A copy of this preliminary short form base shelf prospectus has been filed with the securities regulatory authorities in each of the provinces and territories of Canada but has not yet become final for the purpose of the sale of securities. Information contained in this preliminary short form base shelf prospectus may not be complete and may have to be amended. The securities may not be sold until a receipt for the short form base shelf prospectus is obtained from the securities regulatory authorities.

This short form base shelf prospectus has been filed under legislation in each of the provinces and territories of Canada that permits certain information about these securities to be determined after this prospectus has become final and that permits the omission from this prospectus of that information. The legislation requires the delivery to purchasers of a prospectus supplement containing the omitted information within a specified period of time after agreeing to purchase any of these securities.

No securities regulatory authority has expressed an opinion about these securities and it is an offence to claim otherwise. This short form base shelf prospectus constitutes a public offering of these securities only in those jurisdictions where they may be offered for sale and therein only by persons permitted to sell such securities.

New Issue

#### PRELIMINARY SHORT FORM BASE SHELF PROSPECTUS

August 17, 2020

## \$300,000,000

## **Preferred Shares and Class A Shares**

During the 25-month period that this short form base shelf prospectus, including any amendments hereto, remains effective, Global Dividend Growth Split Corp. (the "Company") may from time to time offer and issue preferred shares ("Preferred Shares") and class A shares ("Class A Shares") in an aggregate principal amount of up to \$300,000,000. Preferred Shares and Class A Shares may be offered in such amount as may be determined in light of market conditions. The specific terms of the Preferred Shares and Class A Shares in respect of which this short form base shelf prospectus is being delivered will be set forth in one or more prospectus supplements (each a "Prospectus Supplement") to be delivered to purchasers together with this short form base shelf prospectus, and may include, where applicable, the aggregate offered amount, the number of Preferred Shares and Class A Shares offered, the issue price, the dividend rate, the dividend payment dates and any terms for redemption at the option of the Company or the holder. Each such Prospectus Supplement will be incorporated by reference into this short form base shelf prospectus for the purposes of securities legislation as of the date of each such Prospectus Supplement and only for the purposes of the distribution of Preferred Shares and Class A Shares to which such Prospectus Supplement pertains.

Preferred Shares and Class A Shares are issued only on the basis that an equal number of Preferred Shares and Class A Shares will be outstanding at all times. The Company is a mutual fund corporation incorporated under the laws of the Province of Ontario. The Company invests in a diversified portfolio (the "Portfolio") of equity securities of large capitalization global dividend growth companies selected by Brompton Funds Limited (the "Manager"), the manager of the Company. Equity securities selected by the Manager will generally be equal-weighted at the time of investment and after rebalancing the Portfolio. See "Investment Strategies."

The Company may sell Preferred Shares and Class A Shares to or through underwriters or dealers or directly to investors or through agents. The Prospectus Supplement relating to the Preferred Shares and Class A Shares offered by the Company will identify each person who may be deemed to be an underwriter with respect to such Preferred Shares and Class A Shares and Class A Shares, and Class A Shares and Class A Shares, and Class A Shares and Class A Shares,

including, to the extent applicable, the offering price, the proceeds to the Company, the underwriting commissions and any other fees, discounts or concessions to be allowed or reallowed to dealers. The sale of Preferred Shares and Class A Shares may be effected from time to time in one or more transactions at non-fixed prices pursuant to transactions that are deemed to be "at-the-market distributions" as defined in National Instrument 44-102 – *Shelf Distributions* ("NI 44-102"), including sales made directly on the Toronto Stock Exchange (the "TSX") or other existing trading markets for the Preferred Shares and Class A Shares, and as set forth in a Prospectus Supplement for such purpose. The lead underwriter or lead agent or underwriters or agents with respect to the Preferred Shares and Class A Shares sold to or through underwriters will be named in the related Prospectus Supplement.

Subject to applicable laws, in connection with any offering of Preferred Shares and Class A Shares, other than an "atthe-market distribution" of Preferred Shares and Class A Shares, the underwriters or agents may over-allot or effect transactions which stabilize or maintain the market price of the Preferred Shares and/or Class A Shares offered at a level above that which might otherwise prevail in the open market. Such transactions, if commenced, may be discontinued at any time. See "*Plan of Distribution*".

No underwriter or agent involved in an "at-the-market distribution", no affiliate of such an underwriter or agent and no person or company acting jointly or in concert with such an underwriter or agent may over-allot Preferred Shares and Class A Shares in connection with the distribution or may effect any other transactions that are intended to stabilize or maintain the market price of the Preferred Shares or Class A Shares in connection with an "at-the-market distribution".

