FORWARD-LOOKING STATEMENTS

Certain statements contained in this annual information form constitute forward-looking statements. The use of any of the words “anticipate”, “continue”, “estimate”, “expect”, “may”, “will”, “project”, “should”, “believe” and similar expressions are intended to identify forward-looking statements. These statements involve known and unknown risks, uncertainties and other factors that may cause actual results or events to differ materially from those anticipated in such forward-looking statements. The Company believes the expectations reflected in forward-looking statements are reasonable but no assurance can be given that these expectations will prove to be correct and such forward-looking statements included in this annual information form should not be unduly relied upon. These statements speak only as of the date of this annual information form.

In particular, this annual information form may contain forward-looking statements pertaining to distributable cash and Distributions per Class A Share, Preferred Share or Unit. The actual results could differ materially from those anticipated in these forward-looking statements as a result of, among other things, the risk factors set out in this annual information form. The Company does not undertake any obligation to publicly update or revise any forward-looking statements.

GLOSSARY OF TERMS

In this annual information form, the following terms shall have the meanings set forth below, unless otherwise indicated:

“Advisor Agreement” means the advisor agreement dated as of October 27, 2005 among the Company and the Manager, as amended.

“Annual Retraction Date” means the second last business day of November, other than in the year in which the Maturity Date occurs.

“Black-Scholes Model” means a widely used option pricing model developed by Fischer Black and Myron Scholes in 1973. The model can be used to calculate the theoretical value of an option based on the current price of the underlying security, the strike price and term of the option, prevailing interest rates and the volatility of the price of the underlying security.

“Brompton” means the Brompton group of companies.

“Brompton Funds” means Brompton Corp. and its wholly owned subsidiary Brompton Funds Limited, which acts as manager of the Company. Brompton Corp. is in the business of managing investment funds.

“business day” means any day on which the TSX is open for business.

“call option” means the right, but not the obligation, of the option holder to buy a security from the seller of the option at a specified price at any time during a specified time period or at expiry.

“cash covered put option” means a put option entered into in circumstances where the seller of the put option holds cash equivalents or other acceptable cash cover (as defined in NI 81-102) sufficient to acquire the securities underlying the option at the strike price throughout the term of the option.

“cash equivalents” means, and for the purposes of “cash cover” and “cash covered put option”, “cash” as used therein means:

- a) cash on deposit at the Custodian;
- b) an evidence of indebtedness that has a remaining term to maturity of 365 days or less and that is issued, or fully and unconditionally guaranteed as to principal and interest, by:
 - (i) any of the federal or provincial governments of Canada;
 - (ii) the Government of the United States; or
 - (iii) a Canadian financial institution;provided that, in the case of (ii) and (iii), such evidence of indebtedness has a rating of at least R-1 (mid) by DBRS or the equivalent rating from another designated rating organization; or
- c) other cash cover as defined in NI 81-102.

“CDS” means CDS Clearing and Depository Services Inc. and includes any successor corporation or any other depository subsequently appointed by the Company as the depository in respect of the book-entry-only units.

“**CDS Participant**” means a participant in CDS.

“**Class A Record Date**” means the last business day of each month.

“**Class A Shareholder**” means a holder of a Class A Share.

“**Class A Shares**” means the class A shares of the Company.

“**Company**” means Brompton Split Banc Corp.

“**covered call option**” means a call option entered into in circumstances where the seller of the call option holds the underlying security through the term of the option.

“**CRA**” means the Canada Revenue Agency or any successor organization.

“**Custodial Services Agreement**” means the custodian agreement, entered into between the Company and the Custodian, dated as of September 15, 2016, as it may be amended from time to time.

“**Custodian**” means CIBC Mellon Trust Company, in its capacity as custodian under the Custodial Services Agreement, as appointed from time to time by the Manager.

“**DBRS**” means DBRS Limited.

“**Distribution(s)**” means the cash and *in specie* distributions which are paid by the Company to Shareholders.

“**Escrow Agent**” means Computershare Trust Company of Canada, in its capacity as escrow agent under the Escrow Agreement.

“**Escrow Agreement**” means the escrow agreement dated as of November 16, 2005 entered into by Brompton Split Banc Trust, the Escrow Agent and the Company, as it may be amended from time to time.

“**Extraordinary Resolution**” means a resolution passed by the affirmative vote of at least 66 $\frac{2}{3}$ % of the votes cast, either in person or by proxy, at a meeting of Shareholders called for the purpose of approving such resolution.

“**in-the-money**” means in relation to a call option, a call option with a strike price less than the current market price of the underlying security and, in relation to a put option, a put option with a strike price greater than the current market price of the underlying security.

“**Income Tax Act**” means the *Income Tax Act* (Canada), as amended, or successor statutes, and shall include regulations promulgated thereunder.

“**Investment Guidelines**” means the investment guidelines of the Company described in section 1.3 of this Annual Information Form.

“**Investment Objectives**” means the investment objectives of the Company described in section 1.2 of this Annual Information Form.

“**Investment Restrictions**” means the investment restrictions of the Company, including without limitation those described in section 2.0 of this Annual Information Form.

“IRC” means the independent review committee established by the Manager for the Company pursuant to NI 81-107.

“Management Agreement” means the management agreement dated as of October 27, 2005 between the Company and the Manager, as it may be amended from time to time.

“Management Fee” means the management fee payable to the Manager described in section 8.2.3 of this Annual Information Form.

“Manager” means Brompton Funds Limited, or if applicable, its successor.

“Maturity Date” means November 29, 2022, which may be further extended for successive terms of up to five years as determined by the board of directors of the Company.

“NAV per Class A Share” means the greater of (i) NAV per Unit minus \$10.00 plus any accrued and unpaid Distributions on a Preferred Share and (ii) nil.

“NAV per Unit” on a particular date shall be (A) if the NAV of the Company is less than or equal to the aggregate redemption price of all Preferred Shares (and any other preferred shares of any other class so designated by the Company) then outstanding and any accrued and unpaid distributions thereon (the “Preferred Share Amount”), the NAV per Unit is calculated by dividing the NAV of the Company on such day by the number of Preferred Shares (and any other preferred shares of any other class so designated by the Company) then outstanding; and (B) if the NAV of the Company is greater than the Preferred Share Amount, the NAV per Unit is calculated by (i) subtracting the Preferred Share Amount from the NAV of the Company; (ii) dividing the difference by the number of Class A Shares then outstanding and (iii) adding \$10.00 plus any accrued and unpaid distributions per Preferred Share to the result obtained in class (ii).

“NAV Valuation Date” means, at a minimum, Thursday of each week, or if any Thursday is not a business day, the immediately preceding business day, and includes any other date on which the Manager elects, in its discretion, to calculate the NAV per Unit.

“Net Asset Value” or **“NAV”** means the specified net asset value which, on any date, will be equal to the difference between the aggregate value of the assets of the Company and the aggregate value of the liabilities of the Company on that date. The Net Asset Value of the Company on a particular date will be equal to (i) the aggregate value of the assets of the Company, less (ii) the aggregate value of the liabilities of the Company (the Preferred Shares will not be treated as liabilities for these purposes) including any Distributions declared and not paid that are payable to Shareholders on or before such date, less (iii) the stated capital of the Class J Shares (\$100) as described in section 5.0 of this Annual Information Form.

“NI 81-102” means National Instrument 81-102 of the Canadian Securities Administrators (or any successor policy, rule or national instrument), as it may be amended from time to time.

“NI 81-106” means National Instrument 81-106 of the Canadian Securities Administrators (or any successor policy, rule or national instrument), as it may be amended from time to time.

“NI 81-107” means National Instrument 81-107 of the Canadian Securities Administrators (or any successor policy, rule or national instrument), as it may be amended from time to time.

“option premium” means the selling price of an option.

“Ordinary Resolution” means a resolution passed by the affirmative vote of at least 50% of the votes cast, either in person or by proxy, at a meeting of Shareholders called for the purpose of approving such resolution.

“out-of-the-money” means in relation to a call option, a call option with a strike price greater than the current market price of the underlying security and, in relation to a put option, a put option with a strike price less than the current market price of the underlying security.

“Portfolio” means the portfolio of common shares of the six largest Canadian banks that the Company acquired using the net proceeds of its initial public offering.

“Preferred Share Record Date” means the last business day of March, June and September and December.

“Preferred Shareholder” means a holder of a Preferred Share.

“Preferred Shares” means the preferred shares of the Company.

“put option” means the right, but not the obligation, of the option holder to sell a security to the seller of the option at a specified price at any time during a specified time period or at expiry.

“Rebalancing Criteria” means the rebalancing criteria as described in section 1.4 of this Annual Information Form.

“Retraction Date” means the second last business day of a month.

“Retraction Notice” means a notice delivered by a CDS Participant to CDS (at its office in Toronto) on behalf of a Shareholder who desires to exercise his or her retraction privileges.

“Retraction Payment Date” means the date that is on or before the tenth business day in the month following a Retraction Date.

“Right” means a right of the Company issued to holders of Class A Shares of record on March 15, 2006 entitling them to subscribe for a Unit and the issuance of Units upon exercise thereof.

“Share” means a Class A Share or a Preferred Share, and **“Shares”** means more than one Class A Share and/or Preferred Share.

“Shareholder” means a holder of a Class A Share or a Preferred Share, and **“Shareholders”** means more than one holder of a Class A Share or Preferred Share.

“strike price” means in relation to a call option, the price specified in the option that must be paid by the option holder to acquire the underlying security or, in relation to a put option, the price at which the option holder may sell the underlying security.

“TSX” means the Toronto Stock Exchange.

“Unit” means a notional unit consisting of one Class A Share and one Preferred Share. The number of Units outstanding at any time will be equal to the sum of the number of Class A Shares and Preferred Shares then outstanding divided by two.

“volatility” means, in respect of the price of a security, a numerical measure of the tendency of the price to vary over time.

1.0 NAME, FORMATION AND HISTORY

Brompton Split Banc Corp. is a mutual fund corporation incorporated under the laws of the Province of Ontario on September 14, 2005 with a registered office located at Suite 2930, Bay Wellington Tower, Brookfield Place, 181 Bay Street, Toronto, Ontario M5J 2T3. The Company was formed pursuant to Articles of Incorporation and is governed by its Articles of Incorporation and the By-laws of the Company.

Prior to closing the Company's initial public offering, the Company amended its articles to create the Class A Shares and the Preferred Shares.

Pursuant to a final prospectus filed by the Company on March 1, 2006, the Company issued to the holders of its outstanding Class A Shares at the close of business (Toronto time) on March 15, 2006, transferable Rights to subscribe for and purchase an aggregate of 6,135,000 Units, each Unit consisting of one Class A Share and one Preferred Share. Each Class A Shareholder at the close of business on the record date received one Right for each Class A Share held. Rights were fully transferable and evidenced by a global rights certificate. One Right entitled the holder thereof to purchase one Unit consisting of one Class A Share and one Preferred Share. The Rights expired on April 10, 2006. The Company issued 2,006,907 Units raising net proceeds of approximately \$51.6 million.

On January 31, 2012, the board of directors of the Company announced it approved a proposal to, among other things, extend the term of the Company beyond its scheduled redemption date of November 30, 2012 for a period of up to 5 years as determined by the board of directors. In addition, the redemption date may be further extended for successive terms of up to five years thereafter as determined by the board of directors of the Company. The board of directors of the Company called and held a special meeting of shareholders on March 29, 2012 to consider and vote on the proposal.

On March 29, 2012, the Company received approval at a special meeting of Shareholders of the Company to:

- Allow for the extension of the term of the Shares for successive periods of up to 5 years to be determined by the board of directors of the Company;
- Provide Shareholders who do not wish to continue their investment in the Company with a special retraction right to enable such holders to retract their Shares on any subsequent extension;
- To change the annual retraction date from the second last business day of December to the second last business day of November commencing in 2013 with no concurrent retraction in years in which there is an extension of the Maturity Date;
- To provide the Company with the right to redeem Shares on a pro-rata basis to the extent that there are more Preferred Shares than Class A Shares (or vice versa) are retracted under any special retraction right.

On September 26, 2012, the Company announced that in connection with the extension of the term of the Shares approved on March 29, 2012, the board of directors approved the extension of the term of the Shares to November 29, 2017 and that the quarterly cash Distribution rate for the Preferred Shares was set at \$0.1125 for the new term of the Preferred Shares effective December 1, 2012.

Commencing November 6, 2012, Brompton Funds Limited began managing the Company's Portfolio and options program.

