In addition, the Company may hold up to 10% of the total assets of the Portfolio in investments in global financial companies for the purpose of enhanced diversification and return potential.

The investment objectives for the Class A Shares are to provide holders with regular monthly cash distributions targeted to be \$0.10 per Class A Share and to provide the opportunity for growth in the net asset value per Class A Share.

The investment objectives for the Preferred Shares are to provide holders with fixed cumulative preferential quarterly cash distributions, currently in the amount of \$0.12500 per Preferred Share, and to return the original issue price plus accrued dividends (if any) to holders of Preferred Shares on November 29, 2022.