The Preferred Shares and the Class A Shares are listed on the TSX under the symbols GDV.PR.A and GDV, respectively. On August 14, 2020, the closing price on the TSX of the Preferred Shares was \$10.34 and of the Class A Shares was \$9.80.

An investment in the Preferred Shares or the Class A Shares involves a degree of risk. It is important for prospective investors to consider the risk factors described in this short form base shelf prospectus. See "Risk Factors".

All shelf information permitted under applicable law to be omitted from this short form base shelf prospectus will be contained in one or more Prospectus Supplements that will be delivered to purchasers together with this prospectus. Each Prospectus Supplement will be incorporated by reference into this short form base shelf prospectus for the purposes of securities legislation as of the date of the Prospectus Supplement and only for the purposes of the distribution of the Preferred Shares and Class A Shares to which the Prospectus Supplement pertains.

- "Black-Scholes Model" means a widely used option pricing model developed by Fischer Black and Myron Scholes in 1973. The model can be used to calculate the theoretical value of an option based on the current price of the underlying security, the strike price and term of the option, prevailing interest rates and the volatility of the price of the underlying security.
- "Board of Directors" means the Company's board of directors.
- "Brompton Funds" means Brompton Corp. and its wholly-owned subsidiary Brompton Funds Limited. Brompton Corp. is in the business of managing investment funds.
- "Business Day" means any day on which the TSX is open for business.
- "cash equivalents" means, and for the purposes of "cash cover" and "cash covered put option", "cash" as used therein means:
  - (a) cash on deposit at the Custodian;
  - (b) an evidence of indebtedness that has a remaining term to maturity of 365 days or less and that is issued, or fully and unconditionally guaranteed as to principal and interest, by:
    - (i) any of the federal or provincial Governments of Canada;
    - (ii) the Government of the United States; or
    - (iii) a Canadian financial institution:

provided that, in the case of (ii) and (iii), such evidence of indebtedness has a rating of at least R-1 (mid) by DBRS or the equivalent rating from another designated rating organization; or

- (c) other cash cover as defined in NI 81-102.
- "Class A Record Date" means the last Business Day of each month.
- "Class A Shares" means the class A shares of the Company.
- "Class A Special Redemption" has the meaning given to such term under "Description of the Shares of the Company Certain Provisions of the Class A Shares Retraction Privileges Non-Matched Shares".
- "Class B Shares" means the class B shares of the Company.
- "Class C Shares" means the class C shares of the Company.
- "Class J Shares" means the class J shares of the Company.

"U.S. person" has the meaning given to such term in Regulation S under the 1933 Act.

## FORWARD LOOKING STATEMENTS

Certain of the statements contained in this short form base shelf prospectus may be forward-looking statements. The use of words such as "may," "will," "should," "could," "anticipate," "believe," "expect," "intend," "plan," "potential," "continue" and similar expressions have been used to identify these forward-looking statements. These statements involve known and unknown risks, uncertainties and other factors that may cause actual results or events to differ materially from those anticipated in the forward-looking statements including, but not limited to, changes in general economic and market conditions and other risk factors. Although the Manager believes the expectations reflected in the forward-looking statements are reasonable, no assurance can be given that actual results will be consistent with these expectations and forward-looking statements. Potential subscribers should not place undue reliance on forward-looking statements. These forward-looking statements are made as of the date hereof and the Company and the Manager assume no obligation to update or revise them to reflect new events or circumstances except as may be required by applicable law.

#### DOCUMENTS INCORPORATED BY REFERENCE

The following documents filed with the securities commissions or similar authorities in each of the provinces and territories of Canada are specifically incorporated by reference and form an integral part of this short form base shelf prospectus:

- (a) the annual information form of the Company dated March 25, 2020 for the year ended December 31, 2019;
- (b) the annual financial statements of the Company, together with the accompanying report of the auditor, as at and for the fiscal year ended December 31, 2019; and
- (c) the management report of fund performance of the Company dated March 18, 2020 for the fiscal year ended December 31, 2019.

Any of the documents of the type referred to above, including any material change reports (excluding confidential material change reports), annual information forms, interim and annual financial statements and related management reports of fund performance, business acquisition reports and information circulars filed by the Company with a securities commission or similar authority in Canada after the date of this short form base shelf prospectus and prior to the termination of an offering of Preferred Shares and Class A Shares, will be deemed to be incorporated by reference in this short form base shelf prospectus.