On November 13, 2012, pursuant to a treasury offering, the Company issued 1,250,000 Class A Shares and 1,250,000 Preferred Shares. On November 30, 2012, an additional 42,000 Class A Shares and 42,000 Preferred Shares were issued pursuant to the exercise of the agents' over-allotment option in connection

with the treasury offering. The total gross proceeds raised by the Company were approximately \$27.8 million.

On March 6, 2017, the board of directors of the Company announced the extension of the term of the Shares to November 29, 2022.

On April 25, 2017, pursuant to a private placement, the Company issued 1,382,784 Preferred Shares. The total gross proceeds raised by the Company were approximately \$13.9 million.

On April 26, 2017, the Company announced the completion of a split of its Class A Shares for Class A shareholders of record on April 25, 2017. Class A shareholders received an additional 21 Class A Shares for every 100 Class A Shares held.

On September 28, 2017, in connection with the extension of the term of the Shares, the board of directors of the Company set the quarterly cash Distribution rate for the Preferred Shares at \$0.50 for the new term of the Preferred Shares commencing on December 1, 2017.

On December 1, 2017, pursuant to a private placement, the Company issued 549,387 Preferred Shares. The total gross proceeds raised by the Company were approximately \$5.5 million.

On August 29, 2018, the Company received approval at a special meeting of Shareholders of the Company to:

- Amend the Investment Objectives, Investment Guidelines, Investment Restrictions, and Rebalancing Criteria;
- Amend the articles of incorporation of the Company to allow it to issue class B shares and class C shares issuable in series;
- Amend the tender date for non-concurrent redemptions;
- Allow for non-matched shares; and
- Amend acts requiring Shareholder approval.

On March 1, 2019, pursuant to a treasury offering, the Company issued 868,500 Class A Shares and 868,500 Preferred Shares. The total gross proceeds raised by the Company were approximately \$20.5 million.

On February 13, 2020, pursuant to a treasury offering, the Company issued 2,272,262 Class A Shares and 2,272,262 Preferred Shares. The total gross proceeds raised by the Company was approximately \$52.8 million.

1.1 Status of the Company

While the Company is technically considered to be a mutual fund corporation under the securities legislation of certain provinces of Canada, the Company is not a conventional mutual fund and has obtained exemptions from certain requirements of NI 81-102 and NI 81-106.

The Company is considered to be a mutual fund subject to certain restrictions and practices contained in securities legislation, including NI 81-102, which are designed in part to ensure that the investments of a mutual fund are diversified and relatively liquid and to ensure the proper administration of the Company. Except as stated below, the Company is managed in accordance with these restrictions and practices.

The Company obtained exemptions from the following requirements of NI 81-102:

- a) subsection 2.1(1) – to enable the Company to invest all of its net assets in the Portfolio;
- b) clause 2.6(a) – to enable the Company to obtain a credit facility for working capital purposes and provide a security interest over its assets, so long as the outstanding amount of any such borrowings of the Company does not exceed 5% of the net assets of the Company taken at market value at the time of the borrowing;
- c) section 3.3 – to permit the Company to bear the expenses of the Company’s initial public offering;
- d) section 10.3 – to permit the Company to calculate the retraction price for the Class A Shares and Preferred Shares in the manner described and on the applicable Retraction Date;
- e) subsection 10.4(1) – to permit the Company to pay the retraction price for the Class A Shares and the Preferred Shares on the Retraction Payment Date;
- f) subsection 12.1(1) – to relieve the Company from the requirement to file certain compliance reports; and
- g) section 14.1 – to relieve the Company from the requirement relating to the record date for the payment of dividends or other Distributions, provided that it complies with the applicable requirements of the TSX.

The Company also obtained an exemption from subsection 14.2(3) of NI 81-106 in order to permit the Company to calculate its NAV on a weekly basis.

The Company differs from conventional mutual funds in a number of respects, most notably as follows: (i) while the Class A Shares and the Preferred Shares of the Company may be surrendered at any time for redemption, the redemption price is payable monthly whereas the securities of most conventional mutual funds are redeemable daily, (ii) the Class A Shares and the Preferred Shares of the Company have a stock exchange listing whereas the securities of most conventional mutual funds do not, and (iii) unlike most conventional mutual funds, the Class A Shares and the Preferred Shares are not offered on a continuous basis.

1.2 Investment Objectives

The Company’s Investment Objectives are:

- a) to provide holders of Preferred Shares with fixed cumulative preferential quarterly cash Distributions;
- b) to return the original issue price to holders of the Preferred Shares on the Maturity Date;
- c) to provide holders of Class A Shares with regular monthly cash Distributions targeted to be at least \$0.10 per Class A Share; and
- d) to provide holders of Class A Shares with the opportunity for growth in Net Asset Value per Class A Share.

1.3 Investment Guidelines

The Company invests, on an approximately equally weighted basis in a portfolio of common shares of the six largest Canadian banks (currently Bank of Montreal, Canadian Imperial Bank of Commerce, National

Bank of Canada, Royal Bank of Canada, The Bank of Nova Scotia and The Toronto-Dominion Bank). In addition, the Company may hold up to 10% of the total assets of the Portfolio in investments in global financial companies for the purposes of enhanced diversification and return potential, at the discretion of the Manager. The Portfolio may contain the common shares of less than six Canadian banks as a result of the impact of a merger, acquisition or other significant corporate actions or events affecting one or more of the Canadian banks in the Portfolio. The Manager is responsible for maintaining the Portfolio in accordance with the Investment Guidelines and Rebalancing Criteria. The Manager may, at its discretion, selectively write covered call options and cash covered put options from time to time in respect of the holdings included in the Portfolio in order to generate additional distributable income for the Company. Holdings in the six largest Canadian banks will generally be equal-weighted at each rebalancing of the Portfolio, but the Company may, at the Manager's discretion, hold non-equal-weight positions.

The Company may from time to time hold cash and cash equivalents including short term debt instruments issued by the government of Canada or a province, short term commercial paper issued by Canadian financial institutions with a rating of at least R-1 (mid) by DBRS or the equivalent from another rating organization selected by the Manager or term deposits.

In addition to, or instead of, investing in Canadian banks and/or global financial companies directly, the Company may invest, at the Manager's discretion, a portion of the Portfolio's assets in exchange-traded funds, including exchange-traded funds managed by the Manager. There will be no duplication of management fees payable by the Company in connection with any investment by the Company in exchange-traded funds managed by the Manager.

In addition, SBC will hedge substantially all of its foreign currency exposure to the holdings in the Portfolio back to the Canadian dollar, if any.

The Company may from time to time hold cash and cash equivalents.

1.4 Rebalancing Criteria

The Portfolio will be rebalanced and reconstituted at least annually but may be rebalanced and/or reconstituted more frequently at the Manager's discretion.

As a result of changes in market prices of the shares in the Portfolio between rebalancing dates, it is not expected that the issuers included in the Portfolio will be exactly equally weighted at any given time.

Equity securities selected by the Manager will generally be equal-weighted at the time of investment and after rebalancing the Portfolio, but the Company may, in the Manager's discretion, hold non-equal weight positions.

The Portfolio may also be rebalanced in the event of any future offering of shares by the Company. New Preferred Shares and Class A Shares may not be issued for net proceeds per unit less than the most recently calculated NAV per unit prior to the date of setting of the subscription price by the Company.

2.0 INVESTMENT RESTRICTIONS

The Company is subject to certain Investment Restrictions that, among other things, limit the equity securities and other securities that the Company may acquire for the Portfolio. The Company's Investment Restrictions may not be changed without the approval of the holders of Class A Shares and Preferred Shares, each voting separately as a class, by an Extraordinary Resolution, at a meeting called for such purpose.

In addition, but subject to the Investment Restrictions, the Company has adopted the standard investment restrictions and practices set forth in NI 81-102 (as it may be amended from time to time), other than those outlined in section 1.1 of this Annual Information Form.

The Class A Shares and Preferred Shares are qualified investments under the Income Tax Act for trusts governed by registered retirement savings plans, registered retirement income funds, registered disability savings plans, registered education savings plans, deferred profit sharing plans and tax-free savings accounts (collectively “Deferred Plans”). During 2019, the Company did not deviate from the rules under the Income Tax Act that apply to the status of the Shares qualifying for inclusion in Deferred Plans.

The Class A Shares and Preferred Shares will not be a prohibited investment under the Income Tax Act for a tax-free savings account, a registered retirement savings plan, a registered retirement income fund, a registered disability savings plan, or a registered education savings plan, provided the holder of the tax-free savings account or registered disability savings plan, the subscriber of the registered education savings plan, or the annuitant of the registered retirement savings plan or registered retirement income fund, deals at arm’s length with the Company and does not have a “significant interest” (within the meaning of the prohibited investment rules in the Income Tax Act) in the Company.

3.0 DESCRIPTION OF SECURITIES

The Company is authorized to issue an unlimited number of Class A Shares, Preferred Shares, Class J Shares, Class B Shares and Class C Shares. The holders of Class J Shares are not entitled to receive dividends and are entitled to one vote per share. The Class J Shares are redeemable and retractable at a price of \$1.00 per share.

While an equal number of Class A Shares and Preferred Shares are expected to be outstanding under normal circumstances, in certain circumstances relating to the issuance and redemption or retraction of Preferred Shares or Class A Shares, the number of Class A Shares issued and outstanding may exceed the number of Preferred Shares issued and outstanding. In such case, the extent of such excess number of Class A Shares over Preferred Shares is generally not expected to exceed 10% of the number of Preferred Shares outstanding but may from time to time exceed 10% for periods of less than 15 days.

The Preferred Shares are rated Pfd-3(high) by DBRS. A security rating is not a recommendation to buy, sell or hold securities and may be subject to revision or withdrawal at any time by DBRS.

3.1 Principal Shareholder

All of the issued and outstanding Class J Shares of the Company are owned by a trust established for the benefit of the holders of the Class A Shares and Preferred Shares from time to time. The Class J Shares are held in escrow pursuant to the Escrow Agreement and will not be disposed of or dealt with in any manner until all the Class A Shares and Preferred Shares have been retracted or redeemed, without the express consent, order or direction in writing of the Ontario Securities Commission.

3.2 Distributions

3.2.1 Preferred Shares

Shareholders of record of Preferred Shares at 5:00 p.m. (Toronto time) on a Preferred Share Record Date are entitled to receive fixed, cumulative preferential quarterly cash Distributions which are paid before the tenth business day in the month following the end of the period in respect of which the Distribution is payable. These Distributions may consist of ordinary dividends, capital gains dividends or returns of capital. There can be no assurance that the Company will be able to pay Distributions to holders of

Preferred Shares. All Distributions are paid through the CDS book entry-only system or such other manner as may be agreed by the Company.

3.2.2 Class A Shares

The policy of the board of directors of the Company is to pay monthly non-cumulative Distributions to the holders of Class A Shares. Such Distributions are paid on or before the tenth business day of the month following the month in respect of which the Distribution is payable. Such Distributions may consist of ordinary dividends, capital gains dividends or returns of capital. There can be no assurance that the Company will be able to pay Distributions to the holders of Class A Shares.

No Distributions will be paid on the Class A Shares if (i) the Distributions payable on the Preferred Shares are in arrears, or (ii) in respect of a cash Distribution, after payment of the Distribution by the Company, the NAV per Unit would be less than \$15.00. In addition, it is intended that the Company will not pay Distributions in excess of \$0.10 per month, on the Class A Shares if after payment of the Distribution the NAV per Unit would be less than \$25.00 unless the Company has to make such Distributions so as to fully recover refundable taxes.

Subject to the Distribution entitlement of the Preferred Shareholders, the board of directors of the Company shall allocate return of capital Distributions first to the Class A Shareholders before paying Distributions representing a return of capital to the Preferred Shareholders. In the event that the Company realizes capital gains, the Company may, at its option, make a special year end capital gains Distribution in certain circumstances, including where the Company has net realized capital gains in Class A Shares and/or cash. Any capital gains Distribution payable in Class A Shares will increase the aggregate adjusted cost base to holders of Class A Shares of such shares. Immediately following payment of such a Distribution in Class A Shares, the number of Class A Shares outstanding will be automatically consolidated such that the number of Class A Shares outstanding after such Distribution will be equal to the number of Class A Shares outstanding immediately prior to such Distribution.

Distributions are payable to holders of Class A Shares of record at 5:00 p.m. (Toronto time) on the Class A Record Date. All cash Distributions are paid through CDS' book-entry only system or paid in such other manner as may be agreed to by the Company.

