to the independent review committee for review. The Manager is required to identify conflict of interest matters inherent in its management of the Company and request input from the independent review committee in respect of how it manages those conflicts of interest, as well as its written policies and procedures outlining its management of those conflicts of interest. The independent review committee has adopted a written charter which it will follow when performing its functions and is subject to requirements to conduct regular assessments. In performing their duties, members of the independent review committee are required to act honestly, in good faith and in the best interests of the Company and to exercise the degree of care, diligence and skill that a reasonably prudent person would exercise in comparable circumstances. The independent review committee will report annually to Shareholders of the Company which report will be available without charge upon request to the Manager and will also be posted on the Manager's website at www.bromptongroup.com.

The Manager has appointed the following members to the independent review committee, which also acts as the independent review committee for other investment funds managed by the Manager:

Note:

(1) Member of the Audit Committee.

Management Agreement

Pursuant to the Management Agreement, the Manager has exclusive authority to manage the business and affairs of the Company and to make all decisions regarding the business of the Company and has authority to bind the Company. The Manager may, pursuant to the terms of the Management Agreement, delegate certain of its powers to third parties at no additional cost to the Company where, in the discretion of the Manager, it would be in the best interests of the Company and the Shareholders to do so. The Manager has engaged Highstreet to invest the net proceeds of the offering, to acquire the Portfolio and to manage the Portfolio in accordance with the Investment Objectives and Investment Guidelines and Rebalancing Criteria. The Manager will be responsible for paying the fees of Highstreet out of the Management Fee.

The Manager is required to exercise its powers and perform its duties honestly, in good faith and in the best interests of the Shareholders of the Company and to exercise the care, diligence and skill that a reasonably prudent and qualified manager would exercise in comparable circumstances. The Management Agreement provides that the Manager will not be liable in any way for any default, failure or defect of the Portfolio if it has satisfied the duties and the standard of care, diligence and skill set forth above. The Manager will incur liability, however, in cases of wilful misconduct, bad faith, negligence or breach of its duties or standard of care, diligence and skill. Among other restrictions imposed on the Manager, it may not dissolve the Company or wind up the Company's affairs except if, in its opinion, the Net Asset Value of the Company is reduced as a result of redemptions or otherwise so that it is no longer economically feasible to continue the Company and it would be in the best interest of Shareholders to terminate the Company or otherwise in accordance with the provisions of the Articles of Incorporation. See "Shareholder Matters".

Under the terms of the Management Agreement, the Manager is responsible for providing, or causing to be provided, management and administrative services and facilities to the Company, including, without limitation:

- (a) monitoring the performance of persons appointed to manage the Portfolio in accordance with the Investment Objectives and Investment Guidelines, Rebalancing Criteria and Investment Restrictions as well as managing relationships with the custodian, registrar and transfer agent, auditors, legal counsel and other organizations or professionals serving the Company;
- (b) monitoring the suitability of the Investment Guidelines and Rebalancing Criteria and preparing for adoption by the Shareholders of any amendments to the Investment Guidelines, Rebalancing Criteria or Investment Restrictions which the Manager believes are in the best interests of the Company and Shareholders;

- (c) the authorization and payment on behalf of the Company of expenses incurred on behalf of the Company and the negotiation of contracts with third party providers of services (including, but not limited to, custodians, transfer agents, legal counsel, auditors and printers);
- (d) the provision of office space, telephone service, office equipment, facilities, supplies and executive, secretarial and clerical services;
- (e) the preparation of accounting, management and other reports, including such interim and annual reports to Shareholders, financial statements, tax reporting to Shareholders and income tax returns;
- (f) keeping and maintaining the books and records of the Company and the supervision of compliance by the Company with record keeping requirements under applicable regulatory regimes;
- (g) the calculation of the amount, and the determination of the frequency, of distributions by the Company;
- (h) communications and correspondence with Shareholders and the preparation of notices of distributions to Shareholders;
- (i) ensuring that the NAV per Unit and the NAV per Class A Share of the Company is calculated and provided to the financial press;
- (j) general investor relations and responding to investors' inquiries in respect of the Company;
- (k) dealing with banks and custodians, including the maintenance of bank records;
- (l) liquidating the Portfolio in an orderly manner, to the extent necessary, and using the proceeds therefrom to fund distributions on the Company's Preferred Shares and Class A Shares and retractions and redemptions of Preferred Shares and Class A Shares or for any other reason where the Company requires cash to meet its obligations;
- (m) obtaining such insurance as the Manager considers appropriate for the Company;
- (n) arranging for the provision of services by CDS for the administration of the Book-Entry Only System with respect to the Preferred Shares and the Class A Shares;
- (o) reviewing fees and expenses charged to the Company and ensuring the timely payment thereof; and
- (p) ensuring:
 - (i) that the Company complies with all regulatory requirements and applicable stock exchange listing requirements;
 - (ii) the preparation and delivery of the Company's reports to, and dealing with, relevant securities regulatory authorities and any similar organization of any government or any stock exchange to which the Company is obligated to report;
 - (iii) the organization of meetings of Shareholders; and
 - (iv) the provision of such other managerial and administrative services as may be reasonably required for the ongoing business and administration of the Company.

In consideration for these services, the Company will pay to the Manager the Management Fee and reimburse the Manager for all reasonable costs and expenses incurred by the Manager on behalf of the Company. See "Fees and Expenses — Ongoing Expenses". The Manager and each of their directors, officers, employees, consultants and agents are indemnified and will be reimbursed by the Company to the fullest extent permitted by law against all liabilities and expenses (including judgments, fines, penalties, interest, amounts paid in settlement with the approval of the Company and counsel fees and disbursements on a solicitor and client basis) reasonably incurred in connection with providing

services to the Company described herein or a director, officer, employee, consultant or agent thereof, including in connection with any civil, criminal, administrative, investigative or other action, suit or proceeding to which any such person may hereafter be made a party by reason of being or having been the Manager or a director, officer, employee, consultant or agent thereof, except for liabilities and expenses resulting from the person's wilful misconduct, bad faith, negligence, breach of their duties or standard of care, diligence and skill or material breach or default of their obligations under the Management Agreement.

The Manager will calculate quarterly and pay at the end of each calendar quarter to each dealer whose clients hold Class A Shares a Service Fee and any applicable taxes. The Service Fee will be equal to 0.40% annually of the value of Class A Shares held by clients of the dealer. For these purposes, the value of a Class A Share will be the NAV per Unit less \$10.00 plus any accrued and unpaid distributions on a Preferred Share.

The Management Agreement may be terminated at any time by the Company on 90 days' written notice with the approval of the holders of Preferred Shares and Class A Shares by an Ordinary Resolution passed at a duly convened meeting of Shareholders called for the purpose of considering such resolution provided that Shareholders holding at least 10% of the Preferred Shares and Class A Shares, respectively, that are outstanding on the record date of the meeting vote in favour of such resolution. The Management Agreement may be terminated by the Company at any time on 30 days' written notice to the Manager in the event of the persistent failure of the Manager to perform its duties and discharge its obligations under the Management Agreement, or the continuing malfeasance or misfeasance of the Manager in the performance of its duties under the Management Agreement. The Management Agreement may be terminated immediately by the Company in the event of the commission by the Manager of any fraudulent act and shall be automatically terminated if the Manager becomes bankrupt, insolvent or makes a general assignment for the benefit of its creditors. The Manager may assign the Management Agreement to an affiliate of the Manager at any time. The Manager may resign upon 120 days' notice. Other than fees and expenses payable to the Manager pursuant to the Management Agreement up to and including the date of termination, no additional payments will be required to be made to the Manager as a result of any termination.

The services of the Manager and the officers and directors of the Manager are not exclusive to the Company. The Manager and its affiliates and associates (as defined in the *Securities Act* (Ontario)) may, at any time, engage in any other activity including the administration of any other company or trust.

HIGHSTREET

Highstreet Asset Management Inc. ("Highstreet") has been retained to invest the net proceeds of the offering to purchase securities for the Portfolio and to rebalance the Portfolio in accordance with the Investment Guidelines and Rebalancing Criteria. Highstreet is an investment management firm with total assets under management, as at August 31, 2007, of approximately \$5.2 billion, including a family of pooled funds and investments for numerous corporate accounts, pension plans and endowment funds. Highstreet's principal office is located at 244 Pall Mall Street, Suite 350, London, Ontario, N6A 5P6. Highstreet is 80% owned by AGF Management Limited and Highstreet's management team owns the remaining shares.

Highstreet is registered as a Limited Market Dealer, Investment Counsel, Portfolio Manager and Commodity Trading Manager in the Province of Ontario.

Options Advisor Agreement

Highstreet will invest the net proceeds of the offering in the Portfolio securities and will rebalance the Portfolio in accordance with the Investment Guidelines and Rebalancing Criteria, and, at its discretion, selectively write covered call options from time to time on the shares included in the Portfolio in order to generate additional distributable income for the Company. Under the Options Advisor Agreement, Highstreet is required to act at all times on a basis which is fair and reasonable to the Company, to act honestly and in good faith with a view to the best interests of the Manager, the Company and its shareholders and, in connection therewith, to exercise the degree of care, diligence and skill that a reasonably prudent advisor would exercise in comparable circumstances. The Options Advisor Agreement provides that Highstreet shall not be liable in any way for any default, failure or defect in, or any loss or diminution of value of, any of the securities of the Company, if it has satisfied the duties and standard of care, diligence and skill set forth above.

The Manager and the Company can terminate the Options Advisor Agreement at any time on 10 days' notice for an uncured material breach of the Options Advisor Agreement by Highstreet following notice of such breach by the Company, on 30 days' notice for persistent failure by Highstreet to perform its obligations under the Options Advisor Agreement, or immediately in events of insolvency or liquidation of Highstreet or if Highstreet becomes bankrupt or

passes a resolution approving its winding-up or dissolution or deemed dissolution or makes a general assignment for the benefit of its creditors, if the assets of Highstreet become subject to seizure or confiscation by any public or governmental organization, or if Highstreet loses a registration, license or authorization required by it to perform its duties under the Options Advisor Agreement. The Manager and the Company may also terminate the Options Advisor Agreement on ninety days' notice. In such circumstances, the Manager intends to appoint a successor. Highstreet's appointment may be immediately terminated by the Manager and the Company, in the event of the commission by Highstreet of any fraudulent act in the performance of its duties under the Options Advisor Agreement or any misrepresentation in the Options Advisor Agreement.