Any statement contained in a document incorporated or deemed to be incorporated by reference herein will be deemed to be modified or superseded, for purposes of this short form base shelf prospectus, to the extent that a statement contained herein or in any other subsequently filed document which also is, or is deemed to be, incorporated by reference herein modifies or supersedes such statement. The modifying or superseding statement need not state that it has modified or superseded a prior statement or include any other information set forth in the document that it modifies or supersedes. The making of such modifying or superseding statement shall not be deemed an admission for any purposes that the modified or superseded statement, when made, constituted a misrepresentation, an untrue statement of a material fact or an omission to state a material fact that is required to be stated or that is necessary to make a statement not misleading in light of the circumstances in which it was made. Any statement so modified or superseded shall not be deemed, except as so modified or superseded, to constitute a part of this short form base shelf prospectus.

Upon a new annual information form, semi-annual or annual financial statements and management report on fund performance being filed with and, where required, accepted by the applicable securities regulatory authorities during the currency of this short form base shelf prospectus, the previous annual information form, semi-annual or annual financial statements and management report on fund performance and all material change reports filed prior to the commencement of the then current fiscal year will be deemed no longer to be incorporated into this short form base shelf prospectus for purposes of future offers and sales of Preferred Shares and Class A Shares hereunder.

A Prospectus Supplement containing the specific terms of an offering of Preferred Shares and Class A Shares will be delivered to purchasers of such Preferred Shares and Class A Shares together with this short form base shelf prospectus

and will be deemed to be incorporated into this short form base shelf prospectus as of the date of such Prospectus Supplement but only for purposes of the offering of Preferred Shares and Class A Shares covered by that Prospectus Supplement.

#### THE COMPANY

Global Dividend Growth Split Corp. is a mutual fund corporation incorporated under the laws of the Province of Ontario on April 24, 2018 with a registered office located at Suite 2930, Bay Wellington Tower, Brookfield Place, 181 Bay Street, Toronto, Ontario M5J 2T3. The Company was formed pursuant to articles of incorporation and is governed by its articles of incorporation and the by-laws of the Company.

Prior to closing the Company's initial public offering, the Company amended its articles to create the Preferred Shares and the Class A Shares.

On June 15, 2018, the Company completed its initial public offering of 3,550,000 Preferred Shares and 3,550,000 Class A Shares raising aggregate gross proceeds of \$78.1 million.

On August 10, 2020, the Company announced that the Board of Directors approved an extension of the Maturity Date for an addition term of three to five years. See "The Company – Maturity Date".

While the Company is technically considered to be a mutual fund under the securities legislation of certain provinces of Canada, the Company is not a conventional mutual fund.

The Preferred Shares and Class A Shares are listed on the TSX under the symbols GDV.PR.A and GDV, respectively.

## **Investment Objectives**

The Company's Investment Objectives are:

- (a) to provide holders of Preferred Shares with fixed cumulative preferential quarterly cash Distributions:
- (b) to provide holders of Class A Shares with regular monthly cash Distributions;
- (c) to return the original issue price of \$10.00 to holders of Preferred Shares on the Maturity Date; and
- (d) to provide holders of Class A Shares with the opportunity for capital appreciation through exposure to the Portfolio.

The Company invests in a diversified portfolio of equity securities of large capitalization global dividend growth companies selected by the Manager, may selectively write covered call options from time to time in order to enhance the Company's total returns and to mitigate the overall volatility of the Portfolio and hedges substantially all of its foreign currency exposure back to the Canadian dollar.

#### **Investment Guidelines**

To achieve its investment objectives, the Company invests in a Portfolio of equity securities of large capitalization global dividend growth companies selected by the Manager.

In order to qualify for inclusion in the Portfolio, at the time of investment and at the time of each periodic reconstitution and/or rebalancing, each global dividend growth company included in the Portfolio must (i) have a market capitalization of at least US\$10 billion; and (ii) have a history of dividend growth or, in the Manager's view, have high potential for future dividend growth.

After applying the above-mentioned criteria, the Manager will select equity securities of global dividend growth companies to construct the Portfolio after considering, among other factors, each global dividend growth company's:

- (a) dividend growth potential (as indicated by historical dividend growth, expected future earnings, revenue and/or dividend growth, dividend payout ratio, and/or dividend policy):
- (b) valuation (as indicated by price to earnings, price to book value and/or enterprise value to EBITDA ratios, and/or free cash flow yield);
- (c) profitability (as indicated by relatively high returns on equity and/or profit margins);
- (d) current dividend yield;
- (e) balance sheet strength (as indicated by interest coverage, debt/cash flow, debt/equity and/or debt covenants); and/or
- (f) liquidity of the equity securities and options.