3.2.3 Distribution Reinvestment Plan

The Company has also adopted a distribution reinvestment plan (the "Plan"), pursuant to which Distributions paid to holders of Class A Shares may be reinvested, automatically on each Class A Shareholders' behalf at the option of such Class A Shareholder, to purchase additional Class A Share in accordance with the Plan. The Plan is not available to non-resident Class A Shareholders.

3.3 Priority

3.3.1 Preferred Shares

The Preferred Shares rank in priority to the Class A Shares and the Class J Shares with respect to the payment of Distributions and the repayment of capital on the dissolution, liquidation or winding up of the Company.

3.3.2 Class A Shares

The Class A Shares rank subsequent to the Preferred Shares but in priority to the Class J Shares with respect to the payment of Distributions and the repayment of capital on the dissolution, liquidation or winding up of the Company.

3.3.3 Class J Shares

The Class J Shares rank subsequent to both the Class A Shares and the Preferred Shares with respect to Distributions on the dissolution, liquidation or winding up of the Company.

3.4 Acts Requiring Shareholder Approval

The following may only be undertaken with the approval of the holders of Class A Shares and Preferred Shares, each voting separately as a class, by an Ordinary Resolution, unless a greater majority is required by law, passed at a meeting called for the purpose of considering such Ordinary Resolution, provided that holders of Class A Shares and Preferred Shares holding at least 10% of the Shares outstanding on the record date of the meeting vote in favour of such Ordinary Resolution:

- a) a reorganization with, or transfer of assets to, another mutual fund corporation, if
 - the Company ceases to continue after the reorganization or transfer of assets; and
 - the transaction results in Shareholders becoming securityholders in the other mutual fund corporation;
- b) a reorganization with, or acquisition of assets of, another mutual fund corporation, if
 - the Company continues after the reorganization or acquisition of assets;
 - the transaction results in the securityholders of the other mutual fund corporation becoming Shareholders of the Company; and
 - the transaction would be a significant change to the Company;
- c) except as described herein, a change of the Manager to the Company, other than a change resulting in an affiliate of such person assuming such position; and

The following may only be undertaken with the approval of holders of Class A Shares and Preferred Shares, each voting separately as a class, by an Extraordinary Resolution:

- a) a change in the Investment Objectives or Investment Restrictions of the Company, unless such changes are necessary to ensure compliance with applicable laws, regulations or other requirements imposed by applicable regulatory authorities from time to time;
- b) any change in the basis of calculating fees or other expenses that are charged to the Company that could result in an increase in charges to the Company;
- c) any change in the frequency of calculating the NAV per Unit to less often than weekly;
- d) any issue of Units for net proceeds per Unit less than the most recently calculated Net Asset Value per Unit prior to the date of the setting of the subscription price by the Company; and
- e) any amendment, modification or variation in the provisions or rights attaching to the Class A Shares, Preferred Shares or Class J Shares.

The auditor of the Company may be changed without the prior approval of the Shareholders of the Company provided that the independent review committee approves the change and Shareholders are sent written notice at least 60 days before the effective date of the change.

Notwithstanding the foregoing, in certain circumstances, the Company's reorganization with, or transfer of assets to, another mutual fund may be carried out without the prior approval of Shareholders provided that the independent review committee approves the transaction pursuant to NI 81-107, the reorganization or transfer complies with certain requirements of NI 81-102 and NI 81-107, as applicable, and Shareholders are sent written notice at least 60 days before the effective date of the change.

Each Class A Share and each Preferred Share will have one vote at such a meeting. If at any such meeting the holders of at least 10% of the Class A Shares and Preferred Shares, voting separately as a class, are not present in person or represented by proxy within one-half hour after the time appointed for such meeting then, subject to applicable law, the meeting will be adjourned to such fixed time and place as may be designated by the chairman of the board of directors the Company. At such adjourned meeting, the holders of Class A Shares and Preferred Shares, voting separately as a class, then present in person or represented by proxy may transact the business for which the meeting was originally called and a resolution passed at such meeting will constitute approval of the holders of the Class A Shares and Preferred Shares. Except as required by law or set out above, holders of Class A Shares and Preferred Shares will not be entitled to receive notice of, to attend or to vote at any meeting of Shareholders of the Company.

4.0 VALUATION OF PORTFOLIO SECURITIES

In determining the NAV of the Company at any time:

- a) the value of any cash on hand or on deposit, bill, demand note and account receivable, prepaid expense, dividend, Distribution or other amount received or receivable (or declared to holders of record of securities owned by the Company on a date before the NAV Valuation Date as of which the NAV of the Company is being determined, and to be received) and interest accrued and not yet received shall be deemed to be the full amount thereof provided that if the Manager has determined that any such deposit, bill, demand note, account receivable, prepaid expense, Distribution or other amount received or receivable (or declared to holders of record of securities owned by the Company on a date before the NAV Valuation Date as of which the NAV of the Company is being determined, and to be received) or interest accrued and not yet received is not otherwise worth the full amount thereof, the value thereof shall be deemed to be such value as the Manager determines to be the fair market value thereof;
- b) the value of any security, that is listed or traded upon a stock exchange (or if more than one, on the principal stock exchange for the security, as determined by the Manager) shall be determined by taking the latest available sale price of recent date, or lacking any recent sales or any record thereof, the simple average of the latest available offer price and the latest available bid price (unless in the opinion of the Manager such value does not reflect the value thereof and in which case the latest offer price or bid price shall be used), as at the NAV Valuation Date on which the NAV of the Company is being determined, all as reported by any means in common use. For a retraction or redemption of the Company's Shares, the value of the common shares will be equal to the weighted average trading price of such shares over the last three business days of the relevant month;
- c) the value of any security, that is traded over-the-counter will be priced at the average of the last bid and ask prices quoted by a major dealer recognized information provider in such securities;
- d) the value of any security, or other asset for which a market quotation is not readily available will be its fair market value on the NAV Valuation Date on which the NAV of the Company is being determined as determined by the Manager (generally the Manager will value such security at cost until there is a clear indication of an increase or decrease in value);

- e) any market price reported in currency other than Canadian dollars shall be translated into Canadian currency at the rate of exchange available to the Company from the Custodian on the NAV Valuation Date on which NAV of the Company is being determined;
- f) listed securities subject to a hold period will be valued as described above with an appropriate discount as determined by the Manager and investments in private companies and other assets for which no published market exists will be valued at the lesser of cost and the most recent value at which such securities have been exchanged in an arm's length transaction that approximates a trade effected in a published market, unless a different fair market value is determined to be appropriate by the Manager; and
- g) the value of any security or property to which, in the opinion of the Manager, the above principles cannot be applied (whether because no price or yield equivalent quotations are available as above provided, or for any other reason) shall be the fair market value thereof determined in good faith in such manner as the Manager from time to time adopts.

Pursuant to item (g) above, the Manager has not exercised its discretion to deviate from the valuation practices noted above in the last three years.

In connection with the foregoing, the NAV, NAV per Unit, NAV per Class A Share and net asset value per Preferred Share will be calculated in accordance with the rules and policies of the Canadian Securities Administrators or in accordance with any exemption therefrom that the Company may obtain.

5.0 CALCULATION OF NET ASSET VALUE

For reporting purposes other than financial statements, the Net Asset Value of the Company on a particular date is equal to (i) the aggregate value of the assets of the Company, less (ii) the aggregate value of the liabilities of the Company, including any Distributions declared and not paid that are payable to Shareholders on or before such date, less (iii) the stated capital of the Class J Shares (\$100). For greater certainty, the Preferred Shares are not treated as liabilities for these purposes.

The NAV per Unit and the NAV per Class A Share are at a minimum calculated on Thursday of each week, or if any Thursday is not a business day, the immediately preceding business day, and on any redemption or retraction date for the Company's Shares and includes any other date on which the Manager elects, in its discretion, to calculate the NAV per Unit and the NAV per Class A Share.

The NAV, NAV per Unit, NAV per Class A Share and net asset value per Preferred Share are available to the public at no cost by calling 1-866-642-6001 and the NAV per Unit, NAV per Class A Share and net asset value per Preferred Share are available on the Manager's website at www.bromptongroup.com. The Company also makes the NAV per Class A Share and the net asset value per Preferred Share available to the financial press for publication on a weekly basis.

The NAV, NAV per Unit, NAV per Class A Share and net asset value per Preferred Share are calculated in Canadian dollars.

6.0 PURCHASES OF SHARES

The Class A Shares and the Preferred Shares are listed for trading on the TSX under the symbols SBC and SBC.PR.A, respectively. Registration of interests in and transfers of the Shares are made only through the book-entry only system operated by CDS and the Shares must be purchased, transferred and surrendered for redemption through a CDS Participant. All rights of Shareholders must be exercised through, and all payments or other property to which such Shareholders are entitled are made or delivered by, CDS or the CDS Participant through which such Shareholder holds such Shares. Upon purchase of

any Shares, Shareholders receive only a customer confirmation from the registered dealer which is a CDS Participant and from or through which the Shares are purchased.

7.0 REDEMPTIONS AND RETRACTIONS

7.1 Redemptions

7.1.1 Preferred Shares

All Preferred Shares outstanding on the Maturity Date will be redeemed by the Company on such date. The redemption price payable by the Company for a Preferred Share on that date will be equal to the lesser of (i) \$10.00 plus any accrued and unpaid Distributions thereon and (ii) the NAV of the Company on that date divided by the total number of Preferred Shares then outstanding. Notice of redemption will be given to CDS Participants holding Preferred Shares on behalf of the beneficial owners thereof at least 30 days prior to the Maturity Date.

7.1.2 Class A Shares

All Class A Shares outstanding on the Maturity Date will be redeemed by the Company on such date. The redemption price payable by the Company for a Class A Share on that date will be equal to the greater of (i) the NAV per Unit on that date minus the sum of \$10.00 plus any accrued and unpaid Distributions on the Preferred Shares, and (ii) nil. Notice of redemption will be given to CDS Participants holding Class A Shares on behalf of the beneficial owners thereof at least 30 days prior to the Maturity Date.

7.2 Retraction Privileges

7.2.1 Preferred Shares

Monthly

Preferred Shares may be surrendered at any time for retraction to TSX Trust Company, the Company's registrar and transfer agent, but will be retracted only on the monthly Retraction Date. Preferred Shares surrendered for retraction by a Shareholder at least ten business days prior to the Retraction Date will be retracted on such Retraction Date and the Shareholder will be paid on the Retraction Payment Date.

Holders of Preferred Shares whose Preferred Shares are surrendered for retraction will be entitled to receive a retraction price per Preferred Share equal to 96% of the lesser of (i) the NAV per Unit determined as of such Retraction Date less the cost to the Company of the purchase of a Class A Share for cancellation; and (ii) \$10.00. For this purpose, the cost of the purchase of a Class A Share will include the purchase price of the Class A Share, and commission and such other costs, if any, related to the liquidation of any portion of the Portfolio to fund the purchase of the Class A Share. Any declared and unpaid Distributions payable on or before a Retraction Date in respect of Preferred Shares tendered for retraction on such Retraction Date will also be paid on the Retraction Payment Date.

Annual Concurrent

In addition to the above, a holder of Preferred Shares may concurrently retract an equal number of Class A Shares and Preferred Shares on the Annual Retraction Date of each year at a retraction price per Unit equal to the NAV per Unit on that date, less any costs associated with the retraction, including commissions and other such costs if any, related to the liquidation of any portion of the Portfolio required to fund such retraction. The Class A Shares and Preferred Shares must both be surrendered for retraction at least 10 business days prior to the Annual Retraction Date. Payment of the proceeds of retraction will

be made on or before the tenth business day of the following month, subject to the Manager's right to suspend retractions in certain circumstances.

Non-Concurrent Retraction Right

Upon the announcement of each extension of the Maturity Date, holders of Preferred Shares will be entitled to retract their Preferred Shares pursuant to a non-concurrent retraction right and the Company will provide at least 60 days notice to Preferred Shareholders. Preferred Shareholders will receive the same amount per Preferred Share that would have applied had the Company redeemed all of the Preferred Shares on the Maturity Date as scheduled prior to the extension. Preferred Shares must be surrendered for retraction by 5:00 p.m. (Toronto time) on the last business day of the month prior to the Maturity Date in the year in which there is an extension of the term of the Preferred Shares. Preferred Shareholders will receive payment for Preferred Shares so retracted no later than the tenth business day of the following month.