Highstreet is entitled to fees for its services which will be paid by the Manager out of its management fee and will be reimbursed for all reasonable costs and expenses incurred by Highstreet on behalf of the Company. In addition, Highstreet and each of its directors, officers, employees, consultants and agents will be indemnified by the Company for all liabilities and expenses incurred in connection with any action, suit or proceeding that is proposed or commenced or other claim that is made against Highstreet or any of its officers, directors, employees, consultants or agents in the exercise of its duties as Highstreet.

Principal Advisors of Highstreet

He has been a part of the Highstreet investment team since the firm's inception in 1998. Prior to 1998, Mr. Jackson was a Risk Analyst within the investment management team at a large Canadian life insurance company. He received an Honours Bachelor of Arts degree in Statistics from the University of Western Ontario in 1987 and a Master of Mathematics degree from the University of Waterloo in 1988.

Noor Lalani (Vice President, Investments)

Mr. Lalani has been with Highstreet's equity team since January 2002. As a member of the portfolio management team, he provides quantitative analysis. Prior to joining Highstreet, Noor was a Financial Analyst and

Associate Portfolio Manager with a provider of quantitative portfolio management systems, where he gained significant experience in quantitative models and processes. Mr. Lalani is a Chartered Financial Analyst. Noor earned his Master of Business Administration (Finance) from York University in 2000 and he graduated with a Diploma in Economics from the University of Western Ontario in 1997.

Janice Evans (Vice President, Investments)

Ms. Evans is responsible for developing and servicing Highstreet's sub-advisory and institutional business. She has 12 years of experience in the investment industry, managing discretionary investment portfolios for an investment counsel firm and a large financial institution. Ms. Evans is a Chartered Financial Analyst and obtained her Canadian Investment Manager designation in 2000 from the Canadian Securities Institute. Ms. Evans also graduated with an Honours Bachelor of Arts from McMaster University in 1995.

Ajay Virk (Quantitative Analyst)

Mr. Virk joined Highstreet in 2006 His area of focus is Highstreet's option overlay strategy, where he is involved in research and quantitative analysis. Prior to Highstreet, Mr. Virk was responsible for the operation of NASDAQ's premier stock market surveillance system. Mr. Virk earned his Master of Business Administration from the University of Toronto in 2006 where he specialized in financial engineering and risk management. He also completed a Master of Mathematics from the University of Waterloo in 2003 and a Bachelor of Engineering (Computer Engineering) in 1997 at the Thapar Institute of Engineering & Technology, India.

CONFLICTS OF INTEREST

The directors and officers of the Manager may be directors, officers, shareholders or unitholders of one or more issuers in which the Company may acquire securities. The Manager and its affiliates may be managers or portfolio managers of one or more issuers in which the Company may acquire securities and may be managers or portfolio managers of funds that invest in the same securities as the Company. The Manager invests in diversified portfolios consisting of units of income funds, high yield debt, investment grade debt and/or common shares. The services of the Manager are not exclusive to the Company. The Manager may in the future act as the investment advisor to other funds and companies and may in the future act as the investment advisor to other funds which invest in equity securities and which are considered competitors of the Company.

In addition, Highstreet and its affiliates are engaged in a wide range of investment management, investment advisory and other business activities. The services of Highstreet under the Options Advisor Agreement are not exclusive and nothing in the Options Advisor Agreement prevents Highstreet or any of its affiliates from providing similar services to other investment funds or clients (whether or not its investment objectives, strategies and criteria are similar to those of the Company) or from engaging in other activities. Highstreet's investment decisions for the Company will be made independently of those made on behalf of its other clients or for its own investments. On occasion, however, Highstreet may make the same investment for the Company and for one or more of its other clients. If the Company and one or more of the other clients of Highstreet are engaged in the purchase or sale of the same security, the transactions will be effected on an equitable basis. In this regard, Highstreet will endeavour to allocate investment opportunities to the Company on a *pro rata* basis. Given AGF's 80% ownership interest in Highstreet, Highstreet does not currently expect to write options in respect of AGF shares for or in the Portfolio.

DESCRIPTION OF SHARE CAPITAL

The Company is authorized to issue an unlimited number of Preferred Shares, Class A Shares and Class J Shares of which, before giving effect to the offering under this prospectus, there are issued and outstanding 100 Class J Shares.

The holders of Class J Shares are not entitled to receive dividends. The holders of the Class J Shares will be entitled to one vote per share. The Class J Shares are redeemable and retractable at a price of \$1.00 per share. The Class J Shares rank subsequent to both the Preferred Shares and the Class A Shares with respect to distributions on the dissolution, liquidation or winding-up of the Company.

A trust established for the benefit of the holders from time to time of the Preferred Shares and the Class A Shares owns all of the issued and outstanding Class J Shares. See "Principal Shareholder".

The Company does not currently intend to issue additional Preferred Shares or Class A Shares following completion of this offering except as disclosed herein.

The following is a summary of certain provisions of the Preferred Shares and Class A Shares offered hereby.

Certain Provisions of the Preferred Shares

Distributions

Holders of record of Preferred Shares at 5:00 p.m. (Toronto time) on a Preferred Share Record Date will be entitled to receive fixed, cumulative preferential quarterly cash distributions of \$0.13125 per share to yield 5.25% per annum and will be paid before the tenth business day in the month following the end of the period in respect of which the distribution is payable. Such distributions may consist of ordinary dividends, capital gains dividends or returns of capital. The initial distribution on the Preferred Shares payable to Preferred Shareholders of record on February 29, 2008, will be pro-rated based on an anticipated closing date of December 3, 2007 and is expected to be \$0.12837 per Preferred Share.

All cash distributions will be paid through CDS' book-entry only system or paid in such other manner as may be agreed to by the Company. Each holder of Preferred Shares will be mailed annually, no later than February 28, information necessary to enable such Shareholder to complete an income tax return with respect to amounts paid or payable by the Company in respect of the preceding calendar year. See "Description of Share Capital — Book-Entry Only System" and "Canadian Federal Income Tax Considerations".

Redemptions

All Preferred Shares outstanding on the Maturity Date will be redeemed by the Company on such date. The redemption price payable by the Company for a Preferred Share on that date will be equal to the lesser of (i) \$10.00 plus any accrued and unpaid distributions thereon and (ii) the NAV of the Company on that date divided by the total number of Preferred Shares then outstanding.

Notice of redemption will be given to CDS Participants holding Preferred Shares on behalf of the beneficial owners thereof at least 30 days prior the Maturity Date.

Retraction Privileges

Preferred Shares may be surrendered at any time for retraction to Computershare Investor Services Inc., the Company's registrar and transfer agent, but will be retracted only on the monthly Retraction Date. Preferred Shares surrendered for retraction by 5:00 p.m. (Toronto time) on the tenth business day prior to the Retraction Date will be retracted on such Retraction Date and the Shareholder will be paid on the Retraction Payment Date. If a Shareholder makes such surrender after 5:00 p.m. (Toronto time) on the tenth business day immediately preceding a Retraction Date, the Shares will be retracted on the Retraction Date in the following month and the Shareholder will receive payment for the retracted Shares on the Retraction Payment Date in respect of such Retraction Date.

Except as noted below, holders of Preferred Shares whose Preferred Shares are surrendered for retraction will be entitled to receive a retraction price per Preferred Share equal to 96% of the lesser of (i) the NAV per Unit determined as of such Retraction Date, less the cost to the Company of the purchase of a Class A Share for cancellation; and (ii) \$10.00. For this purpose, the cost of the purchase of a Class A Share will include the purchase price of the Class A Share, and commission and such other costs, if any, related to the liquidation of any portion of the Portfolio to fund the purchase of the Class A Share. If the NAV per Unit is less than \$10.00, plus any accrued and unpaid distributions on the Preferred Shares, the retraction price of a Class A Share will be nil. Any declared and unpaid distributions payable on or before a Retraction Date in respect of Preferred Shares tendered for retraction on such Retraction Date will also be paid on the Retraction Payment Date.

A holder of Preferred Shares may concurrently retract an equal number of Preferred Shares and Class A Shares on a Quarterly Retraction Date, commencing in February 2008 at a retraction price per Unit equal to the NAV per Unit on that date, less any costs associated with the retraction, including commissions and other such costs if any, related to the liquidation of any portion of the Portfolio required to fund such retraction. The Preferred Shares and Class A Shares must both be surrendered for retraction at least 10 business days prior to a Quarterly Retraction Date. Payment of the proceeds of retraction will be made on or before the tenth business day of the following month.

Any and all Preferred Shares which have been surrendered to the Company for retraction are deemed to be outstanding until (but not after) the close of business on the relevant Retraction Date, unless the retraction price is not paid on the Retraction Payment Date, in which event such Preferred Shares will remain outstanding.

The retraction right must be exercised by causing written notice to be given within the notice periods prescribed herein and in the manner described under “Description of Share Capital — Book-Entry Only System”. Such surrender will be irrevocable upon the delivery of notice to CDS through a CDS Participant, except with respect to those Preferred Shares which are not retracted by the Company on the relevant Retraction Payment Date.

Priority

The Preferred Shares rank in priority to the Class A Shares and the Class J Shares with respect to the payment of distributions and the repayment of capital on the dissolution, liquidation or winding up of the Company.

Certain Provisions of the Class A Shares

Distributions

The Company intends to pay monthly non-cumulative distributions to the holders of Class A Shares in an amount targeted to be \$0.10 per Class A Share representing a yield on the issue price of the Class A Shares of 8.0% per annum. Such distributions will be paid on or before the tenth business day of the month following the month in respect of which the distribution is payable. Such distributions may consist of ordinary dividends, capital gains dividends or returns of capital. The initial distribution payable to Class A Shareholders of record on December 31, 2007, will be prorated based on an anticipated closing date of December 3, 2007 and is expected to be \$0.09355 per Class A Share. There can be no assurance that the Company will be able to pay distributions to the holders of Class A Shares.

