### Overview

This ETF provides high monthly distributions and the opportunity for capital appreciation by investing in an actively managed portfolio of Global Real Assets companies (primarily real estate, utilities, infrastructure, resources) selected by Brompton, complemented by a proprietary covered call options program to enhance monthly income. Our Portfolio Management team first uses a top-down analysis to identify attractive sub-sectors. Rigorous fundamental analysis focuses the portfolio on well-positioned, large-capitalization Real Assets issuers. The Portfolio Managers then actively set the level of covered call writing with the goal of optimizing distributable cash and total returns, and reducing portfolio volatility.

### Investment Highlights: Global Real Assets

- Diversified Real Assets equities can offer better risk-adjusted returns compared to both the broad market or focused investments in Real Estate, Utilities, or Infrastructure.
- Real Assets companies have highly visible revenue streams that produce stable cash flows and consistent, attractive dividends.
- Real Assets equities growth is driven by continuing long-term trends including heightened investor focus on dividends, increasing government outsourcing, 5G rollout and cloud growth, urban intensification
- Brompton's global expertise can help navigate the challenges & opportunities available across Global Real Assets equities segments (Utilities, Infrastructure, Real Estate, Resources and related sectors).