If more Class A Shares than Preferred Shares have been redeemed pursuant to the non-concurrent retraction right, the Company will be authorized to redeem Preferred Shares on a *pro rata* basis in a number to be determined by the Company reflecting the extent to which the number of Preferred Shares outstanding following the non-concurrent retraction exceeds the number of Class A Shares outstanding following the non-concurrent retraction. Conversely, if more Preferred Shares than Class A Shares have been redeemed pursuant to the non-concurrent retraction right, the Company may issue Preferred Shares to the extent that the number of Class A Shares outstanding following the non-concurrent retraction exceeds the number of Preferred Shares outstanding following the non-concurrent retraction.

Resale of Preferred Shares Tendered for Retraction

The Company may enter into a recirculation agreement (a "Recirculation Agreement") with a recirculation agent (a "Recirculation Agent") whereby the Recirculation Agent will use commercially reasonable efforts to find purchasers for any Preferred Shares tendered for retraction prior to the relevant Valuation Date. The Company may, but is not obligated to, require the Recirculation Agent to seek such purchasers and, in such event, the amount to be paid to the holder of Preferred Shares on the applicable Retraction Payment Date will be an amount equal to the proceeds of the sale of the Preferred Shares less any applicable commission, provided that such amount will not be less than the retraction price that would otherwise be payable to the holder of such Preferred Shares.

General

Any and all Preferred Shares which have been surrendered to the Company for retraction are deemed to be outstanding until (but not after) the close of business on the relevant Retraction Date, unless the retraction price is not paid on the Retraction Payment Date, in which event such Preferred Shares will remain outstanding.

The retraction right must be exercised by causing written notice to be given within the notice periods prescribed. Such surrender will be irrevocable upon the delivery of notice to CDS through a CDS Participant, except with respect to those Preferred Shares which are not retracted by the Company on the relevant Retraction Payment Date. The Company may, in its discretion, permit the withdrawal of any Preferred Share retraction request at any time prior to the Retraction Payment Date.

Any Retraction Notice which CDS determines to be incomplete, not in proper form, not duly executed or not received by the appropriate deadline outlined above shall for all purposes be void and of no effect and the retraction privilege to which it relates shall be considered for all purposes not to have been exercised thereby. A failure by a CDS Participant to exercise retraction privileges or to give effect to the settlement

thereof in accordance with the Shareholder's instructions will not give rise to any obligations or liability on the part of the Company or the Manager to the CDS Participant or to the Shareholder.

7.2.2 Class A Shares

Monthly

Class A Shares may be surrendered at any time for retraction to TSX Trust Company, the Company's registrar and transfer agent, but will be retracted only on the monthly Retraction Date. Class A Shares surrendered for retraction by a Shareholder at least ten business days prior to the monthly Retraction Date will be retracted on such Retraction Date and the Shareholder will be paid on or before the Retraction Payment Date.

Holders of Class A Shares whose Class A Shares are surrendered for retraction will be entitled to receive a retraction price per Class A Share equal to 96% of the difference between (i) the NAV per Unit determined as of such Retraction Date, and (ii) the cost to the Company of the purchase of a Preferred Share for cancellation. For this purpose, the cost of the purchase of a Preferred Share will include the purchase price of the Preferred Share, commission and such other costs, if any, related to the liquidation of any portion of the Portfolio to fund the purchase of the Preferred Share. Any declared and unpaid Distributions payable on or before a Retraction Date in respect of Class A Shares tendered for retraction on such Retraction Date will also be paid on the Retraction Payment Date.

Annual Concurrent

In addition to the above, a holder of Class A Shares may concurrently retract an equal number of Class A Shares and Preferred Shares on the Annual Retraction Date of each year at a retraction price per Unit equal to the NAV per Unit on that date, less any costs associated with the retraction, including commissions and other such costs, if any, related to the liquidation of any portion of the Portfolio required to fund such retraction. The Class A Shares and the Preferred Shares must both be surrendered at least 10 business days prior to the Annual Retraction Date. Payment of the proceeds will be made on or before the tenth business day of the following month subject to the Manager's right to suspend retractions in certain circumstances.

Non-Concurrent Retraction Right

Upon the announcement of each extension of the Maturity Date, holders of Class A Shares will be entitled to retract their Class A Shares pursuant to a non-concurrent retraction right and the Company will provide at least 60 days notice to Class A Shareholders. Class A Shareholders will receive the same amount per Class A Share that would have applied had the Company redeemed all of the Class A Shares on the Maturity Date as scheduled prior to the extension. Class A Shares must be surrendered for retraction by 5:00 p.m. (Toronto time) on the last business day of the month prior to the Maturity Date in the year in which there is an extension of the term of the Class A Shares. Class A Shareholders will receive payment for Class A Shares so retracted no later than the tenth business day of the following month.

If more Preferred Shares than Class A Shares have been redeemed pursuant to the non-concurrent retraction right, the Company will be authorized to redeem Class A Shares on a *pro rata* basis in a number to be determined by the Company reflecting the extent to which the number of Class A Shares outstanding following the non-concurrent retraction exceeds the number of Preferred Shares outstanding following the non-concurrent retraction. Conversely, if more Class A Shares than Preferred Shares have been redeemed pursuant to the non-concurrent retraction right, the Company may issue Class A Shares to the extent the number of Preferred Shares outstanding following the non-concurrent retraction exceeds the number of Class A Shares outstanding following the non-concurrent retraction.

Resale of Class A Shares Tendered for Retraction

The Company may enter into a Recirculation Agreement with a Recirculation Agent whereby the Recirculation Agent will use commercially reasonable efforts to find purchasers for any Class A Shares tendered for retraction prior to the relevant Valuation Date. The Company may, but is not obligated to, require the Recirculation Agent to seek such purchasers and, in such event, the amount to be paid to the holder of Class A Shares on the applicable Retraction Payment Date will be an amount equal to the proceeds of the sale of the Class A Shares less any applicable commission, provided that such amount will not be less than the retraction price that would otherwise be payable to the holder of such Class A Shares.

Non-Matched Shares

The Company may redeem the Class A Shares on a pro rata basis in the event that there is an unequal number of Class A Shares and Preferred Shares in order to reduce the number of Class A Shares issued and outstanding to equal the number of Preferred Shares issued and outstanding (a “Class A Special Redemption”). The redemption price payable by the Company for a Class A Share in respect of a Class A Special Redemption will be equal to the greater of (i) the NAV per Unit on such date minus the sum of \$10.00 plus any accrued and unpaid distributions on a Preferred Share, and (ii) nil.

General

Any and all Class A Shares that have been surrendered to the Company for retraction are deemed to be outstanding until (but not after) the close of business on the relevant Retraction Date, unless the retraction price is not paid on the Retraction Payment Date, in which event such Class A Shares will remain outstanding.

The retraction right must be exercised by causing written notice to be given within the notice periods. Such surrender will be irrevocable upon the delivery of notice to CDS through a CDS Participant, except with respect to those Class A Shares which are not retracted by the Company on the relevant Retraction Payment Date. The Company may, in its discretion, permit the withdrawal of any Class A Share retraction request at any time prior to the Retraction Payment Date.

Any Retraction Notice which CDS determines to be incomplete, not in proper form, not duly executed or not received by the appropriate deadline outlined above shall for all purposes be void and of no effect and the retraction privilege to which it relates shall be considered for all purposes not to have been exercised thereby. A failure by a CDS Participant to exercise retraction privileges or to give effect to the settlement thereof in accordance with the Shareholder’s instructions will not give rise to any obligations or liability on the part of the Company or the Manager to the CDS Participant or to the Shareholder.

7.3 Book-Entry Only System

An owner of Class A Shares and Preferred Shares who desires to exercise retraction privileges thereunder must do so by causing a CDS Participant to deliver to CDS (at its office in the City of Toronto) on behalf of the owner a written notice of the owner’s intention to retract such Shares, no later than 5:00 p.m. (Toronto time) on the relevant notice date. An owner who desires to retract Class A Shares or Preferred Shares should ensure that the CDS Participant is provided with a Retraction Notice sufficiently in advance of the relevant notice date so as to permit the CDS Participant to deliver notice to CDS by the required time. Any expenses associated with the preparation and delivery of Retraction Notices will be for the account of the owner exercising the retraction privilege.

By causing a CDS Participant to deliver to CDS a notice of the owner’s intention to retract Class A Shares or Preferred Shares, an owner shall be deemed to have irrevocably surrendered such Shares for

retraction and appointed such CDS Participant to act as his exclusive settlement agent with respect to the exercise of the retraction privilege and the receipt of payment in connection with the settlement of obligations arising from such exercise.

7.4 Suspension of Redemptions and Retractions

The Company or the Manager may suspend the redemption and/or retraction of Class A Shares or Preferred Shares or payment of redemption or retraction proceeds (i) during any period when normal trading in securities owned by the Company is suspended on the TSX and if those securities are not traded on any other exchange that represents a reasonably practical alternative for the Company to execute trades in such securities, or (ii) subject to security regulatory approval, for any period not exceeding 120 days during which the Company or Manager determines that conditions exist which render impractical the sale of assets of the Company or which impair the ability of the Company to determine the value of its assets. The suspension may apply to all requests for retraction received prior to the suspension but as to which payment has not been made, as well as to all requests received while the suspension is in effect. All holders of Class A Shares and Preferred Shares making such requests shall be advised by the Manager of the suspension and that the retraction will be effected at a price determined on the first Retraction Date following the termination of the suspension. All such Shareholders shall have and shall be advised that they have the right to withdraw their requests for retraction. The suspension shall terminate in any event on the first day on which the condition giving rise to the suspension has ceased to exist provided that no other condition under which a suspension is authorized then exists. To the extent not inconsistent with official rules and regulations promulgated by any government body having jurisdiction over the Company, any declaration of suspension made by the Company or the Manager shall be conclusive.

8.0 RESPONSIBILITY FOR OPERATIONS

8.1 Management of the Company and the Manager

The name, municipality of residence, position with the Company and the Manager and principal occupation of each of the directors and officers of the Company and the Manager are set out below:

| Name and Municipality of Residence and Position with the Company and the Manager | Principal Occupation and Positions Held During the Last 5 Years |
|--|---|
| MARK A. CARANCI ⁽¹⁾⁽²⁾ Toronto, Ontario President, Chief Executive Officer and Director | President, Chief Executive Officer and Director, Brompton Funds. |
| RAYMOND R. PETHER ⁽¹⁾ Toronto, Ontario Director | Director, Brompton Funds. |
| CRAIG T. KIKUCHI ⁽²⁾ Toronto, Ontario Chief Financial Officer and Director | Chief Financial Officer and Chief Compliance Officer, Brompton Funds; Director, Brompton Funds Limited. |
| CHRISTOPHER S.L. HOFFMANN ⁽¹⁾ Toronto, Ontario Director | Director, Brompton Funds; Vice President, Nutowima Ltd. and private investor. |

| Name and Municipality of Residence and Position with the Company and the Manager | Principal Occupation and Positions Held During the Last 5 Years |
|--|---|
|--|---|

| | |
|---|--|
| ANN WONG Toronto, Ontario Vice President and Controller | Vice President and Controller, Brompton Funds. |
| CHRISTOPHER CULLEN Toronto, Ontario Senior Vice President | Senior Vice President, Brompton Funds. |
| LAURA LAU Toronto, Ontario Senior Vice President and Senior Portfolio Manager | Senior Vice President and Chief Investment Officer, Brompton Funds since February 2020; Senior Vice President and Senior Portfolio Manager, Brompton Funds from February 2012 to February 2020. |
| MICHAEL CLARE Toronto, Ontario Vice President and Portfolio Manager | Vice President & Portfolio Manager, Brompton Funds. |
| MICHELLE TIRABORELLI Toronto, Ontario Vice President | Senior Vice President, Brompton Funds since February 2020; Vice President, Brompton Funds from February 2011 to February 2020. |
| KATHRYN BANNER Toronto, Ontario Vice President and Corporate Secretary | Vice President and Corporate Secretary, Brompton Funds. |
| STEPHEN ALLEN Toronto, Ontario Senior Vice President | Senior Vice President, Brompton Funds since October 2019; Executive Vice President, Evolve Funds Group Inc. from June 2017 to September 2019; Managing Director, Onex Credit Partners from April 2012 to April 2017. |

Note:

(1) Member of the audit committee.

(2) Executive Officer.