No distributions will be paid on the Class A Shares if (i) the distributions payable on the Preferred Shares are in arrears, or (ii) in respect of a cash distribution, after payment of the distribution by the Company, the NAV per Unit would be less than \$15.00. In addition, it is intended that the Company will not pay distributions in excess of the targeted \$0.10 per month, on the Class A Shares if, after payment of the distribution, the NAV per Unit would be less than \$25.00 unless the Company has to make such distributions to fully recover refundable taxes. Subject to the dividend entitlement of the holders of the Preferred Shares, the Board of Directors of the Company shall allocate return of capital distributions first to holders of the Class A Shares before paying distributions representing return of capital to holders of the Preferred Shares.

In the event that the Company realizes capital gains, the Company may, at its option, make a special year end capital gains distribution in certain circumstances, including where the Company has net realized capital gains, in Class A Shares and/or cash. Any capital gains distribution payable in Class A Shares may be made only after the first anniversary of the closing date and will increase the aggregate adjusted cost base to holders of Class A Shares of such shares. Immediately following payment of such a distribution in Class A Shares, the number of Class A Shares outstanding will be automatically consolidated such that the number of Class A Shares outstanding after such distribution will be equal to the number of Class A Shares outstanding immediately prior to such distribution.

Distributions will be payable to holders of Class A Shares of record at 5:00 p.m. (Toronto time) on the Class A Record Date. All cash distributions will be paid through CDS’ book-entry only system or paid in such other manner as may be agreed to by the Company. Each holder of Class A Shares will be mailed annually, no later than February 28, information necessary to enable such Shareholder to complete an income tax return with respect to amounts paid or payable by the Company in respect of the preceding calendar year. See “Description of Share Capital — Book-Entry Only System” and “Canadian Federal Income Tax Considerations”.

Redemptions

All Class A Shares outstanding on the Maturity Date will be redeemed by the Company on such date. The redemption price payable by the Company for a Class A Share on that date will be equal to the greater of (i) the NAV per Unit on that date minus the sum of \$10.00 plus any accrued and unpaid distributions on a Preferred Share, and (ii) nil. Notice of redemption will be given to CDS Participants holding Class A Shares on behalf of the beneficial owners thereof at least 30 days prior to the Maturity Date.

Retraction Privileges

Class A Shares may be surrendered at any time for retraction to Computershare Investor Services Inc., the Company’s registrar and transfer agent, but will be retracted only on the monthly Retraction Date. Class A Shares surrendered for retraction by 5:00 p.m. (Toronto time) on the tenth business day prior to the monthly Retraction Date will be retracted on such Retraction Date and the Shareholder will be paid on or before the Retraction Payment Date. If a Shareholder makes such surrender after 5:00 p.m. (Toronto time) on the tenth business day immediately preceding a

Retraction Date, the Class A Shares will be retracted on the Retraction Date in the following month and the Shareholder will receive payment for the retracted Shares on the Retraction Payment Date in respect of such Retraction Date.

Except as noted below, holders of Class A Shares whose Class A Shares are surrendered for retraction will be entitled to receive a retraction price per Class A Share equal to 96% of the difference between (i) the NAV per Unit determined as of such Retraction Date, and (ii) the cost to the Company of the purchase of a Preferred Share for cancellation. For this purpose, the cost of the purchase of a Preferred Share will include the purchase price of the Preferred Share, commission and such other costs, if any, related to the liquidation of any portion of the Portfolio to fund the purchase of the Preferred Share. If the NAV per Unit is less than \$10.00, plus any accrued and unpaid distributions on a Preferred Share, the retraction price of a Class A Share will be nil. Any declared and unpaid distributions payable on or before a Retraction Date in respect of Class A Shares tendered for retraction on such Retraction Date will also be paid on the Retraction Payment Date.

A holder of Class A Shares may concurrently retract an equal number of Class A Shares and Preferred Shares on a Quarterly Retraction Date, commencing in February 2008 at a retraction price per Unit equal to the NAV per Unit on that date, less any costs associated with the retraction, including commissions and other such costs, if any, related to the liquidation of any portion of the Portfolio required to fund such retraction. For the purpose of calculating the Net Asset Value per Unit, the value of securities comprising the Portfolio will be equal to the weighted average trading price of such securities over the last three business days of the month in which the Quarterly Retraction Date occurs as described under "Net Asset Value and NAV per Unit". The Class A Shares and the Preferred Shares must both be surrendered at least 10 business days prior to a Quarterly Retraction Date. Payment of the proceeds will be made on or before the tenth business day of the following month subject to the Manager's right to suspend retractions in certain circumstances.

Any and all Class A Shares that have been surrendered to the Company for retraction are deemed to be outstanding until (but not after) the close of business on the relevant Retraction Date, unless the retraction price is not paid on the Retraction Payment Date, in which event such Class A Shares will remain outstanding.

The retraction right must be exercised by causing written notice to be given within the notice periods prescribed herein and in the manner described under "Book-Entry Only System" below. Such surrender will be irrevocable upon the delivery of notice to CDS through a CDS Participant, except with respect to those Class A Shares which are not retracted by the Company on the relevant Retraction Payment Date.

Any redemption notice that CDS determines to be incomplete, not in proper form or not duly executed shall, for all purposes, be void and of no effect and the redemption privilege to which it relates shall be considered, for all purposes, not to have been exercised thereby. A failure by a CDS Participant to exercise redemption privileges or to give effect to the settlement thereof in accordance with a Shareholder's instructions will not give rise to any obligations or liability on the part of the Company or the Manager to the CDS Participant or the Shareholder.

Priority

The Class A Shares rank subsequent to the Preferred Shares but in priority to the Class J Shares with respect to the payment of distributions and the repayment of capital out of the Portfolio on the dissolution, liquidation or winding up of the Company.

Book-Entry Only System

Registration of interests in and transfers of the Preferred Shares and Class A Shares will be made only through the book-entry only system. On or about December 3, 2007, but no later than December 31, 2007, the Company will deliver to CDS certificates evidencing the aggregate number of Preferred Shares and Class A Shares subscribed for under this offering. Preferred Shares and Class A Shares must be purchased, transferred and surrendered for retraction or redemption through a CDS Participant. All rights of an owner of Preferred Shares or Class A Shares must be exercised through, and all payments or other property to which such owner is entitled will be made or delivered by, CDS or the CDS Participant through which the owner holds such Preferred Shares or Class A Shares. Upon purchase of any Preferred Shares or Class A Shares, the owner will receive only the customary confirmation. References in this prospectus to a holder of Preferred Shares or Class A Shares means, unless the context otherwise requires, the owner of the beneficial interest in such shares.

The ability of a beneficial owner of Preferred Shares or Class A Shares to pledge such shares or otherwise take action with respect to such owner's interest in such shares (other than through a CDS Participant) may be limited due to the lack of a physical certificate.

An owner of such Preferred Shares or Class A Shares who desires to exercise retraction privileges thereunder must do so by causing a CDS Participant to deliver to CDS (at its office in the City of Toronto) on behalf of the owner a written notice of the owner's intention to retract such shares. An owner who desires to retract Preferred Shares or Class A Shares should ensure that the CDS Participant is provided with a Retraction Notice sufficiently in advance of the relevant notice date so as to permit the CDS Participant to deliver notice to CDS by no later than 5:00 p.m. (Toronto time) on the relevant notice date. Any expense associated with the preparation and delivery of Retraction Notices will be for the account of the owner exercising the retraction privilege.

By causing a CDS Participant to deliver to CDS a notice of the owner's intention to retract Preferred Shares or Class A Shares, an owner shall be deemed to have irrevocably surrendered such shares for retraction and appointed such CDS Participant to act as his exclusive settlement agent with respect to the exercise of the retraction privilege and the receipt of payment in connection with the settlement of obligations arising from such exercise.

Any Retraction Notice which CDS determines to be incomplete, not in proper form or not duly executed shall for all purposes be void and of no effect and the retraction privilege to which it relates shall be considered for all purposes not to have been exercised thereby. A failure by a CDS Participant to exercise retraction privileges or to give effect to the settlement thereof in accordance with the owner's instructions will not give rise to any obligations or liability on the part of the Company to the CDS Participant or to the owner.

The Company has the option to terminate registration of the Preferred Shares or Class A Shares through the book-entry only system in which case certificates for Preferred Shares or Class A Shares in fully registered form would be issued to beneficial owners of such shares or to their nominees.

Suspension of Redemptions and Retractions

The Company or the Manager may suspend the redemption and/or retraction of Preferred Shares or Class A Shares or payment of redemption or retraction proceeds (i) during any period when normal trading in securities owned by the Company is suspended on the TSX and if those securities are not traded on any other exchange that represents a reasonably practical alternative for the Company to execute trades in such securities, or (ii) for any period not exceeding 120 days during which the Company or the Manager determines that conditions exist which render impractical the sale of assets of the Company or which impair the ability of the Company to determine the value of its assets, only with the prior approval of the securities regulatory authorities. The suspension may apply to all requests for retraction received prior to the suspension but as to which payment has not been made, as well as to all requests received while the suspension is in effect. All holders of Preferred Shares and Class A Shares making such requests shall be advised by Manager of the suspension and that the retraction will be effected at a price determined on the first Retraction Date following the termination of the suspension. All such Shareholders shall have and shall be advised that they have the right to withdraw their requests for retraction. The suspension shall terminate in any event on the first day on which the condition giving rise to the suspension has ceased to exist provided that no other condition under which a suspension is authorized then exists. To the extent not inconsistent with official rules and regulations promulgated by any government body having jurisdiction over the Company, any declaration of suspension made by the Company or the Manager shall be conclusive.

Purchase for Cancellation

Subject to applicable law, the Company may at any time or times purchase Preferred Shares and Class A Shares for cancellation at prices per Unit not exceeding the NAV per Unit on the business day immediately prior to such purchase up to a maximum in any twelve month period of 10% of the outstanding public float of Preferred Shares and Class A Shares.

NET ASSET VALUE AND NAV PER UNIT

For reporting purposes other than financial statements, the Net Asset Value of the Company on a particular date will be equal to (i) the aggregate value of the assets of the Company, less (ii) the aggregate value of the liabilities of the Company (the Preferred Shares will not be treated as liabilities for these purposes), including any distributions declared and not paid that are payable to Shareholders on or before such date, less (iii) the stated capital of the Class J Shares (\$100).