The Manager will consider various factors, including but not limited to, macroeconomic conditions, political conditions and sector fundamentals when determining the geographic and sector allocation of the Portfolio. The Manager will also give consideration to maintaining diversification across regions, countries, sectors and industries.

The Manager is responsible for maintaining the Portfolio in accordance with the Investment Guidelines and Rebalancing Criteria and, at its discretion, selectively writes covered call options and cash covered put options from time to time in respect of the shares included in the Portfolio in order to generate additional distributable income for the Company.

The Manager expects that the Company will be invested directly, or indirectly through exchange-traded funds, in at least 20 global dividend growth companies. Equity securities selected by the Manager will generally be equal-weighted at the time of investment and after rebalancing the Portfolio, but the Company may, at the Manager's discretion, hold non-equal-weight positions.

In addition to, or instead of, investing in equity securities of global dividend growth companies directly, the Company may invest, at the Manager's discretion, a portion of the Portfolio's assets in exchange-traded funds, including exchange-traded funds managed by the Manager, that provide exposure to global dividend growth companies. There will be no duplication of fees payable by the Company in connection with any investment by the Company in exchange-traded funds managed by the Manager.

The Company may from time to time hold cash and cash equivalents including short term debt instruments issued by the government of Canada or a province, short term commercial paper issued by Canadian financial institutions with a rating of at least R-1 (mid) by DBRS or the equivalent from another designated rating organization selected by the Manager or term deposits.

The Company also hedges substantially all of its foreign currency exposure to the holdings in the Portfolio back to the Canadian dollar, if any.

## **Rebalancing Criteria**

The Portfolio will be rebalanced and/or may be reconstituted at least annually, but may be rebalanced and/or reconstituted more frequently at the Manager's discretion.

Among other circumstances, the Portfolio may be rebalanced and/or reconstituted more frequently than annually if a constituent becomes party to a merger or other business combination or announces the intention to reduce, suspend or cease paying dividends. In addition, the Manager may remove one or more global dividend growth companies included in the Portfolio based on its view of market conditions or the future performance of such global dividend growth company. In any such circumstances, the Manager may determine whether to replace the global dividend growth company removed from the Portfolio with one or more global dividend growth companies or to rebalance the remaining constituents of the Portfolio generally back to equal weight at that time. As a result of changes in market

prices of the securities in the Portfolio between rebalancing dates, it is not expected that the issuers included in the Portfolio will be exactly equally-weighted at any given time.

The Portfolio may also be rebalanced in the event of any future offering of Preferred Shares or Class A Shares by the Company. New Preferred Shares and Class A Shares may not be issued for net proceeds per Unit less than the most recently calculated NAV per Unit prior to the date of the setting of the subscription price by the Company.

## **Investment Restrictions**

The Company is subject to certain Investment Restrictions that, among other things, limit the securities that the Company may acquire for the Portfolio. The Company's Investment Restrictions may not be changed without the approval of the holders of Preferred Shares and Class A Shares, each voting separately as a class by an Extraordinary Resolution, at a meeting called for such purpose.

In addition, but subject to the Investment Restrictions, the Company has adopted the standard investment restrictions and practices set forth in NI 81-102 (as it may be amended from time to time).

# **Maturity Date**

The Maturity Date of the Company, on which date it will redeem all of the Preferred Shares and Class A Shares is June 30, 2021, subject to extension for successive terms of up to 5 years as determined by the Board of Directors. On August 10, 2020, the Company announced that the Board of Directors approved an extension of the Maturity Date of the Company for an additional term of three to five years (the "Extension"). The Board of Directors will (a) determine the term of the Extension and (b) select the new Preferred Share distribution rate (which will be based on current market yields for preferred shares with similar terms) for the Extension and will announce such information at least 60 days prior to June 30, 2021. In connection with the Extension, holders of Preferred Shares and Class A Shares will have the right to retract their shares and receive a retraction price calculated in the same way it would have been calculated if the Company were to terminate on June 30, 2021. See "Description of the Shares of the Company – Certain Provisions of the Preferred Shares – Non-Concurrent Retraction Right" and "Description of the Shares of the Company – Certain Provisions of the Class A Shares – Non-Concurrent Retraction Right".