8.2 Manager

Brompton Funds Limited was formed pursuant to the *Business Corporations Act* (Ontario) by articles of incorporation dated May 17, 2011. Brompton Funds Limited performs management and administrative services for the Company pursuant to the Management Agreement. Its head office is at Suite 2930, Bay Wellington Tower, Brookfield Place, 181 Bay Street, Toronto, Ontario M5J 2T3. Its telephone number is (416) 642-6000, its e-mail address is info@bromptongroup.com and its website address is www.bromptongroup.com. The Manager was organized for the purpose of managing and administering closed-end investments including the Company and is a member of the Brompton group of companies. The Manager is registered with the Ontario Securities Commission as a portfolio manager, investment fund manager, commodity trading manager and exempt market dealer and is also registered as an investment fund manager in Quebec and Newfoundland and Labrador.

Pursuant to the Management Agreement, the Manager is responsible for providing, or causing to be provided, management and administrative services and facilities to the Company, and may delegate certain of its powers to third parties at no additional cost to the Company where, in the discretion of the Manager, it would be in the best interests of the Company and the Shareholders to do so.

8.2.1 Directors and Officers of the Manager

The name, municipality of residence, position with the Manager and principal occupation of the directors and officers are set out in section 8.1 of this Annual Information Form.

8.2.2 Independent Review Committee

The members of the Company's IRC are Patricia Meredith, Arthur R.A. Scace and Ken S. Woolner. Mr. Woolner is the Chair of the IRC and is the primary IRC member who interacts with the Manager.

The mandate and responsibilities of the IRC are set out in its charter. The IRC is responsible for carrying out those responsibilities required to be undertaken by an IRC under NI 81-107, in particular:

- a) reviewing and providing input into the Manager's policies and procedures regarding conflict of interest matters, including any amendments to such policies and procedures referred to the IRC by the Manager;
- b) approving or disapproving each conflict of interest matter referred by the Manager to the IRC for its approval;
- c) providing its recommendation as to whether the Manager's proposed action on a conflict of interest matter referred by the Manager to the IRC for its recommendation achieves a fair and reasonable result for the Company;
- d) together with the Manager, providing orientation to new members of the IRC as required by NI 81-107;
- e) conducting regular assessments as required by NI 81-107; and
- f) reporting to the securityholders of the Company, to the Manager and to regulators as required by NI 81-107.

In addition to its responsibilities and functions under NI 81-107, the IRC:

- a) handles complaints and implements corrective action regarding accounting, internal accounting controls, auditing matters for the Company and the Manager, as more specifically set out in the whistleblower policy of the Company and the Manager, respectively; and
- b) may, as more specifically set out in its charter, identify conflict of interest matters.

Note:

The members of the IRC also act as the members of the independent review committee for other investment funds managed by the Manager.

8.2.3 Management Fee

The Manager receives an annual Management Fee equal to 0.55% per annum of Net Asset Value, calculated and payable monthly in arrears, plus any applicable taxes. The Company also reimburses the Manager for all reasonable costs and expenses incurred by the Manager on behalf of the Company.

8.2.4 Termination of the Management Agreement

The Management Agreement may be terminated at any time by the Company on 90 days written notice and the approval of the holders of the Class A Shares and the Preferred Shares each voting separately as a class by an Ordinary Resolution passed at a duly convened meeting of the Shareholders called for the

purpose of considering such Ordinary Resolution provided that the Shareholders holding at least 10% of the Class A Shares and Preferred Shares outstanding on the record date of the meeting vote in favour of such Ordinary Resolution. The Management Agreement may also be terminated by the Company:

- a) at any time on 30 days written notice to the Manager in the event of the persistent failure of the Manager to perform its duties and discharge its obligations under the Management Agreement, or the continuing malfeasance or misfeasance of the Manager in the performance of its duties under the Management Agreement;
- b) immediately in the event of the commission by the Manager of any fraudulent act; and
- c) automatically if the Manager becomes bankrupt, insolvent or makes a general assignment for the benefit of its creditors.

In addition, the Manager may resign upon 120 days notice by the Manager to the Company. The Manager may, upon notice to the Company, delegate certain of its powers to third parties at no additional cost to the Company where, in the discretion of the Manager, it would be in the best interests of the Company and the Shareholders to do so provided that the delegation shall not relieve the Manager of any of its obligations under the Management Agreement.

8.3 Portfolio Management

The Manager is responsible for the portfolio management of the Company including writing call options and put options in accordance with the Investment Objectives, Investment Guidelines and subject to the Investment Restrictions of the Company. The principal portfolio managers who are responsible for the investment management of the Company are as follows:

| Name | Length of Service and Experience in the Past 5 Years |
|---|--|
| LAURA LAU Toronto, Ontario Senior Vice President & Senior Portfolio Manager | Ms. Lau joined Brompton in February 2012 and has over 26 years experience in the financial industry. She has had over 15 years experience as a portfolio manager and in the trading and management of derivatives. |
| MICHAEL CLARE Toronto, Ontario Vice President & Senior Portfolio Manager | Mr. Clare joined Brompton in December 2012 and has more than 10 years experience as a portfolio manager and assists Ms. Lau with research including with respect to the option writing strategy of the Company. |

Ms. Lau oversees the portfolio rebalancing and option overlay strategies. Investment decisions are not subject to the oversight, approval or ratification of a committee.

8.4 Custodian

Pursuant to the Custodial Services Agreement, the Custodian, located in Toronto, Ontario, is responsible for certain aspects of the day-to-day administration of the Company and provides safekeeping and custodial services in respect of the Company's assets.

The Custodian may, in accordance with the terms of the Custodial Services Agreement, appoint sub-custodians and enter in sub-custodian agreements.

8.4.1 Custodian Fees

In consideration for its services, the Company pays to the Custodian such compensation as agreed upon in writing between the Company and the Custodian from time to time and reimburses the Custodian for all expenses and liabilities incurred by the Custodian on behalf of the Company.

8.4.2 Termination of the Custodial Services Agreement

The Company or the Custodian may terminate the Custodial Services Agreement: (a) upon at least 90 days' written notice to the other party, or (b) immediately, if the other party becomes insolvent, or makes an assignment for the benefit of creditors, or a petition in bankruptcy is filed by or against that party and is not discharged within 30 days, or proceedings for the appointment of a receiver for that party are commenced and not discontinued within 30 days.

8.5 Valuation Services

The Company has appointed CIBC Mellon Global Securities Services Company, located in Toronto, Ontario, to provide the Company with valuation services. Such services include the calculation of the Company's Net Asset Value per Unit, calculated in accordance with the Company's valuation parameters set out in section 4.0 of this Annual Information Form.

8.6 Auditors, Registrar and Transfer Agent

The auditors of the Company are PricewaterhouseCoopers LLP, Chartered Professional Accountants, Licenced Public Accountants ("PWC"), located in Toronto, Ontario. TSX Trust Company, at its principal offices in Toronto is the registrar and transfer agent for the Class A Shares and Preferred Shares. The Company at its head office in Toronto acts as the registrar and transfer agent for the Class J Shares.

8.7 Securities Lending Agent

The Company has appointed Canadian Imperial Bank of Commerce ("CIBC") located in Toronto, Ontario and The Bank of New York Mellon ("BNY") as securities lending agents (the "Agents"), pursuant to a securities lending authorization (the "Securities Lending Agreement") dated as of September 15, 2016, among the company, CIBC Mellon Global Securities Company ("GSS"), CIBC Mellon Trust Company ("CMT") and the Agents to provide securities lending services relating to the Portfolio.

9.0 CONFLICTS OF INTEREST

9.1 Principal Holders of Securities

Notes:

100 or 100% of the issued and outstanding Class J shares of the Company are owned by Brompton Split Banc Trust as described in section 3.1 of this Annual Information Form.

Brompton Corp. owns of record and beneficially 100% of the shares of the Manager.

The Manager and its directors and officers engage in the promotion, management or investment management of other funds or trusts with similar investment objectives as the Company. The Manager acts as the investment advisor or administrator for other entities and may in the future act as the investment advisor to other entities which are considered competitors of the Company. The services of the Manager are not exclusive to the Company.

In addition, the directors and officers of the Manager may be directors, officers, shareholders or unitholders of one or more issuers in which the Company may acquire securities. The Manager or its affiliates may be a manager or advisor of one or more issuers in which the Company may acquire securities and may be managers or administrators of funds that invest in the same securities as the Company. Although none of the directors or officers of the Manager will devote his or her full time to the business and affairs of the Company, each director and officer of the Manager will devote as much time as is necessary to supervise the management of (in the case of the directors) or to manage the business and affairs of (in the case of officers) the Company, the Manager, as applicable.

No person or entity that provides services to the Company or the Manager in relation to the Company is an affiliated entity of the Manager other than Brompton Corp., which provides premises and staff to the Manager. Brompton Corp. does not receive any fees from the Company. Each of the directors and officers of the Manager and the Company are also directors and officers of Brompton Corp., see section 8.1 of this Annual Information Form.

9.2 Securities Held by Members of the Independent Review Committee

As at March 1, 2020, the members of the IRC did not own, directly or indirectly, any securities of the Manager. Further, as at March 1, 2020, the percentage of securities of each class or series of voting or equity securities beneficially owned, directly or indirectly, in aggregate, by all members of the IRC in any person or company that provides material services to the Company or Manager or in any one or more Canadian chartered bank which provides a loan facility or other credit to the Company or Manager is less than 1%.

10.0 CORPORATE GOVERNANCE

Brompton supports good governance practices for its funds. The Company has its own board of directors and audit committee (the “Audit Committee”) which are responsible for the overall stewardship of the business and affairs of the Company. The board of directors consists of 4 directors, 2 of whom are independent of management. Details regarding the names, principal occupations and committee memberships of the board of directors are set out in section 8.1 of this Annual Information Form. The board of directors believes that the number of directors is appropriate.

Certain board of directors’ members are also members of the Audit Committee. The Audit Committee consists of 3 members, 2 of whom are independent of management. The responsibilities of the Audit Committee include, but are not limited to, review of the Company’s financial statements and the annual audit performed by PWC, the auditor of the Company; oversight of internal controls and of the Company’s compliance with tax laws and regulations. PWC reports to the Audit Committee and the Audit Committee and PWC have direct communication channels to discuss and review specific issues as appropriate.

The board of directors is responsible for developing the Company’s approach to governance issues. To ensure the proper management of the Company and compliance with regulatory requirements, the board of directors has adopted policies, procedures and guidelines relating to business practices, risk management control, and internal conflicts of interest. As part of managing its business practices, the board of directors has adopted a whistleblower policy, a privacy policy and a proxy voting policy. The whistleblower policy establishes a procedure for the receipt, retention and treatment of complaints

regarding accounting, internal accounting controls and auditing matters pertaining to the Company. The privacy policy dictates the manner in which the Company and the Manager may collect, use and disclose personal information regarding the Shareholders. The proxy voting policy is described in section 10.2 of this Annual Information Form. As part of its risk management, the board of directors has adopted a disclosure policy. The disclosure policy sets out guidelines that aim to ensure that complete, accurate and balanced information is disclosed to the public in a timely, orderly and broad-based manner in accordance with securities laws and regulations. As part of managing potential internal conflicts of interest, the board of directors has adopted a code of business ethics and an insider trading policy. The code of business ethics and insider trading policy address, among other things, ethical business practices and handling of material information and purchasing or selling of securities by insiders.

NI 81-107 requires the Manager to have policies and procedures relating to conflicts of interest and the Manager has such policies and procedures in place.

In accordance with NI 81-107, the Manager has appointed the IRC to deal with potential conflict of interest matters between the Manager and the Company as described in section 8.2.2 of this Annual Information Form.

The Manager maintains a website for the Company at www.bromptongroup.com. The mandate of the board of directors is available on the website. The Manager has an investor relations line to respond to inquiries from Shareholders which is 1-866-642-6001.

10.1 Composition of the Independent Review Committee

As indicated in section 8.2.2 of this Annual Information Form, the IRC is comprised of three members, who were appointed by the Manager in accordance with NI 81-107. Subsequent to this initial appointment by the Manager, the IRC shall, taking into consideration any recommendation of the Manager, fill vacancies on the IRC, provided that if for any reasons the IRC has no members, the Manager shall fill the vacancies.

10.2 Proxy Voting Policy

The Manager has the responsibility to exercise the voting rights attached to the securities held by the Company. It is the Manager's policy to seek to ensure that proxies for securities held by the Company are voted consistently and in the best interests of the Company.

The Company, through the Manager, has engaged the services of Institutional Shareholder Services ("ISS") to vote the proxies related to the securities held by the Company in accordance with ISS' 2020 Canadian Proxy Voting Guidelines for TSX-listed Companies (the "Policy").