The NAV per Unit and the NAV per Class A Share, will, at a minimum be calculated on Thursday of each week, or if any Thursday is not a business day, the immediately preceding business day, and on any redemption or retraction date for the Company's shares and includes any other date on which the Manager elects, in its discretion, to calculate the NAV per Unit and the NAV per Class A Share. The Company will make available to the financial press

for publication on a weekly basis the NAV per Unit and the NAV per Class A Share, as well as through the Internet at www.bromptongroup.com and upon request to the Manager.

In determining the NAV of the Company at any time:

- (a) the value of any cash on hand or on deposit, bill, demand note and account receivable, prepaid expense, dividend, distribution or other amount received (or declared to holders of record of securities owned by the Company on a date before the NAV Valuation Date as of which the NAV of the Company is being determined, and to be received) and interest accrued and not yet received shall be deemed to be the full amount thereof provided that if the Manager has determined that any such deposit, bill, demand note, account receivable, prepaid expense, dividend, distribution, or other amount received (or declared to holders of record of securities owned by the Company on a date before the NAV Valuation Date as of which the NAV of the Company is being determined, and to be received) or interest accrued and not yet received is not otherwise worth the full amount thereof, the value thereof shall be deemed to be such value as the Manager determines to be the fair market value thereof;
- (b) the value of any security, that is listed or traded upon a stock exchange (or if more than one, on the principal stock exchange for the security, as determined by the Manager) shall be determined by taking the latest available sale price of recent date, or lacking any recent sales or any record thereof, the simple average of the latest available offer price and the latest available bid price (unless in the opinion of the Manager such value does not reflect the value thereof and in which case the latest offer price or bid price shall be used), as at the NAV Valuation Date on which the NAV of the Company is being determined, all as reported by any means in common use. For a retraction or redemption of the Company's shares, the value of the common shares will be equal to the weighted average trading price of such shares over the last three Business Days of the relevant month;
- (c) the value of any security, that is traded over-the-counter will be priced at the average of the latest available bid and offer prices quoted by a major dealer or recognized information provider in such securities; short term investments, including notes and money market instruments, shall be valued at cost plus accrued interest;
- (d) where a covered clearing corporation option, option on futures or an over-the counter option is written, the option premium received by the Company will, so long as the option is outstanding, be reflected as a deferred credit which will be valued at an amount equal to the fair market value of an option which would have the effect of closing the position; any difference resulting from revaluation shall be treated as an unrealized gain or loss on investment. The deferred credit shall be deducted in arriving at the NAV;
- (e) the value of any security, or other asset for which a market quotation is not readily available will be its fair market value on the NAV Valuation Date on which the NAV of the Company is being determined as determined by the Manager;
- (f) any market price reported in currency other than Canadian dollars shall be translated into Canadian currency at the rate of exchange available to the Company from the Custodian on the NAV Valuation Date on which NAV of the Company is being determined;
- (g) listed securities subject to a hold period will be valued as described above with an appropriate discount as determined by the Manager and investments in private companies and other assets for which no published market exists will be valued at fair market value as determined by the Manager; and
- (h) the value of any security or property to which, in the opinion of the Manager, the above principles cannot be applied (whether because no price or yield equivalent quotations are available as above provided, or for any other reason) shall be the fair market value thereof determined in good faith in such manner as the Manager from time to time adopts.

The NAV, NAV per Unit and NAV per Class A Share will be calculated in accordance with the rules and policies of the Canadian Securities Administrators or in accordance with any exemption therefrom that the Company

may obtain. The NAV, NAV per Unit and NAV per Class A Share will be calculated in Canadian dollars. The NAV determined in accordance with the principles set out above may differ from NAV determined under Canadian generally accepted accounting principles (“GAAP”).

SHAREHOLDER MATTERS

Meetings of Shareholders

Except as required by law or set out below, holders of Preferred Shares and Class A Shares will not be entitled to receive notice of, to attend or to vote at any meeting of Shareholders of the Company.

Acts Requiring Shareholder Approval

The following may only be undertaken with the approval of the holders of Preferred Shares and Class A Shares, each voting separately as a class, by an Ordinary Resolution, unless a greater majority is required by law, passed at a meeting called for the purpose of considering such Ordinary Resolution, provided that holders of Preferred Shares and Class A Shares holding at least 10% of the shares outstanding on the record date of the meeting vote in favour of such Ordinary Resolution:

- (a) a reorganization with, or transfer of assets to, another mutual fund corporation, if
 - (i) the Company ceases to continue after the reorganization or transfer of assets; and
 - (ii) the transaction results in Shareholders becoming securityholders in the other mutual fund corporation; and
- (b) a reorganization with, or acquisition of assets of, another mutual fund corporation, if
 - (i) the Company continues after the reorganization or acquisition of assets;
 - (ii) the transaction results in the securityholders of the other mutual fund corporation becoming Shareholders of the Company; and
 - (iii) the transaction would be a significant change to the Company; and
- (c) except as described herein, a change of the Manager to the Company, other than a change resulting in an affiliate of the Manager assuming such position.

The following may only be undertaken with the approval of holders of Preferred Shares and Class A Shares, each voting separately as a class, by an Extraordinary Resolution:

- (a) a change in the fundamental investment objectives, investment guidelines, rebalancing criteria or investment restrictions of the Company as described under “Investments of the Company”, unless such changes are necessary to ensure compliance with applicable laws, regulations or other requirements imposed by applicable regulatory authorities from time to time;
- (b) a change of the Maturity Date;
- (c) any change in the basis of calculating fees or other expenses that are charged to the Company that could result in an increase in charges to the Company;
- (d) any change in the frequency of calculating the NAV per Unit to less often than weekly;
- (e) any issue of Units for net proceeds per Unit less than the most recently calculated Net Asset Value per Unit prior to the date of the setting of the subscription price by the Company;
- (f) any material change in the Management Agreement, other than its termination;
- (g) any amendment, modification or variation in the provisions or rights attaching to the Preferred Shares, Class A Shares or Class J Shares.

Each Preferred Share and each Class A Share will have one vote at such a meeting. Five per cent of the outstanding Preferred Shares and Class A Shares, respectively, represented in person or by proxy at the meeting will constitute a quorum. If no quorum is present, the holders of Preferred Shares and Class A Shares then present will constitute a quorum at an adjourned meeting.

The auditor of the Company may be changed without the prior approval of the Shareholders of the Company provided that the independent review committee approves the change and Shareholders are sent written notice at least 60 days before the effective date of the change.

Notwithstanding the foregoing, in certain circumstances, the Company's reorganization with, or transfer of assets to, another mutual fund may be carried out without the prior approval of Shareholders provided that the independent review committee approves the transaction pursuant to NI 81-107, the reorganization or transfer complies with certain requirements of NI 81-102 and NI 81-107, as applicable, and Shareholders are sent written notice at least 60 days before the effective date of the change.

Reporting to Shareholders

The Company will deliver to Shareholders annual and interim financial statements of the Company as may be required by applicable law.

CANADIAN FEDERAL INCOME TAX CONSIDERATIONS

In the opinion of Osler, Hoskin & Harcourt LLP, counsel to the Company, and Davies Ward Phillips & Vineberg LLP, counsel to the Agents, the following is a summary of the principal Canadian federal income tax considerations generally relevant to investors who, for purposes of the Tax Act and at all relevant times, are resident or are deemed to be resident in Canada, hold their Preferred Shares, Class A Shares and, if applicable, shares of Exchange Eligible Issuers in respect of which the Exchange Option has been exercised, as capital property, and deal at arm's length with and are not affiliated with the Company. This summary is based upon the facts set out in this prospectus, the current provisions of the Tax Act and the regulations thereunder (the "Regulations"), and counsel's understanding of the current published administrative policies and assessing practices of the CRA and relies as to certain factual matters on certificates of officers of the Company and lead Agent. This summary is based on the assumption that the Class A Shares or the Preferred Shares will at all times be listed on the TSX. This summary is based on the assumption that the Company was not established and will not be maintained primarily for the benefit of non-residents of Canada and at no time will the total fair market value of the shares of the Company held by persons who are non-residents of Canada and/or partnerships (other than Canadian partnerships within the meaning of the Tax Act) exceed 50% of the fair market value of all of the outstanding shares of the Company. This summary is based upon the assumption that the investment restrictions and permitted investments will at all relevant times be as set out under the heading "Investments of the Company" and that the Company will at all times comply with such investment restrictions and hold only permitted investments. This summary is based on the assumption that the issuers of securities held by the Company will not be foreign affiliates of the Company or a shareholder of the Company. This summary also takes into account all specific proposals to amend the Tax Act or the Regulations announced prior to the date hereof by the Minister of Finance (Canada) (the "Proposed Amendments") and assumes that all Proposed Amendments will be enacted in the form prepared. No assurances can be given that the Proposed Amendments will become law as proposed or at all.

This summary is not exhaustive of all possible Canadian federal income tax considerations and, in particular, does not describe income tax considerations relating to the deductibility of interest on money borrowed to acquire Preferred Shares and Class A Shares. This summary does not take into account or anticipate any changes in law, whether by legislative, governmental or judicial action, other than the Proposed Amendments. This summary does not deal with foreign, provincial or territorial income tax considerations, which might differ from the federal considerations. This summary does not apply to Shareholders that are "financial institutions" as defined in section 142.2 of the Tax Act, or to a Shareholder an interest in which is a "tax shelter investment" as defined in subsection 143.2(1) of the Tax Act.

This summary is of a general nature only and does not constitute legal or tax advice to any particular investor. Accordingly, prospective investors are advised to consult their own tax advisors with respect to their individual circumstances.

Tax Treatment of the Company

The Company intends at all relevant times to qualify as a "mutual fund corporation" as defined in the Tax Act. The Company has informed counsel that it intends to file the necessary election under the Tax Act so that it will be deemed to be a "public corporation" and therefore can qualify as a mutual fund corporation throughout its first taxation

year. As a mutual fund corporation, the Company is entitled in certain circumstances to a refund of tax paid or payable by it in respect of its net realized capital gains. In certain circumstances where the Company has recognized a capital gain in a taxation year, it may elect not to pay capital gains dividends in that taxation year in respect thereof and instead pay refundable capital gains tax, which may in the future be fully or partially refundable upon the payment of sufficient capital gains dividends and/or capital gains redemptions. Also, as a mutual fund corporation, the Company is entitled to maintain a capital gains dividend account in respect of its realized net capital gains and from which it may elect to pay dividends (“Capital Gains Dividends”) which are treated as capital gains in the hands of the Shareholders of the Company (see “Tax Treatment of Shareholders” below).

