Management Style	Quantitative/Active
Manager/PM	Brompton Funds Limited
Registered Account Eligibility?	Yes
Risk Rating	Low to Medium

Overview

This ETF provides stable monthly cash distributions, and the opportunity for capital appreciation and low overall volatility of portfolio returns by investing in a portfolio of North American large capitalization equity securities selected by Brompton, complemented by a proprietary covered call options program to enhance monthly income. BLOV focuses on lowering total portfolio volatility through investing in a diversified blend of equities from North American issuers with a minimum market cap of \$5 billion. Our Portfolio Management team employs quantitative analysis with an active fundamentals overlay to construct a portfolio with lower overall volatility than the market. The team also overlays an options strategy with the goal of further lowering volatility while increasing distributable cash and total returns.

Investment Highlights: Low Volatility Dividend Equities

- Through the most recent 15 year period - including the two highest-volatility equity market sell-offs on record (2008 & 2020) - low volatility strategies have offered greater portfolio stability, higher risk-adjusted returns, and higher absolute returns than US or Canadian broad equity markets.
- Investor preference to seek outperformance in higher-volatility equities has created the Low Volatility Effect: less “exciting” low volatility equity portfolios are observed to consistently outperform on both an absolute and a risk-adjusted basis
- Brompton believes that its blended quantitative and fundamental approach to constructing Low-Volatility portfolios is a more effective strategy than taken by many competing Low Volatility ETFs.

Portfolio: October 31, 2020

Sector Allocation ³	% of Portfolio	Geographic Allocation ³	% of Portfolio
Consumer Staples	47.7%	United States	75.0%
Communication Services	15.1%	Canada	23.7%

About Brompton Funds

Founded in 2000, Brompton is an experienced investment fund manager with income focused investment solutions including TSX traded closed-end funds and exchange-traded funds. Our funds are designed to address investors' cash flow requirements and to provide them with value-added diversification strategies. Since inception, Brompton has paid out over \$2.5 billion in distributions. For those investors that do not require the regular cash flow, our funds also offer commission-free distribution reinvestment plans for additional units in the funds. For the level of service provided, our funds are known for their low management fees and costs.