In the case of routine matters, which include ratification of auditors, the Policy generally allows for voting in favour of management's recommendation unless non-audit related fees paid to the auditor exceed audit-related fees. The Policy outlines the fundamental principles applied when determining votes on director nominees and generally withholds votes from all directors nominated by slate ballot.

In respect of non-routine matters including confidential voting, shareholder rights plans, mergers and corporate restructurings, capital restructuring, increases in authorized capital, executive compensation and equity compensation plans, matters are dealt with on a case-by-case basis with the best interests of the Shareholders in mind at all times.

In the event that a vote presents a conflict of interest between the interests of the Shareholders and those of the Manager or any affiliate or associate thereof, the vote will be referred to the IRC.

The Policy that the Company follows when voting proxies relating to portfolio securities are available on request, at no cost, by calling 1-866-642-6001 or by writing to the Manager at Suite 2930, Box 793, Bay Wellington Tower, Brookfield Place, 181 Bay Street, Toronto, ON M5J 2T3.

The Company's voting record for the most recent period ended June 30 of each year is available free of charge to any Shareholder of the Company upon request at any time after August 31 of that year. The Company has made its proxy voting record available on its website at www.bromptongroup.com.

10.3 Covered Call Option Writing

The Company intends to sell call options from time to time in respect of some or all of the common shares held in the Portfolio. Such call options may be either exchange-traded options or over-the-counter options. Since call options will be written only in respect of common shares that are in the Portfolio and the Investment Restrictions of the Company prohibit the sale of securities subject to an outstanding option, the call options will be covered call options at all times.

The holder of a call option purchased from the Company will have the option, exercisable during a specific time period or at expiry, to purchase the securities underlying the option from the Company at the strike price per security. By selling call options, the Company receives option premiums, which are generally paid within one business day of the writing of the option. If at any time during the term of a call option or at expiry the market price of the underlying securities is above the strike price, the holder of the option may exercise the option and the Company will be obligated to sell the securities to the holder at the strike price per security. Alternatively, the Company may repurchase a call option it has written that is in-the-money by paying the market value of the call option. If, however, the option is out-of-the-money at expiration of the call option, the holder of the option will likely not exercise the option, the option will expire and the Company will retain the underlying security. In each case, the Company retains the option premium.

The amount of option premium depends upon, among other factors, the volatility of the price of the underlying security: generally, the higher the volatility, the higher the option premium. In addition, the amount of the option premium depends upon the difference between the strike price of the option and the market price of the underlying security at the time the option is written. The smaller the positive difference (or the larger the negative difference), the more likely it is that the option will become in-the-money during the term and, accordingly, the greater the option premium.

When a call option is written on a security in the Portfolio, the amounts that the Company is able to realize on the security during the term of the call option is limited to the dividends received prior to the exercise of the call option during such period plus an amount equal to the sum of the strike price and the premium received from writing the option. In essence, the Company foregoes potential returns resulting from any price appreciation of the security underlying the option above the strike price in favour of the certainty of receiving the option premium.

10.4 Call Option Pricing

Many investors and financial market professionals price call options based on the Black-Scholes Model. In practice, however, actual option premiums are determined in the marketplace and there can be no assurance that the values generated by the Black-Scholes Model can be attained in the market.

Under the Black-Scholes Model (modified to include distributions), the primary factors that affect the option premium received by the seller of a call option are the following:

| Factor | Description |
|--|---|
| <i>Price volatility of the underlying security</i> | The volatility of the price of a security measures the tendency of the price of the security to vary during a specified period. The higher the price volatility, the more likely that the price of that security will fluctuate (either positively or negatively) and the greater the option premium. Price volatility is generally measured in percentage terms on an annualized basis, based on price changes during a period of time immediately prior to or trailing the date of calculation. |
| <i>The difference between the strike price and the market price of the underlying security at the time the option is written</i> | The smaller the positive difference (or the larger the negative difference), the greater the option premium. |
| <i>The term of the option</i> | The longer the term, the greater the call option premium. |
| <i>The “risk-free” or benchmark interest rate in the market in which the option is issued</i> | The higher the risk-free interest rate, the greater the call option premium. |
| <i>The distributions expected to be paid on the underlying security during the relevant term</i> | The greater the distributions, the lower the call option premium. |

10.5 Utilization of Cash Equivalents

The Company may, from time to time, hold a portion of its assets in cash equivalents. The Company may also, from time to time, utilize such cash equivalents to provide cover in respect of the writing of cash covered put options, which is intended to generate additional returns and to reduce the net cost of acquiring the securities subject to the put options and for working capital purposes. Such cash covered put options are only written in respect of securities in which the Company is permitted to invest.

The holder of a put option purchased from the Company has the option, exercisable during a specific time period or at expiry, to sell the securities underlying the option to the Company at the strike price per security. By selling put options, the Company receives option premiums, which are generally paid within one business day of the writing of the option. The Company, however, must maintain cash equivalents in an amount at least equal to the aggregate strike price of all securities underlying the outstanding put options that it has written. If at any time during the term of a put option or at expiry the market price of the underlying securities is below the strike price, the holder of the option may exercise the option and the Company will be obligated to buy the securities from the holder at the strike price per security. In such case, the Company will be obligated to acquire a security at a strike price, which may exceed the then current market value of such security. If, however, the option is out-of-the-money at the expiration of the put option, the holder of the option will likely not exercise the option and the option will expire. In each case, the Company retains the option premium.

10.6 Use of Other Derivative Instruments

In addition to writing covered call options and cash covered put options, to the extent permitted by Canadian securities regulators from time to time, the Company may also purchase call options and put options with the effect of closing out existing call options and put options written by the Company. The Company may also purchase put options in order to protect the Company from declines in the market prices of the individual securities in the Portfolio or in the value of the Portfolio as a whole. The Company may enter into trades to close out positions in such permitted derivatives.

10.7 Use of Derivative Instruments – General

The objectives and goals for derivatives are governed by the prospectus of the Company. In addition, the Manager has written policies and procedures which have been approved by the board of directors that outline risk management for derivatives which are reviewed annually. The Manager monitors the use of derivatives on a regular basis. Covered call overlay strategies have a maximum allowable option exposure of 100% of the notional value of the underlying portfolio. The Manager has procedures in place to ensure that this limit is not breached. Considering the parameters set out in NI 81-102, along with the Manager's policies and procedures relating to derivatives risk management, no stress testing is conducted specifically with respect to positions maintained by the Company.

10.8 Securities Lending

In order to generate additional returns, the Company has entered into the Securities Lending Agreement with the Agents to administer any securities lending transaction for the Company.

The Manager manages the risks associated with securities lending by requiring the Agents, pursuant to the Securities Lending Agreement, to:

- a) Enter into securities lending, repurchase or reverse purchase transactions with reputable and well-established Canadian and foreign brokers, dealers and institutions (“counterparties”);
- b) Maintain internal controls, procedures and records including a list of approved counterparties based on generally accepted creditworthiness standards, transaction and credit limits for each counterparty and collateral diversification standards;
- c) Establish daily the market value of both the securities loaned by the Company under a securities lending transaction or sold by the Company under a repurchase transaction and the cash or collateral held by the Company. If on any day the market value of the cash or collateral is less than 102% of the market value of the borrowed or sold securities, the Agents will request that the counterparty provide additional cash or collateral to the Company to make up the shortfall;
- d) Ensure that no more than 50% of the Net Asset Value of the Company are out on loan at one time;
- e) Ensure that the collateral to be delivered to the Company is one or more of cash, qualified securities or securities immediately convertible into, or exchangeable for, securities of the same issuer, class or type, and same term, if applicable, as the securities being loaned by the Company; and
- f) Obtain mutual indemnification from GSS, CMT and the Agents in respect of all losses, damages, liabilities, costs or expenses (including reasonable counsel fees and expenses but excluding consequential damages) arising from:
 - i. The failure to perform any obligations under the Securities Lending Agreement;
 - ii. Any inaccuracy of any representation or warranty made in the Securities Lending Agreement; or
 - iii. Fraud, bad faith, willful misconduct or reckless disregard of duties.

Each lending transaction may be terminated by the Company at any time and the loaned securities recalled within the normal and customary settlement period for such transactions and the Securities Lending Agreement may be terminated at any time at the option of either the Company or the Agents (i)

upon 30 days prior notice to the other parties or (ii) immediately upon notice to all other parties in the event of a material breach by any party.

The Manager has written procedures that set out the objectives, goals and risk management practices with respect to securities lending arrangements which are reviewed annually by the board. The Securities Lending Agreement was approved by the board and securities lending arrangements and risks are monitored by the Manager. Considering the parameters set out in NI 81-102, along with the Manager's policies and procedures relating to securities lending, no stress testing is conducted specifically with respect to positions maintained by the Company.

With respect to collateral, by the close of the business day on which loaned securities are delivered to a borrower, the Agents shall obtain from such borrower one or more types of collateral as outlined below in an amount equal, as of such day, to 105% or such other percentage as reflects the best market practices in the market in which the securities are being lent but shall never be less than 102% of the market value of the loans, including any accrued interest.

The indemnification provisions in the Securities Lending Agreement survive its termination.

10.9 Short-Term Trading

The Company's Shares are traded on the TSX. The Company does not have policies and procedures in place to monitor, detect and deter short-term trading given that:

- a) Shareholders are only permitted to redeem Shares on a monthly or annual basis;
- b) monthly retractions are at a discount to NAV. Class A Shares retracted on a monthly Retraction Date receive a retraction price per Class A Share equal to 96% of the difference between the NAV per Unit and the cost to the Company of the purchase of a Preferred Share for cancellation. Preferred Shares retracted on a monthly Retraction Date receive retraction price per Preferred Share equal to the lesser of 96% of the NAV per Unit less the cost to the Company of the purchase of a Class A Share for cancellation and \$10.00;
- c) the concurrent annual retraction is at 100% of NAV per Unit less any costs associated with the retraction;
- d) the NAV per Unit for the purpose of a monthly or annual retraction is based on the value of the common shares included in the Portfolio being equal to the weighted average trading price of such shares over the last three business days of the relevant month; and
- e) retractions require more than 4 weeks to process from the date a holder notifies CDS of their retraction request to the date the retraction proceeds are paid out.

11.0 INCOME TAX CONSIDERATIONS

The following is a summary of the principal Canadian federal income tax considerations generally relevant to investors who, for purposes of the Income Tax Act and at all relevant times, are resident or are deemed to be resident in Canada, hold their Preferred Shares and their Class A Shares as capital property, and deal at arm's length with and are not affiliated with the Company.

This summary is based upon the current provisions of the Income Tax Act and the Company's understanding of the current published administrative policies and assessing practices of the CRA. This summary is based on the assumption that the Class A Shares and the Preferred Shares will at all times be listed on the TSX. This summary is based on the assumption that the Company was not established and

will not be maintained primarily for the benefit of non-residents of Canada and at no time will the total fair market value of the shares of the Company held by persons who are non-residents of Canada and/or partnerships (other than Canadian partnerships within the meaning of the Income Tax Act) exceed 50% of the fair market value of all of the outstanding shares of the Company. This summary is based upon the assumption that the Company will at all relevant times comply with its Investment Guidelines and Investment Restrictions. This summary is based on the assumption that the issuers of securities held by the Company will not be foreign affiliates of the Company or a shareholder of the Company. This summary also takes into account all specific proposals to amend the Income Tax Act announced prior to the date hereof by the Minister of Finance (Canada) (the “Proposed Amendments”) and assumes that all Proposed Amendments will be enacted in the form proposed. No assurances can be given that the Proposed Amendments will become law as proposed or at all.

This summary is not exhaustive of all possible Canadian federal income tax considerations and, in particular, does not describe income tax considerations relating to the deductibility of interest on money borrowed to acquire Class A Shares or Preferred Shares. This summary does not take into account or anticipate any changes in law, whether by legislative, governmental or judicial action, other than the Proposed Amendments. This summary does not deal with foreign, provincial or territorial income tax considerations, which might differ from the federal considerations. This summary does not apply (i) to a Shareholder that is a “financial institution” as defined in section 142.2 of the Income Tax Act, (ii) to a Shareholder an interest in which is a “tax shelter investment” as defined in subsection 143.2(1) of the Income Tax Act, (iii) to a Shareholder that is subject the “functional currency” reporting rules in section 261 of the Income Tax Act, or (iv) to a Shareholder who has entered into a “derivative forward agreement” as defined in Subsection 248(1) of the Tax Act with respect to Class A Shares or Preferred Shares.