In computing income for a taxation year, the Company will be required to include in income all dividends received by the Company in the year. In computing taxable income, the Company will generally be permitted to deduct all dividends received by it from taxable Canadian corporations. The Company will generally not be permitted a deduction in computing taxable income for dividends received by it from other corporations.

The Company will elect in accordance with the Tax Act to have each of its “Canadian securities” treated as capital property. Such an election will ensure that gains or losses realized by the Company on Canadian securities are treated as capital gains or capital losses.

The Company qualifies as a “financial intermediary corporation” (as defined in the Tax Act) and, thus, is not subject to tax under Part IV.1 of the Tax Act on dividends received by the Company and is not generally liable to tax under Part VI.1 of the Tax Act on dividends paid by the Company on “taxable preferred shares” (as defined in the Tax Act). As a mutual fund corporation (which is not an “investment corporation” as defined in the Tax Act), the Company is generally subject to a refundable tax of 33⅓% under Part IV of the Tax Act on taxable dividends received by the Company during the year to the extent that such dividends were deductible in computing the Company’s taxable income for the year. This tax is refundable upon payment by the Company of sufficient dividends other than Capital Gains Dividends (“Ordinary Dividends”).

Premiums received on covered call options and cash covered put options written by the Company that are not exercised prior to the end of the year will constitute capital gains of the Company in the year received, unless such premiums are received by the Company as income from a business of buying and selling securities or the Company has engaged in a transaction or transactions considered to be an adventure in the nature of trade. The Company will purchase the Portfolio with the objective of earning dividends thereon over the life of the Company, will write covered call options with the objective of increasing the yield on the Portfolio beyond the dividends received on the Portfolio and will write cash covered put options to increase returns and to reduce the net cost of purchasing securities upon the exercise of put options. Thus, having regard to the foregoing and in accordance with the CRA’s published administrative practices, transactions undertaken by the Company in respect of shares comprising the Portfolio and options on such shares will be treated and reported by the Company as arising on capital account.

Premiums received by the Company on covered call (or cash covered put) options that are subsequently exercised will be added in computing the proceeds of disposition (or deducted in computing the adjusted cost base) to the Company of the securities disposed of (or acquired) by the Company upon the exercise of such call (or put) options. In addition, where the premium was in respect of an option granted in a previous year so that it constituted a capital gain of the Company in the previous year, such capital gain may be reversed.

The Company is required to compute all amounts, including interest, cost of property and proceeds of disposition, in Canadian dollars for purposes of the Tax Act. As a consequence, the amount of income, expenses and capital gains or capital losses may be affected by changes in the value of foreign currency relative to the Canadian dollar.

To the extent that the Company earns income (other than dividends from taxable Canadian corporations and taxable capital gains) including interest or dividends from corporations other than taxable Canadian corporations, the Company will be subject to income tax on such income and no refund will be available in respect thereof.

Distributions

The policy of the Company is to pay quarterly distributions on the Preferred Shares and monthly distributions on the Class A Shares and, in addition, to pay a special year-end distributions to holders of Class A Shares where the Company has net taxable capital gains upon which it would otherwise be subject to tax (other than taxable capital gains realized on the writing of options that are outstanding at year end) or where the Company needs to pay a dividend in order to recover refundable tax not otherwise recoverable upon payment of monthly dividends. While the principal sources of income of the Company are expected to include taxable capital gains as well as dividends from taxable

Canadian corporations, to the extent that the Company earns net income, after expenses, from other sources, including dividends from non-Canadian sources and interest income upon interim investment of its reserves, the Company will be subject to income tax on such income and no refund of such tax will be available.

Given the investment and dividend policy of the Company and taking into account the deduction of expenses and taxable dividends on shares of taxable Canadian corporations, the Company does not expect to be subject to any significant amount of non-refundable Canadian income tax.

Tax Treatment of Shareholders

Shareholders must include in income Ordinary Dividends paid to them by the Company. For individual Shareholders, Ordinary Dividends will be subject to the gross-up and dividend tax credit rules normally applicable to taxable dividends paid by taxable Canadian corporations. Amendments to the Tax Act enacted on February 21, 2007 provide an enhanced dividend gross-up and tax credit for eligible dividends received after 2005 from taxable Canadian corporations. For corporate Shareholders, other than “specified financial institutions” (as defined in the Tax Act), Ordinary Dividends will normally be deductible in computing the taxable income of the corporation.

In the case of a Shareholder that is a specified financial institution, Ordinary Dividends received on a particular class of shares will be deductible in computing its taxable income only if either (a) the specified financial institution did not acquire the shares in the ordinary course of its business; or (b) at the time of the receipt of the dividends by the specified financial institution the shares of that class are listed on a prescribed stock exchange in Canada, and dividends are received in respect of not more than 10% of the issued and outstanding shares of that class by (i) the specified financial institution, or (ii) the specified financial institution and persons with whom it does not deal at arm’s length (within the meaning of the Tax Act). For these purposes, a beneficiary of a trust will be deemed to receive the amount of any dividend received by the trust and designated to that beneficiary, effective at the time the dividend was received by the trust, and a member of a partnership will be considered to have received that partner’s share of a dividend received by the partnership, effective at the time the dividend was received by the partnership.

Ordinary Dividends received by a corporation (other than a “private corporation” or a “financial intermediary corporation”, as defined in the Tax Act) on Preferred Shares will generally be subject to a 10% tax under Part IV.1 of the Tax Act to the extent that such dividends are deductible in computing the corporation’s taxable income.

A Shareholder that is a private corporation or any other corporation controlled directly or indirectly by or for the benefit of an individual (other than a trust) or a related group of individuals (other than trusts) will generally be liable to pay a 33 $\frac{1}{3}$ % refundable tax under Part IV of the Tax Act on Ordinary Dividends received on the Shares to the extent that such dividends are deductible in computing the Shareholder’s taxable income. Where Part IV.1 tax also applies to an Ordinary Dividend received by a Shareholder, the rate of Part IV tax payable by the Shareholder is reduced to 23 $\frac{1}{3}$ %.

The amount of any Capital Gains Dividend received by a Shareholder from the Company will be considered to be a capital gain of the Shareholder from the disposition of capital property in the taxation year of the Shareholder in which the capital gains dividend is received.

The amount of any payment received by a Shareholder from the Company as a return of capital on a Share will not be required to be included in computing income. Instead, such amount will reduce the adjusted cost base of the relevant Share to the Shareholder. To the extent that the adjusted cost base to the Shareholder would otherwise be a negative amount, the Shareholder will be considered to have realized a capital gain at that time and the Shareholder’s adjusted cost base will be increased by the amount of such deemed capital gain. See “Disposition of Shares” below.

Having regard to the dividend policy of the Company, a person acquiring Shares may become taxable on income or capital gains accrued or realized before such person acquired such Shares.

Disposition of Shares

Upon the redemption, retraction or other disposition of a Share, a capital gain (or a capital loss) will be realized to the extent that the proceeds of disposition of the Share exceed (or are less than) the aggregate of the adjusted cost base of the Share and any reasonable costs of disposition. If the Shareholder is a corporation, any capital loss arising on the disposition of a share may in certain circumstances be reduced by the amount of any Ordinary Dividends received on the share. Analogous rules apply to a partnership or trust of which a corporation, partnership or trust is a member or beneficiary. The adjusted cost base of each Share will generally be the weighted average of the cost of the Shares of that

class acquired by a Shareholder at a particular time and the aggregate adjusted cost base of any Shares of that class held immediately before the particular time.

One-half of a capital gain (a taxable capital gain) is included in computing income and one-half of a capital loss (an allowable capital loss) is deductible against taxable capital gains in accordance with the provisions of the Tax Act. A Shareholder that is a Canadian-controlled private corporation will be subject to an additional refundable tax on aggregate investment income, which includes an amount in respect of taxable capital gains.

Individuals (other than certain trusts) who realize net capital gains or eligible dividends may be subject to an alternative minimum tax under the Tax Act.

Generally Shares will qualify as “Canadian securities” for purposes of making an irrevocable election under the Tax Act to deem Canadian securities held by the investor to be capital property and to deem all dispositions of Canadian securities held to be dispositions of capital property for the purposes of the Tax Act. This election is not available to all taxpayers under all circumstances and therefore investors considering making such an election should consult their tax advisors.

Election under Section 85 of the Tax Act

A purchaser who is a resident of Canada for purposes of the Tax Act and who is not exempt from tax under the Tax Act or, in the case of a purchaser that is a partnership, where one or more of its members is resident in Canada and not exempt from such tax (an “Eligible Purchaser”) who utilizes the Exchange Option on the exchange of shares of an Exchange Eligible Issuer may make a joint Tax Election (as defined under the heading “Procedure for Tax Election”) with the Company pursuant to section 85 of the Tax Act and thereby obtain a full or partial tax-deferred “rollover” for Canadian income tax purposes by selecting an amount to be treated as the proceeds of disposition of the shares of an Exchange Eligible Issuer (the “Elected Amount”) so as to not realize a capital gain for the purposes of the Tax Act on the exchange. The “Elected Amount” is selected by an Eligible Purchaser and agreed to by the Company as described under the heading “Procedures for Tax Election”, subject to the limitations described below, in the election made pursuant to section 85 of the Tax Act. In addition, generally, the Elected Amount must comply with the following rules:

- (a) the Elected Amount may not be less than the amount of cash received by the Eligible Purchaser on the exchange;
- (b) the Elected Amount may not be less than the lesser of the adjusted cost base to the Eligible Purchaser of the shares of Exchange Eligible Issuers exchanged, determined immediately before the time of the exchange, and the fair market value of such shares at the time of the exchange; and
- (c) the Elected Amount may not exceed the fair market value of the shares of Exchange Eligible Issuers exchanged at the time of such exchange.

Elected Amounts which do not otherwise comply with the foregoing limitations will automatically be adjusted under the Tax Act so that they are in compliance.