This summary is of a general nature only and does not constitute legal or tax advice to any particular investor. Accordingly, Shareholders are advised to consult their own tax advisors with respect to their individual circumstances.

11.1 Tax Treatment of the Company

The Company currently qualifies and intends at all relevant times to qualify as a “mutual fund corporation” as defined in the Income Tax Act. The Company filed the necessary election under the Income Tax Act so that it was deemed to be a “public corporation”, and therefore qualified as a mutual fund corporation, throughout its first taxation year. As a mutual fund corporation, the Company is entitled in certain circumstances to a refund of tax paid or payable by it in respect of its net realized capital gains. Also, as a mutual fund corporation, the Company is entitled to maintain a capital gains dividend account in respect of its realized net capital gains and from which it may elect to pay dividends (“Capital Gains Dividends”) which are treated as capital gains in the hands of the Shareholders of the Company (see section 11.3 below). In certain circumstances where the Company has recognized a capital gain in a taxation year, it may elect not to pay Capital Gains Dividends in that taxation year in respect thereof and instead pay refundable capital gains tax, which may in the future be fully or partially refundable upon the payment of sufficient Capital Gains Dividends and/or qualifying redemptions.

In computing income for a taxation year, the Company will be required to include in income all dividends received by the Company in the year. In computing taxable income, the Company will generally be permitted to deduct all dividends received by it from taxable Canadian corporations. The Company will generally not be permitted a deduction in computing taxable income for dividends received by it from other corporations.

The Company has elected in accordance with the Income Tax Act to have each of its “Canadian securities” treated as capital property. Such an election will ensure that gains or losses realized by the Company on Canadian securities are treated as capital gains or capital losses.

The Company qualifies as a “financial intermediary corporation” (as defined in the Income Tax Act) and, thus, is not subject to tax under Part IV.1 of the Income Tax Act on dividends received by the Company and is not generally liable to tax under Part VI.1 of the Income Tax Act on dividends paid by the Company on “taxable preferred shares” (as defined in the Income Tax Act). As a mutual fund corporation (which is not an “investment corporation” as defined in the Income Tax Act), the Company is generally subject to a refundable tax of 38½% under Part IV of the Income Tax Act on taxable dividends received by the Company during the year to the extent that such dividends were deductible in computing the Company’s taxable income for the year. This tax is refundable upon payment by the Company of sufficient dividends other than Capital Gains Dividends (“Ordinary Dividends”).

Premiums received on covered call options and cash covered put options written by the Company that are not exercised prior to the end of the year will constitute capital gains of the Company in the year received, unless such premiums are received by the Company as income from a business of buying and selling securities or the Company has engaged in a transaction or transactions considered to be an adventure in the nature of trade. The Company purchases securities for the Portfolio with the objective of earning dividends thereon over the life of the Company, writes covered call options with the objective of increasing the yield on the Portfolio beyond the dividends received on the Portfolio and writes cash covered put options to increase returns and to reduce the net cost of purchasing securities upon the exercise of put options. Thus, having regard to the foregoing and in accordance with the CRA’s published administrative policies, transactions undertaken by the Company in respect of shares comprising the Portfolio and options on such shares are treated and reported by the Company as arising on capital account.

Premiums received by the Company on covered call (or cash covered put) options that are subsequently exercised will be added in computing the proceeds of disposition (or deducted in computing the adjusted cost base) to the Company of the securities disposed of (or acquired) by the Company upon the exercise of such call (or put) options. In addition, where the premium was in respect of an option granted in a previous year so that it constituted a capital gain of the Company in the previous year, such capital gain may be reversed.

11.2 Dividend Distributions

The policy of the Company is to pay quarterly Distributions on the Preferred Shares and monthly Distributions on the Class A Shares and, in addition, to pay a special year-end Distributions to holders of Class A Shares where the Company has net taxable capital gains upon which it would otherwise be subject to tax (other than taxable capital gains realized on the writing of options that are outstanding at year end) or where the Company needs to pay a Distribution in order to recover refundable tax not otherwise recoverable upon payment of monthly Distributions. While the principal sources of income of the Company are expected to include taxable capital gains as well as dividends from taxable Canadian corporations, to the extent that the Company earns net income, after expenses, from other sources, including dividends from non-Canadian sources and interest income upon interim investment of its reserves, the Company will be subject to income tax on such income and no refund of such tax will be available.

Given the investment and distribution policy of the Company and taking into account the deduction of expenses and taxable dividends on shares of taxable Canadian corporations, the Company does not expect to be subject to any appreciable amount of non-refundable Canadian income tax.

11.3 Tax Treatment of Shareholders

Shareholders of the Company must include in income Ordinary Dividends paid to them by the Company. For individual Shareholders, Ordinary Dividends will be subject to the gross-up and dividend tax credit rules normally applicable to taxable dividends paid by taxable Canadian corporations, including, if

applicable, the enhanced gross-up and credit for Ordinary Dividends designated by the Company as eligible dividends. For corporate Shareholders, other than “specified financial institutions” (as defined in the Income Tax Act), Ordinary Dividends will normally be deductible in computing the taxable income of the corporation.

In the case of a Shareholder that is a specified financial institution, Ordinary Dividends received on a particular class of shares will be deductible in computing its taxable income only if either (a) the specified financial institution did not acquire the shares in the ordinary course of its business; or (b) at the time of the receipt of the dividends by the specified financial institution the shares of that class are listed on a designated stock exchange in Canada, and dividends are received in respect of not more than 10% of the issued and outstanding shares of that class by (i) the specified financial institution, or (ii) the specified financial institution and persons with whom it does not deal at arm’s length (within the meaning of the Income Tax Act). For these purposes, a beneficiary of a trust will be deemed to receive the amount of any dividend received by the trust and designated to that beneficiary, effective at the time the dividend was received by the trust, and a member of a partnership will be considered to have received that partner’s share of a dividend received by the partnership, effective at the time the dividend was received by the partnership.

Ordinary Dividends received by a corporation (other than a “private corporation” or a “financial intermediary corporation”, as defined in the Income Tax Act) on Preferred Shares will generally be subject to a 10% tax under Part IV.1 of the Income Tax Act to the extent that such dividends are deductible in computing the corporation’s taxable income.

A Shareholder that is a private corporation or any other corporation controlled directly or indirectly by or for the benefit of an individual (other than a trust) or a related group of individuals (other than trusts) will generally be liable to pay a 38½% refundable tax under Part IV of the Income Tax Act on Ordinary Dividends received on the Shares to the extent that such dividends are deductible in computing the Shareholder’s taxable income. Where Part IV.1 tax also applies to an Ordinary Dividend received by a Shareholder, the rate of Part IV tax otherwise payable by the Shareholder is reduced by 10% of the amount of such Ordinary Dividend.

The amount of any Capital Gains Dividend received by a Shareholder from the Company will be considered to be a capital gain of the Shareholder from the disposition of capital property in the taxation year of the Shareholder in which the Capital Gains Dividend is received.

The amount of any payment received by a Shareholder from the Company as a return of capital on a Share will not be required to be included in computing income. Instead, such amount will reduce the adjusted cost base of the relevant Share to the Shareholder. To the extent that the adjusted cost base to the Shareholder would otherwise be a negative amount, the Shareholder will be considered to have realized a capital gain at that time and the Shareholder’s adjusted cost base will be increased by the amount of such deemed capital gain. See “Disposition of Shares” below.

Having regard to the distribution policy of the Company, a person acquiring Shares may become taxable on income or capital gains accrued or realized before such person acquired such Shares.

11.4 Disposition of Shares

Upon the redemption, retraction or other disposition of a Share, a capital gain (or a capital loss) will be realized to the extent that the proceeds of disposition of the Share exceed (or are less than) the aggregate of the adjusted cost base of the Share and any reasonable costs of disposition. If the Shareholder is a corporation, any capital loss arising on the disposition of a share may in certain circumstances be reduced by the amount of any Ordinary Dividends received on the share. Analogous rules apply to a partnership or trust of which a corporation, partnership or trust is a member or beneficiary. The adjusted cost base of

each Share will generally be the weighted average of the cost of the Shares of that class acquired by a Shareholder at a particular time and the aggregate adjusted cost base of any Shares of that class held immediately before the particular time.

Generally Shares will qualify as “Canadian securities” for purposes of making an irrevocable election under the Income Tax Act to deem all Canadian securities held by the investor to be capital property and to deem any disposition of Canadian securities held to be a disposition of a capital property for the purposes of the Income Tax Act. This election is not available to all taxpayers under all circumstances and therefore investors considering making such an election should consult their tax advisors.

One-half of a capital gain (a taxable capital gain) is included in computing income and one-half of a capital loss (an allowable capital loss) is deductible against taxable capital gains in accordance with the provisions of the Income Tax Act. A Shareholder that is a Canadian-controlled private corporation will be subject to an additional refundable tax on its aggregate investment income, which includes an amount in respect of taxable capital gains.

Individuals (other than certain trusts) who realize net capital gains or dividends may be subject to an alternative minimum tax under the Income Tax Act.

12.0 REMUNERATION OF DIRECTORS AND OFFICERS AND THE IRC

The Manager is paid the Management Fee as disclosed in section 8.2.3 of this Annual Information Form. The directors of the Manager and the Company do not receive any directors’ fees. The Company pays the fees of the IRC which for 2019 were \$6,278 for each of Mr. Scace and Mr. Woolner and \$5,951 for Ms. Meredith. IRC fees are determined by the IRC based on a recommendation of the Manager. The Company also pays the expenses incurred by the IRC and directors on behalf of the Company. No expenses were paid in 2019.

13.0 MATERIAL CONTRACTS

The Company and/or the Manager or Brompton Split Banc Trust are party to the Management Agreement, the Custodial Services Agreement and the Escrow Agreement. Copies of these material contracts may be accessed by prospective or existing Shareholders at www.sedar.com under the Company’s profile. They are also available at the Company’s office during normal business hours. Details in respect of the Management Agreement and Custodial Services Agreement can be found in section 8 of this Annual Information Form and in section 13.1 of this Annual Information Form in the case of the Escrow Agreement.

13.1 Escrow Agreement

The Escrow Agreement dated as of November 16, 2005 was entered into by Brompton Split Banc Trust, the Company and the Escrow Agent and was amended as of May 10, 2012 to provide for the extension to the Maturity Date of the Shares. The Escrow Agreement outlines the responsibilities and duties of the Escrow Agent in relation to the Class J Shares of the Company.

If the Escrow Agent should wish to resign, it must give at least three months written notice to the Company, which may, with the written consent of the Ontario Securities Commission, appoint another Escrow Agent in its place and such appointment shall be binding on the Company.

In consideration for its services, the Company pays to the Escrow Agent such compensation as agreed upon in writing between the Company and the Escrow Agent, from time to time and reimburses the Escrow Agent for all reasonable costs and expenses incurred by the Escrow Agent on behalf of the Company.

14.0 OTHER MATERIAL INFORMATION

14.1 Risk Factors

Certain risk factors relating to the Company, the Class A Shares and the Preferred Shares are described below. Additional risks and uncertainties not currently known to the Manager, or that are currently considered immaterial, may also impair the operations of the Company. If any such risk actually occurs, the business, financial condition, liquidity or results of operations of the Company and the ability of the Company to make Distributions on the Shares, could be materially adversely affected.

Performance of the Portfolio Companies and Other Considerations

The NAV per Unit varies as the value of the securities in the Portfolio changed. The Company has no control over the factors that affect the value of the securities in the Portfolio. Factors unique to each company included in the Portfolio, such as changes in its management, strategic direction, achievement of goals, mergers, acquisitions and divestitures, changes in distribution policies and other events, may affect the value of the securities in the Portfolio. A substantial drop in equities markets could have a negative effect on the Company and could lead to a significant decline in the value of the Portfolio and the value of the Class A Shares and Preferred Shares. Class A Shares and Preferred Shares of the Company may trade in the market at a discount to their net asset value and there can be no assurance that Shares will trade at a price equal to their net asset value.

Volatile Markets

Market prices of investments held by the Company will go up or down, sometimes rapidly or unpredictably. The Company's investments are subject to changes in general market conditions, market fluctuations and risks inherent in the securities markets. Securities markets can be volatile and prices of investments can change substantially due to various factors including, but not limited to, economic growth or recession, changes in interest rates, changes in actual or perceived creditworthiness of issuers and general market liquidity. Even if general economic conditions do not change, the value of an investment in the Company could decline if the particular industries, sectors or companies in which the Company invests do not perform well or are adversely affected by events. In addition, legal, political, regulatory and tax changes may also cause fluctuations in markets and securities prices. These market conditions and further volatility or illiquidity in capital markets may also adversely affect the prospects of the Company and the value of the Portfolio. A substantial decline in equities markets could be expected to have a negative effect on the Company and the market price of the Shares.