Tax Treatment

Where an Eligible Purchaser and the Company make an election at an Elected Amount that complies with the above rules, the tax treatment to the Eligible Purchaser generally will be as follows:

- (a) the shares of Exchange Eligible Issuers exchanged by the Eligible Purchaser will be deemed to have been disposed of by the Eligible Purchaser for proceeds of disposition equal to the Elected Amount;
- (b) if such proceeds of disposition of the shares of Exchange Eligible Issuers are equal to the aggregate of the adjusted cost base thereof to the Eligible Purchaser of such shares, determined immediately before the exchange, and any reasonable costs of disposition, no capital gain or capital loss will be realized by the Eligible Purchaser;
- (c) to the extent that such proceeds of disposition of the shares of Exchange Eligible Issuers exceed (or are less than) the aggregate of the adjusted cost base thereof to the Eligible Purchaser and any reasonable costs of disposition, the Eligible Purchaser will in general realize a capital gain (or capital loss); and

- (d) the aggregate cost to the Eligible Purchaser of shares of the Company received on the exchange will generally be the excess of the Elected Amount over any cash received by the Eligible Purchaser.

Allocation of Cost

An Eligible Purchaser who properly utilizes the Exchange Option and makes a joint Tax Election will be required to allocate such purchaser's cost between Preferred Shares, if any, and Class A Shares. The effect of such election pursuant to Section 85 for such a purchaser who elects a full tax deferred "rollover" and receives no cash in lieu of fractional shares is to allocate the adjusted cost base of shares of Exchange Eligible Issuers exchanged by the Eligible Purchaser first to any Preferred Shares up to their fair market value and the balance to Class A Shares as set forth below:

- (a) the cost to the Eligible Purchaser of any Preferred Shares received on the exchange will be equal to the lesser of the fair market value of such Preferred Shares determined immediately after the exchange and the amount by which the Elected Amount exceeds the amount of cash received by the Eligible Purchaser; and
- (b) the cost to the Eligible Purchaser of the Class A Shares acquired on the exchange will be equal to the amount, if any, by which the Elected Amount exceeds the aggregate of the amount of any cash received by the Eligible Purchaser and the cost of any Preferred Shares received (as determined in (a) above).

The cost of Preferred Shares and Class A Shares so acquired will be averaged with the adjusted cost base of all other Preferred Shares and Class A Shares, respectively, held by the Eligible Purchaser as capital property for the purpose of determining thereafter the adjusted cost base of each Preferred Share or Class A Share, as the case may be, held by such Eligible Purchaser.

Tax Treatment under the Exchange Option-No Tax Election

A purchaser utilizing the Exchange Option who does not enter into a joint election with the Company and who disposes of shares of an Exchange Eligible Issuer pursuant to the Exchange Option generally will realize a capital gain (or a capital loss) in the taxation year of the shareholder in which the disposition of such shares takes place to the extent that the proceeds of disposition for such shares, net of any reasonable costs of disposition, exceed (or are less than) the adjusted cost base of such shares to the shareholder. For this purpose, the proceeds of disposition to the shareholder will equal the sum of (i) any cash received by the shareholder, and (ii) the aggregate of the fair market value of the Class A Shares and any Preferred Shares acquired on the exchange. The cost to a shareholder of Class A Shares and any Preferred Shares so acquired will be equal to the fair market value of those shares at the time of acquisition. In computing the adjusted cost base of the Class A Shares and any Preferred Shares acquired by a shareholder pursuant to the Exchange Option, the cost of such shares must be averaged with the adjusted cost base of any other shares of that class then held by that shareholder as capital property.

A corporation that is a holder of shares of an Exchange Eligible Issuer and that realizes a capital loss on the disposition of such shares may have such capital loss reduced by the amount of any dividends previously received (or deemed to be received) by it on such share (or a share that such shares of an Exchange Eligible Issuer are deemed to be the same as) to the extent and under the circumstances prescribed by rules in the Tax Act. Similar rules may apply where such shares of an Exchange Eligible Issuer are owned by a partnership or trust of which a corporation, trust or partnership is a member or beneficiary. Such purchasers should consult their own advisors regarding these rules.

PROCEDURE FOR TAX ELECTION

The Company will make a joint election with a purchaser utilizing the Exchange Option under subsection 85(1) or 85(2) of the Tax Act (and, in either case, the corresponding provision of any applicable provincial income tax legislation) (a "Tax Election") only if the purchaser is an Eligible Purchaser at all relevant times and the purchaser has duly completed and forwarded to the Company a package of documents described below (a "Tax Election Package") in the manner and within the time set out below. No Tax Election will be made with any purchaser who is not an Eligible Purchaser. A holder who completes the Tax Election Package and forwards such package to the Company will be considered to have represented to the Company that the holder is an Eligible Purchaser.

In order to make a Tax Election, a purchaser may either obtain a Tax Election Package from the Company, or may obtain the election forms directly from the CRA and the relevant provincial tax authority. An Eligible Purchaser

wishing to obtain a Tax Election Package from the Company should visit www.bromptongroup.com and follow the instructions therein. The Tax Election Package consists of:

- (a) two copies of CRA Form T2057 or, if the Eligible Purchaser is a partnership, two copies of CRA Form T2058;
- (b) if the Eligible Purchaser is required to file income tax returns in Québec, then two copies of the Québec Tax Election Form TP-518-V, or if the Eligible Purchaser is required to file in Québec and is a partnership, then two copies of Québec Tax Election Form TP-529-V; and
- (c) a set of general instructions.

A duly completed Tax Election Package together with any required supporting schedules and a self-addressed, stamped envelope must be signed and forwarded by an Eligible Purchaser to the Company no later than 30 days after the Closing Date (the “Election Deadline”). Certain Agents may require the Tax Election Package to be submitted at an earlier date. The Company will not execute any Tax Election received by the Company after the Election Deadline. Any Eligible Purchaser who does not ensure that the Company has received a duly completed Tax Election Package on or before the Election Deadline will not be able to benefit from the “rollover” provisions in subsections 85(1) and 85(2) of the Tax Act or their provincial equivalents.

The Company agrees to execute any properly completed Tax Election contained in a Tax Election Package received by the Company from an Eligible Purchaser on or prior to the Election Deadline and to return such Tax Election Package by mail in the self-addressed stamped envelope provided by such Eligible Purchaser within 60 days after the receipt thereof by the Company, for filing with the appropriate tax authorities. In order for the CRA (and where applicable the Ministère du Revenu du Québec) to accept a Tax Election Package without a late filing penalty being paid by an Eligible Purchaser, the Tax Election Package, duly completed and executed by both the Eligible Purchaser and the Company, must be received by such taxation authorities on or before the day that is the earliest date on or before which either the Company or the Eligible Purchaser is required to file an income tax return for the taxation year in which such Eligible Purchaser’s Exchanged Shares are disposed of pursuant to the Exchange Option. The Company is scheduled to have a December 31 taxation year-end and is required to file income tax returns by June 30 of the next year. Eligible Purchasers who have earlier filing due dates may be required to forward a Tax Election Package to the Company prior to the Election Deadline, in order to avoid late filing penalties.

If shares of an Exchange Eligible Issuer are held in joint ownership and two or more of the co-owners wish to elect, one of the co-owners designated for such purpose should file the designation and a copy of CRA Form T2057 (and where applicable, the corresponding provincial form) for each co-owner along with a list of all co-owners electing, which list should contain the address and social insurance number or business number of each co-owner. If the shares of an Exchange Eligible Issuer are held as partnership property, a partner designated by the partnership must file one copy of CRA Form T2058 on behalf of each member of the partnership (and where applicable, the corresponding form in duplicate with the provincial taxation authorities). Such CRA Form T2058 (and provincial form, if applicable) must be accompanied by a list containing the name, address, social insurance number or business number of each partner as well as written authorization signed by each partner authorizing the designated partner to complete and file the form.

Compliance with the requirements to ensure the validity of a Tax Election, including any new or different requirements in effect after the date hereof, will be the sole responsibility of the Eligible Purchaser making the election. The Company will not be responsible for the proper completion of any Tax Election and, except for the Company’s obligation to execute and mail a Tax Election Package received on or before the Election Deadline within 60 days of its being received by the Company, the Eligible Purchaser will be solely responsible for the payment of any late filing penalty. The Company will not be responsible or liable for taxes, interest, penalties, damages or expenses resulting from the failure by anyone to properly complete any Tax Election, nor will the Company be responsible or liable for taxes, interest, penalties, damages or expenses resulting from the failure by anyone to properly file any Tax Election form in the prescribed form and manner and within the time prescribed in the Tax Act and the corresponding provisions of any applicable provincial income tax legislation (except any failure of the Company to execute and mail a Tax Election Package within 60 days of its being received by the Company provided such duly completed Tax Election Package was received by the Company within 30 days of the Closing Date). The Company reserves the right, in its sole discretion, to reject a purchaser’s Tax Election if the Company determines in its sole discretion that the Tax Election Package is improperly completed.

Purchasers are referred to Information Circular 76-19R3 and Interpretation Bulletin IT-291R3 issued by the CRA for information respecting the Tax Election (and, where applicable, Interpretation Bulletin IMP.518-3 issued by the Ministère du Revenu du Québec).

The comments herein concerning the Tax Elections are provided for general assistance only. The rules in this area are complex and the law contains limitations and numerous technical requirements. Purchasers wishing to avail themselves of the Tax Election should consult their tax advisors.

ELIGIBILITY FOR INVESTMENT

In the opinion of Osler, Hoskin & Harcourt LLP and Davies Ward Phillips & Vineberg LLP, if the Preferred Shares or the Class A Shares are listed on a prescribed stock exchange, all Shares will be qualified investments under the Tax Act for trusts governed by registered retirement savings plans, registered retirement income funds and deferred profit sharing plans. Trusts governed by registered education savings plans should consult their own advisors as to eligibility.

USE OF PROCEEDS

The Company will use the proceeds from the sale of Preferred Shares and Class A Shares as follows:

	<u>Maximum Offering</u>	<u>Minimum Offering</u>
Gross proceeds to the Company	\$100,000,000	\$35,000,000
Agents' fees.....	\$4,800,000	\$1,680,000
Expenses of issue.....	\$720,000	\$525,000
Net proceeds to the Company.....	\$94,480,000	\$32,795,000

The Company will use the net proceeds of the offering (including any net proceeds from the exercise of the Over-Allotment Option) to invest in securities in accordance with the Investment Objectives, Investment Guidelines and Rebalancing Criteria of the Company as described herein (see “Investments of the Company — Investment Restrictions”) as soon as possible after closing and fund the ongoing fees and expenses of the Company as described herein (see “Fees and Expenses”).

PLAN OF DISTRIBUTION

Pursuant to the Agency Agreement, the Agents have agreed to offer the Preferred Shares and Class A Shares for sale, as agents of the Company, on a best efforts basis, if, as and when issued by the Company. The Agents will receive a fee equal to \$0.30 for each Preferred Share sold and \$0.90 for each Class A Share sold and will be reimbursed for out-of-pocket expenses incurred by them. The Agents may form a sub-agency group including other qualified investment dealers and determine the fee payable to the members of such group, which fee will be paid by the Agents out of their fees. While the Agents have agreed to use their best efforts to sell the Preferred Shares and the Class A Shares offered hereby, the Agents will not be obligated to purchase Preferred Shares and Class A Shares which are not sold.

The Company has granted the Agents an Over-Allotment Option. This prospectus qualifies the distribution of the Over-Allotment Option, and the Preferred Shares and the Class A Shares issuable on the exercise thereof. The Agents may exercise the Over-Allotment Option in whole or in part at any time on or before the close of business on the 30th day following the closing of this offering. To the extent that the Over-Allotment Option is exercised, the additional Preferred Shares and Class A Shares will be offered at the offering prices hereunder and the Agents will be entitled to a fee of \$0.30 per Preferred Share and \$0.90 per Class A Share purchased.

If subscriptions for a minimum of 1,400,000 Preferred Shares and Class A Shares have not been received within 90 days following the date of issuance of a final receipt for this prospectus, this offering may not continue without the consent of those who have subscribed on or before such date. Under the terms of the Agency Agreement, the Agents may, at their discretion on the basis of their assessment of the state of the financial markets and upon the occurrence of certain stated events, terminate the Agency Agreement. In the event the minimum offering is not achieved by the Company and the necessary consents are not obtained or if the closing of the offering does not occur for any reason, subscription proceeds received from prospective purchasers will be returned to such purchasers promptly

without interest or deduction. Subscriptions for Preferred Shares and Class A Shares will be received subject to rejection or allotment in whole or in part. The right is reserved to close the subscription books at any time without notice. Closing will take place on December 3, 2007 or such later date as may be agreed upon by the Company and the Agents that is on or before December 31, 2007.

The TSX has conditionally approved the listing of the Preferred Shares and the Class A Shares, subject to fulfillment by the Company of the requirements of such stock exchange on or before January 15, 2008, including distribution to a minimum number of shareholders.

Pursuant to policy statements of certain Canadian securities regulators, the Agents may not, throughout the period of distribution, bid for or purchase Preferred Shares or Class A Shares. The foregoing restriction is subject to certain exceptions, on the conditions that the bid or purchase not be engaged in for the purpose of creating actual or apparent active trading in, or raising the price of, the Preferred Shares and the Class A Shares. Such exceptions include a bid or purchase permitted under applicable by-laws and rules of the relevant self-regulatory authorities relating to market stabilization and passive market making activities and a bid or purchase made for and on behalf of a customer where the order was not solicited during the period of distribution. Pursuant to the first mentioned exception, in connection with this offering, the Agents may over-allot or effect transactions in connection with their over-allotted position. Such transactions, if commenced, may be discontinued at any time.

CAPITALIZATION

The capitalization of the Company at November 20, 2007 and at such date as adjusted to give effect to the issue and sale of the Preferred Shares and the Shares offered hereby, is set forth in the table below:

	<u>Authorized</u>	<u>Outstanding as at November 20, 2007</u>	<u>To be outstanding as at November 20, 2007 after giving effect to these issues⁽¹⁾ (unaudited)</u>
Liabilities			
Preferred Shares	Unlimited	Nil	\$40,000,000 (4,000,000 shares)
Share Capital			
Class A Shares	Unlimited	Nil	\$60,000,000 (4,000,000 shares)
Class J Shares	Unlimited	\$100 (100 shares)	\$100
Issue Costs		Nil	\$(5,520,000)
Total Capitalization ⁽²⁾		\$100	\$94,480,100

Notes:

- (1) Assumes the maximum amount of the offering.
- (2) See Note 3 to the Statement of Financial Position.

PRINCIPAL SHAREHOLDER

All of the issued and outstanding Class J Shares of the Company are owned by a trust established for the benefit of the holders of the Preferred Shares and Class A Shares from time to time. The Class J Shares will be held in escrow pursuant to the Escrow Agreement and will not be disposed of or dealt with in any manner until all the Preferred Shares and Class A Shares have been retracted or redeemed, without the express consent, order or direction in writing of the Ontario Securities Commission.

FEES AND EXPENSES

Initial Expenses

The expenses of the offering (including the costs of creating and organizing the Company, the costs of printing and preparing this prospectus, legal expenses of the Company, marketing expenses and legal and other out-of-pocket expenses incurred by the Agents and certain other expenses) will, together with the Agents' fees, be paid by the

Company from the gross proceeds of the offering. The initial expenses are estimated to be \$525,000 in the case of the minimum offering and \$720,000 in the case of the maximum offering, but will not exceed 1.5% of the gross proceeds of the offering.

Management Fee

The Manager will receive an annual Management Fee equal to 0.60% per annum of Net Asset Value, calculated and payable monthly in arrears, plus any applicable taxes. The Management Fee payable to the Manager in respect of the month in which Closing occurs shall be pro-rated based on the fraction that the number of days from and including the Closing Date to and including the last day of the month is of the number of days of such month. The Manager is responsible for paying the fees payable to Highstreet out of the Management Fee.

Service Fee

The Company will pay to the Manager a Service Fee at the end of each calendar quarter equal to 0.40% per annum plus applicable taxes of the value of Class A Shares. The Service Fee will be applied by the Manager to pay a Service Fee in an equivalent aggregate amount, plus any applicable taxes to dealers based on the number of Class A Shares held by clients of such dealer at the end of the relevant quarter. For these purposes, the value of a Class A Share will be the NAV per Unit less \$10.00 plus any accrued and unpaid distributions on the Preferred Share. The Service Fee payable to the Manager and the Service Fee payable by the Manager in respect of the quarter ending December 31, 2007 shall be pro-rated based on the fraction that the number of days from and including the closing of the offering to and including December 31, 2007 is of the number of days in the quarter ending December 31, 2007.

Ongoing Expenses

The Company will also pay for all expenses incurred in connection with its operation and administration. It is expected that these expenses will include, without limitation, all costs of Portfolio transactions, fees payable to the Manager, debt service costs, the Service Fee (in respect of the Class A Shares), custodial fees, legal, audit and valuation fees and expenses, expenses of the directors of the Manager, fees and expenses of the members of the independent review committee appointed under NI 81-107 and expenses related to compliance with NI 81-107, premiums for directors' and officers' insurance coverage for the directors and officers of the Manager and the Company and members of the independent review committee, costs of reporting to Shareholders, registrar, transfer and distribution agency costs, printing and mailing costs, listing fees and expenses and other administrative expenses and costs incurred in connection with the continuous public filing requirements of the Company and investor relations, fees and expenses relating to any services provided by third parties, taxes, brokerage commissions, costs and expenses relating to the issue of shares, costs and expenses of preparing financial and other reports, costs and expenses arising as a result of complying with all applicable laws, regulations and policies, extraordinary expenses that the Company may incur and all amounts paid on account of indebtedness of the Company, but excluding the fees payable to Highstreet. Such expenses will also include expenses of any action, suit or other proceedings in which or in relation to which the Manager, Highstreet, the Agents, the Custodian and/or any of their respective officers, directors, the independent review committee members, employees, consultants or agents is entitled to indemnity by the Company. The Company will also pay for all expenses incurred in connection with its termination on or about the Maturity Date.

The Manager estimates that ongoing expenses, exclusive of the Management Fee, the Service Fee, debt service and other costs and brokerage expenses related to Portfolio transactions, will be approximately \$205,000 per year (assuming an offering size of approximately \$75 million).

INTEREST OF MANAGEMENT AND OTHERS IN MATERIAL TRANSACTIONS

The Manager, Highstreet and the Custodian will receive the fees described under "Fees and Expenses" for their respective services to the Company and will be reimbursed by the Company for all expenses incurred in connection with the operation and administration of the Company.

In accordance with the requirements of the provincial securities regulatory authorities in connection with the offering, the Manager has undertaken to file insider trading reports, as if the Company was not a mutual fund corporation, in accordance with applicable securities legislation, for itself and to cause its affiliates, its directors and senior officers and the directors and senior officers of its affiliates who might ordinarily receive knowledge of material facts or changes with respect to the Company prior to the general disclosure of such facts and changes to file insider trading reports, as if the Company was not a mutual fund, in accordance with applicable securities legislation in respect of trades made by them in Preferred Shares or Class A Shares. The foregoing undertakings shall remain in full force until such time as all the Preferred Shares and Class A Shares have been redeemed.

MATERIAL CONTRACTS

The following contracts can reasonably be regarded as material to purchasers of Preferred Shares and Class A Shares:

- (a) the Management Agreement described under “The Manager — Management Agreement”;
- (b) the Options Advisor Agreement described under “Highstreet — Options Advisor Agreement”;
- (c) the Agency Agreement described under “Plan of Distribution”; and
- (d) the Escrow Agreement described under “Principal Shareholder”.

Copies of the agreements referred to above after the execution thereof may be inspected during business hours at the principal office of the Company during the course of distribution of the Preferred Shares and Class A Shares offered hereby.