Market Disruptions

War and occupation, terrorism and related geopolitical risks or other factors including global health risks or epidemics/pandemics may lead to increased short-term market volatility and may have adverse long-term effects on world economies and markets generally. Those events could also have an acute effect on individual issuers or related groups of issuers. These risks could also adversely affect securities markets, inflation and other factors relating to the securities held in the portfolio.

Concentration Risk

The Company will be invested at all times in up to six issuers in one industry. The Company's holdings may be considered to be less diversified and the NAV per Unit may be more volatile than the value of a more broadly diversified portfolio and may fluctuate substantially over short periods of time. This may have a negative impact on the value of the Class A Shares and the Preferred Shares.

No Assurances on Achieving Objectives

There is no assurance that the Company will be able to achieve its Distribution objective or will return to investors an amount equal to or in excess of the original issue price of the Class A Shares or the Preferred Shares. There is no assurance that the Company will be able to pay quarterly Distributions on the Preferred Shares or monthly Distributions on the Class A Shares. The funds available for Distributions to Shareholders will vary according to, among other things, the dividends and distributions paid on all of the securities in the Portfolio, the level of option premiums received and the value of the securities comprising the Portfolio. As the dividends and distributions received by the Company may not be sufficient to meet the Company's objectives in respect of the payment of Distributions, the Company may depend on the receipt of option premiums and the realization of capital gains to meet those objectives. Although many investors and financial market professionals price options based on the Black-Scholes Model, in practice actual option premiums are determined in the marketplace and there is no assurance that the premiums predicted by such pricing model can be attained.

Sensitivity to Interest Rates

The market prices of the Class A Shares and Preferred Shares may be affected by the level of interest rates prevailing from time to time. A rise in interest rates may have a negative effect on the market prices of the Class A Shares and Preferred Shares and increase the cost of borrowing to the Company, if any. Shareholders who wish to redeem or sell their Class A Shares or Preferred Shares prior to the Maturity Date will therefore be exposed to the risk that the market prices of the Class A Shares and Preferred Shares may be negatively affected by interest rate fluctuations. In addition, the Distribution rate on the Preferred Shares may be changed at the time of an extension of the Maturity Date, which may also affect the market price of such Shares.

Greater Volatility of the Class A Shares

An investment in the Class A Shares represents a leveraged investment by virtue of the fact that the Preferred Shares are entitled to a fixed amount upon the termination or winding-up of the Company. This leverage amplifies the potential return to investors of Class A Shares in so far as returns in excess of the amounts payable to holders of Preferred Shares accrue to the benefit of the holders of Class A Shares. Conversely, any losses incurred by the Portfolio first accrue to the detriment of the holders of the Class A Shares since the Preferred Shares rank prior to the Class A Shares in respect of Distributions and proceeds upon the winding-up of the Company.

Changes in Credit Rating

A rating is not a recommendation to buy, sell or hold securities and may be subject to revision or withdrawal at any time. There can be no assurance that the Preferred Shares will maintain their rating by DBRS for any given period of time or that the rating will not be lowered or withdrawn entirely by DBRS if in DBRS' judgment circumstances so warrant. A lowering or withdrawal of the rating of the Preferred Shares may have a negative effect on the market value of the Preferred Shares.

Reliance on the Manager

The Manager is responsible for providing, or managing for the provision of, management and administrative services including investment and portfolio management services required by the Company. Investors who are not willing to rely on the Manager should not invest in Shares.

The Manager manages the Portfolio in a manner consistent with the Investment Objectives, Investment Guidelines, Rebalancing Criteria and Investment Restrictions of the Company. The employees of the Manager who are primarily responsible for the management of the Portfolio have extensive experience in

managing investment portfolios and writing covered call and cash covered put options in connection with managing such investment portfolios. There is no certainty that the employees of the Manager who are primarily responsible for the management of the Portfolio will continue to be employees of the Manager, throughout the term of the Company.

Conflicts of Interest

The Manager and its directors and officers and its respective affiliates and associates may engage in the promotion, management or investment management of any other fund or trust with similar investment objectives and/or similar investment strategies to those of the Company. Although none of the directors or officers of the Manager devotes his or her full time to the business and affairs of the Company, each devotes as much time as is necessary to supervise the management of (in the case of the directors) or to manage the business and affairs of (in the case of officers) the Company and the Manager, as applicable.

Use of Options and Other Derivative Instruments

The Company is subject to the full risk of its investment position in the securities comprising the Portfolio, including those securities that are subject to outstanding call options and those securities underlying put options written by the Company, should the market price of such securities decline. In addition, the Company will not participate in any gain on the securities that are subject to outstanding call options above the strike price of the options.

There is no assurance that a liquid exchange or over-the-counter market will exist to permit the Company to write covered call options or cash covered put options or purchase cash covered put options on desired terms or to close out option positions should the Manager desire to do so. The ability of the Company to close out its positions may also be affected by exchange imposed daily trading limits on options or the lack of a liquid over-the-counter market. If the Company is unable to repurchase a call option which is in-the-money, it will be unable to realize its profits or limit its losses until such time as the option becomes exercisable or expires. In addition, upon the exercise of a put option, the Company will be obligated to acquire a security at the strike price which may exceed the then current market value of such security.

In purchasing call or put options or selling call or writing put options, the Company is subject to the credit risk that its counterparty (whether a clearing corporation, in the case of exchange traded instruments, or other third party, in the case of over-the-counter instruments) may be unable to meet its obligations.

Sensitivity to Volatility Levels

The Company intends to sell call options in respect of some or all of the securities held in the Portfolio. Such call options may be either exchange traded options or over-the-counter options. By selling call options, the Company will receive option premiums. The amount of option premium depends upon, among other factors, the implied volatility of the price of the underlying security as, generally, the higher the implied volatility, the higher the option premium. The level of implied volatility is subject to market forces and is beyond the control of the Manager or the Company.

Securities Lending

The Company may engage in securities lending. Although the Company will receive collateral for the loans and such collateral will be marked-to-market, the Company will be exposed to the risk of loss should the borrower default on its obligations to return the borrowed securities and the collateral be insufficient to reconstitute the Portfolio of loaned securities.

Taxation

In determining its income for tax purposes, the Company will treat option premiums received on the writing of covered call options and cash covered put options and any losses sustained on closing out such options as capital gains and capital losses, as the case may be, in accordance with its understanding of the CRA's published administrative policy. Gains or losses on the disposition of shares, including the disposition of shares held in the Portfolio upon exercise of a call option, will be treated as capital gains or losses. The CRA's practice is not to grant an advance income tax ruling on the characterization of items as capital gains or income and no advance ruling has been requested or obtained.

If, contrary to the CRA's published administrative policy or as a result of a change in law, some or all of the transactions undertaken by the Company in respect of options were treated on income rather than capital account, after-tax returns to Shareholders could be reduced, the Company could be subject to non-refundable income tax from such transactions and the Company could be subject to penalty taxes in respect of excessive capital dividend elections.

There can be no assurance that changes will not be made to the tax rules affecting the taxation of the Company's investments or that such tax rules will not be administered in a way that is less advantageous to the Company or its Shareholders.

Loss of Investment

An investment in the Company is appropriate only for investors who have the capacity to absorb investment losses.

Significant Retractions

If a significant number of Class A Shares or Preferred Shares are retracted, the trading liquidity of the Class A Shares and Preferred Shares could be significantly reduced. In addition, the expenses of the Company would be spread among fewer Class A Shares and Preferred Shares resulting in a potentially lower NAV.

Non-concurrent Retraction

Holder of Class A Shares and Preferred Shares will be offered a non-concurrent retraction right in each year in which there is an extension of the term of its Class A Shares and Preferred Shares. In such event, to the extent that there are unmatched numbers of Class A Shares and Preferred Shares tendered for retraction, the Class A Shares or Preferred Shares, as the case may be, may be called by the Company for redemption on a pro rata basis in order to maintain the same number of Class A Shares and Preferred Shares outstanding. The number of retractions by holders of Class A Shares and Preferred Shares may be influenced by the performance of the Company, the management expense ratio and the trading discount to NAV, among other things.

Changes in Legislation and Regulatory Risk

There can be no assurance that certain laws applicable to the Company, including securities legislation, will not be changed in a manner which adversely affects the Company or Shareholders. If such laws change then such changes could have a negative effect upon the value of the Company, the Shares and upon investment opportunities available to the Company.

Accrued Gains

The adjusted cost base to the Company for tax purposes of shares of certain securities in the Portfolio may be less than their fair market value. Accordingly, all Shareholders may be liable for tax on capital gains attributable to such securities to the extent such capital gains tax is not refundable to the Company and such capital gains are therefore distributed as a capital gains dividend.

Exchange of Tax Information

The Company is required to comply with due diligence and reporting obligations imposed under Part XVIII of the amendments to the Income Tax Act (“Part XVIII”), which implements the Canada-United States Enhanced Tax Information Exchange Agreement. As long as Shares continue to be listed on the TSX, the Company should not have any U.S. reportable accounts and, as a result, it should not be required to provide information to the CRA in respect of Shareholders under Part XVIII. However, under Part XVIII, dealers through which Shareholders hold their Shares are subject to due diligence and reporting obligations with respect to financial accounts that they maintain for their clients. Shareholders may be requested to provide information to their dealer in order to allow the dealer to identify “Specified U.S. Persons” holding Shares, and in the case of certain entities that are Shareholders, to provide such information relating to their controlling persons. If a Shareholder is a Specified U.S. Person (including a U.S. citizen or green card holder who is resident in Canada) or if the Shareholder does not provide the requested information, the Shareholder’s dealer will be required by Part XVIII to report certain information about the Shareholder’s investment in the Company to the CRA, unless the Shares are held by a registered plan. The CRA will then provide that information to the U.S. Internal Revenue Service.

In addition, reporting obligations in the Income Tax Act have been enacted to implement the Organization for Economic Co-operation and Development Common Reporting Standard (the “CRS Rules”). Pursuant to the CRS Rules, Canadian financial institutions are required to have procedures in place to identify accounts held by residents of foreign countries (other than the United States) (“Reportable Jurisdictions”), or by certain entities any of whose “controlling persons” are resident in a Reportable Jurisdiction. The CRS Rules provide that Canadian financial institutions must report certain account information and other personal identifying details of Shareholders (and, if applicable, of such controlling persons) who are residents of Reportable Jurisdictions to the CRA annually. Such information would be available to be exchanged on a reciprocal, bilateral basis with Reportable Jurisdictions in which the account holders or such controlling persons are resident under the provisions and safeguards of the Multilateral Convention on Mutual Administrative Assistance in Tax Matters or the relevant bilateral tax treaty. Under the CRS Rules, Shareholders will be required to provide such information regarding their investment in the Company to the Shareholder’s dealer for the purpose of such an information exchange, unless the Shares are held by a registered plan.

Cybersecurity Risk

The information and technology systems of Brompton Funds, the Company’s key service providers (including its custodian, registrar and transfer agent, valuation services provider and securities lending agent) and the issuers of securities in which the Company invests may be vulnerable to cybersecurity risks such as potential damage or interruption from computer viruses, network failures, computer and telecommunications failures, infiltration by unauthorized persons (e.g. through hacking or malicious software) and general security breaches. A cybersecurity incident is an adverse intentional or unintentional action or event that threatens the integrity, confidentiality or availability of the Company’s information resources.

A cybersecurity incident may disrupt business operations or result in the theft of confidential or sensitive information, including personal information, or may cause system failures, disrupt business operations or require Brompton Funds or a service provider to make a significant investment to fix, replace or remedy

the effects of such incident. Furthermore, a cybersecurity incident could cause disruptions and negatively impact the Company's business operations, potentially resulting in financial losses to the Company and Shareholders. There is no guarantee that the Company or Brompton Funds will not suffer material losses as a result of cybersecurity incidents. If they occur, such losses could materially adversely impact the Company's net asset value.

ANNUAL INFORMATION FORM FOR BROMPTON SPLIT BANC CORP.

Manager: Brompton Funds Limited
Address: Suite 2930, Box 793, Bay Wellington Tower, Brookfield Place,
181 Bay Street, Toronto, Ontario M5J 2T3
Telephone: (416) 642-6000