RISK FACTORS

The following are certain considerations relating to an investment in Preferred Shares or Class A Shares which prospective investors should consider before purchasing such shares:

Performance of the Portfolio Issuers and Other Considerations

The NAV per Unit varies as the value of the securities in the Portfolio vary. The Company has no control over the factors that affect the value of the securities in the Portfolio. Factors unique to each company included in the Portfolio, such as changes in their management, strategic direction, achievement of goals, mergers, acquisitions and divestitures, changes in distribution policies and other events, may affect the value of the common shares and other securities in the Portfolio. A substantial drop in the North American equities markets could have a negative effect on the Company and could lead to a significant decline in the value of the Portfolio and the value of the Shares. Shares of the Company may trade in the market at a discount to the NAV per Unit and there can be no assurance that Shares will trade at a price equal to the NAV per Unit.

No Assurances on Achieving Objectives

There is no assurance that the Company will be able to achieve its distribution objective or will return to investors an amount equal to or in excess of the original issue price of the Preferred Shares or the Class A Shares. There is no assurance that the Company will be able to pay quarterly distributions on the Preferred Shares or monthly distributions on the Class A Shares. The funds available for distributions to Shareholders will vary according to, among other things, the dividends and distributions paid on all of the securities, the level of option premiums received and the value of the securities comprising the Portfolio. As the dividends and distributions received by the Company may not be sufficient to meet the Company’s objectives in respect of the payment of distributions, the Company may depend on the receipt of option premiums and the realization of capital gains to meet those objectives. Although many investors and financial market professionals price options based on the Black-Scholes Model, in practice actual option premiums are determined in the marketplace and there is no assurance that the premiums predicted by such pricing model can be attained.

Sensitivity to Interest Rates

As the Company is targeting quarterly distributions of \$0.13125 per Preferred Share and monthly distributions of \$0.10 per Class A Share, the market price of the Preferred Share and Class A Shares may be affected by the level of interest rates prevailing from time to time. Shareholders who wish to redeem or sell their Preferred Shares or Class A Shares prior to the Maturity Date will therefore be exposed to the risk that the market price of the Preferred Shares and Class A Shares may be negatively affected by interest rate fluctuations.

Greater Volatility of the Class A Shares

An investment in the Class A Shares represents a leveraged investment by virtue of the Preferred Shares which have priority in payment of any distributions or any proceeds from the winding-up of the Company. This leverage amplifies the potential return to investors of Class A Shares in so far as returns in excess of the amounts payable to holders of Preferred Shares accrues to the benefit of the holders of Class A Shares. Conversely, any losses incurred by

the Portfolio accrue to the detriment of the holders of the Class A Shares since the Preferred Shares rank prior to the Class A Shares in respect of distributions and proceeds upon the winding-up of the Company.

Changes in Credit Rating

A rating is not a recommendation to buy, sell or hold securities and may be subject to revision or withdrawal at any time. There can be no assurance that the Preferred Shares will maintain their rating by DBRS for any given period of time or that the rating will not be lowered or withdrawn entirely by DBRS if in DBRS' judgment circumstances so warrant. A lowering or withdrawal of the rating of the Preferred Shares may have a negative effect on the market value of the Preferred Shares.

Reliance on Highstreet

Highstreet will perform its duties in a manner consistent with the Investment Objectives, Investment Guidelines and Rebalancing Criteria of the Company. The employees of Highstreet who will be primarily responsible for writing options and rebalancing of the Portfolio have extensive experience in managing investment portfolios and writing covered call and cash covered put options in connection with managing such investment portfolios. There is no certainty that the employees of Highstreet who will be primarily responsible for the writing of such options will continue to be employees of Highstreet throughout the term of the Company.

Use of Options and Other Derivative Instruments

The Company is subject to the full risk of its investment position in the securities comprising the Portfolio, including those securities that are subject to outstanding call options and those securities underlying put options written by the Company, should the market price of such securities decline. In addition, the Company will not participate in any gain on the securities that are subject to outstanding call options above the strike price of the options.

There is no assurance that a liquid exchange or over-the-counter market will exist to permit the Company to write covered call options or cash covered put options or purchase cash covered put options on desired terms or to close out option positions should Highstreet desire to do so. The ability of the Company to close out its positions may also be affected by exchange imposed daily trading limits on options or the lack of a liquid over-the-counter market. If the Company is unable to repurchase a call option which is in-the-money, it will be unable to realize its profits or limit its losses until such time as the option becomes exercisable or expires. In addition, upon the exercise of a put option, the Company will be obligated to acquire a security at the strike price which may exceed the then current market value of such security.

In purchasing call or put options or selling call or writing put options or entering into forward or future contracts, the Company is subject to the credit risk that its counterparty (whether a clearing corporation, in the case of exchange traded instruments, or other third party, in the case of over-the-counter instruments) may be unable to meet its obligations.

Sensitivity to Volatility Levels

The Company intends to sell call options in respect of some or all of the securities held in the Portfolio. Such call options may be either exchange traded options or over-the-counter options. By selling call options, the Company will receive option premiums. The amount of option premium depends upon, among other factors, the implied volatility of the price of the underlying security as, generally, the higher the implied volatility, the higher the option premium. The level of implied volatility is subject to market forces and is beyond the control of Highstreet or the Company.

Operating History

The Company is a newly organized investment company with no previous operating history. There is currently no public market for the Preferred Shares or the Class A Shares and there can be no assurance that an active public market will develop or be sustained after completion of this offering.

Treatment of Proceeds of Disposition and Option Premiums

In determining its income for tax purposes, the Company will treat option premiums received on the writing of covered call options and cash covered put options and any losses sustained on closing out options as capital gains and capital losses, as the case may be, in accordance with its understanding of the CRA's published administrative and assessing practice. Gains or losses on the disposition of shares, including the disposition of shares held in the Portfolio upon exercise of a call option, will be treated as capital gains or losses. The CRA's practice is not to grant an advance

income tax ruling on the characterization of items as capital gains or income and no advance ruling has been requested or obtained.

If, contrary to the CRA's published administrative practice, some or all of the transactions undertaken by the Company in respect of options were treated on income rather than capital account, after-tax returns to Shareholders could be reduced, the Company could be subject to non-refundable income tax from such transactions and the Company could be subject to penalty taxes in respect of excessive capital dividend elections.

Significant Redemptions

Class A Shares and Preferred Shares are retractable quarterly and monthly as described under "Description of Share Capital — Certain Provision of the Preferred Shares — Retraction Privileges" and "Description of Share Capital — Certain Provisions of the Class A Shares — Retraction Privileges". The purpose of the concurrent quarterly retraction right is to prevent the Shares from trading at a substantial discount to the NAV per Unit and to provide Class A Shareholders with the right to realize their investment quarterly without any trading discount to the NAV. While the concurrent quarterly retraction right provides Class A Shareholders the option of quarterly liquidity at NAV, there can be no assurance that it will reduce trading discounts. If a significant number of Shares are retracted or redeemed, the trading liquidity of the Shares could be significantly reduced. In addition, the expenses of the Company would be spread among fewer shares potentially resulting in lower NAV.

Securities Lending

The Company may engage in securities lending. Although the Company will receive collateral for the loans and such collateral will be marked-to-market, the Company will be exposed to the risk of loss should the borrower default on its obligations to return the borrowed securities and the collateral be insufficient to reconstitute the portfolio of loaned securities.

Tax Election

Since purchasers utilizing the Exchange Option will be entitled to make a Tax Election, the adjusted cost base to the Company for tax purposes of shares of an Exchange Eligible Issuer will be less than their fair market value at closing. Accordingly, all shareholders, including those who did not make a Tax Election, may be liable for tax on capital gains attributable to the tax deferred contribution of shares of an Exchange Eligible Issuer by other shareholders to the extent such capital gains tax is not refundable to the Company and is therefore distributed as a capital gains dividend.

LEGAL OPINIONS

The matters referred to under "Eligibility for Investment" and "Canadian Federal Income Tax Considerations" and certain other legal matters relating to the securities offered hereby will be passed upon by Osler, Hoskin & Harcourt LLP, on behalf of the Company, and Davies Ward Phillips & Vineberg LLP on behalf of the Agents.

CUSTODIAN

Pursuant to the Custodian Agreement, the Custodian is responsible for certain aspects of the day-to-day administration of the Company, including executing instruments on behalf of the Company, processing redemptions, NAV calculations, net income and net realized capital gains of the Company and maintaining the books and records of the Company.

The address of the Custodian is Royal Trust Tower, 12th Floor, 77 King Street West, P.O. Box 7500, Station "A", Toronto, Ontario, M5W 1P9.

The Custodian is entitled to receive fees from the Company as described under "Fees and Expenses" and to be reimbursed for all expenses and liabilities which are properly incurred by the Custodian in connection with the activities of the Company.

PROMOTER

The Manager has taken the initiative in organizing the Company and accordingly may be considered to be a "promoter" of the Company within the meaning of the securities legislation of certain provinces of Canada. The

Manager will receive fees from the Company and will be entitled to reimbursement of expenses incurred in relation to the Company as described under “Fees and Expenses”.

AUDITORS

The auditors of the Company are PricewaterhouseCoopers LLP, Chartered Accountants, located at Suite 3000, Box 82, Royal Trust Tower, TD Centre, 77 King Street West, Toronto, Ontario, M5K 1G8.

REGISTRAR AND TRANSFER AGENT

Pursuant to the Registrar and Transfer Agency Agreement to be signed on or prior to closing, Computershare Investor Services Inc., at its principal offices in Toronto will be appointed the registrar and transfer agent for the Preferred Shares and Class A Shares.

PURCHASERS’ STATUTORY RIGHTS

Securities legislation in certain of the provinces and territories of Canada provides purchasers with the right to withdraw from an agreement to purchase securities. This right may be exercised within two business days after receipt or deemed receipt of a prospectus and any amendment. In several of the provinces and territories, the securities legislation further provides a purchaser with remedies for rescission or, in some jurisdictions, damages if the prospectus and any amendment contains a misrepresentation or is not delivered to the purchaser, provided that the remedies for rescission or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser’s province or territory. The purchaser should refer to any applicable provisions of the securities legislation of the purchaser’s province or territory for the particulars of these rights or consult with a legal advisor.

AUDITORS' REPORT

To the Board of Directors of
Dividend Growth Split Corp.

We have audited the statement of financial position of Dividend Growth Split Corp. (the "Company") as at November 20, 2007. This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on this financial statement based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statement is free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statement. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, this statement of financial position presents fairly, in all material respects, the financial position of the Company as at November 20, 2007 in accordance with Canadian generally accepted accounting principles.