## **Securities Lending**

In order to generate additional returns, the Company may lend Portfolio securities to securities borrowers acceptable to the Company pursuant to the terms of the Securities Lending Agreement under which: (i) the borrower will pay to the Company a negotiated securities lending fee and will make compensation payments to the Company equal to any distributions received by the borrower on the securities borrowed; (ii) the securities loans must qualify as "securities lending arrangements" for the purposes of the Tax Act; and (iii) the Company will receive collateral security. The Company may only lend the portion of the securities of a Portfolio issuer that is not subject to a covered call option. The Company has appointed the Custodian to act as securities lending agent in the event that it lends Portfolio securities to securities borrowers. Such agent is responsible for the ongoing administration of the securities loans, including the obligation to mark-to-market the collateral on a daily basis. Acceptable collateral would generally be limited to Government of Canada or provincial treasury securities or other liquid collateral as approved by the Board of Directors, in each case with a value equal to 105% of the value of the securities on loan. Any securities lending transactions entered into by the Company may be terminated by the Company at any time.

# DESCRIPTION OF THE SHARES OF THE COMPANY

The following description sets forth certain general terms and provisions of the Preferred Shares and Class A Shares. The particular terms and provisions of the Preferred Shares and Class A Shares offered by a Prospectus Supplement, and the extent to which the general terms and provisions described below may apply thereto, will be described in such Prospectus Supplement.

#### **Certain Provisions of the Preferred Shares**

#### Distributions

Holders of record of Preferred Shares at 5:00 p.m. (Toronto time) on a Preferred Share Record Date are entitled to receive fixed, cumulative preferential quarterly cash distributions of \$0.125 per Preferred Share (\$0.50 per annum) until June 30, 2021 and will be paid on or before the tenth Business Day in the month following the end of the period in respect of which the Distribution is payable. Such Distributions may consist of ordinary dividends, capital gains dividends or returns of capital. There can be no assurance that the Company will be able to pay Distributions to holders of Preferred Shares. All cash Distributions will be paid through CDS' book-entry only system or paid in such other manner as may be agreed to by the Company.

# Redemptions

All Preferred Shares outstanding on the Maturity Date will be redeemed by the Company on such date. The redemption price payable by the Company for a Preferred Share on that date will be equal to the lesser of (i) \$10.00, plus any accrued and unpaid Distributions thereon and (ii) the NAV of the Company on that date divided by the total number of Preferred Shares then outstanding.

# Retraction Privileges

#### Monthly

Preferred Shares may be surrendered at any time for retraction to TSX Trust Company, the Company's registrar and transfer agent, but will be retracted only on the monthly Retraction Date. Preferred Shares surrendered for retraction by a Shareholder by 5:00 p.m. (Toronto time) on the tenth Business Day prior to the Retraction Date will be retracted on such Retraction Date and the Shareholder will be paid on the Retraction Payment Date.

Holders of Preferred Shares whose Preferred Shares are surrendered for retraction will be entitled to receive a retraction price per Preferred Share equal to 96% of the lesser of (i) the NAV per Unit determined as of such Retraction Date less the cost to the Company of the purchase of a Class A Share for cancellation; and (ii) \$10.00. For this purpose, the cost of the purchase of a Class A Share will include the purchase price of the Class A Share, and commission and such other costs, if any, related to the liquidation of any portion of the Portfolio to fund the purchase of the Class A Share. Any declared and unpaid Distributions payable on or before a monthly Retraction Date in respect of Preferred Shares tendered for retraction on such Retraction Date will also be paid on the Retraction Payment Date.

#### Annual Concurrent

In addition to the above, a holder of Preferred Shares may concurrently retract an equal number of Preferred Shares and Class A Shares on the Annual Retraction Date of each year at a retraction price per Unit equal to the NAV per Unit on that date, less any costs associated with the retraction, including commissions and other such costs if any, related to the liquidation of any portion of the Portfolio required to fund such retraction. The Preferred Shares and Class A Shares must both be surrendered for retraction by 5:00 pm (Toronto time) on the tenth Business Day prior to the Annual Retraction Date. Payment of the proceeds of retraction will be made on or before the tenth Business Day of the following month, subject to the Manager's right to suspend retractions in certain circumstances.

## Non-Concurrent Retraction Right

On the Maturity Date and upon any subsequent maturity date as determined by the Board of Directors, holders of Preferred Shares will be entitled to retract their Preferred Shares pursuant to a non-concurrent retraction right and the Company will provide at least 60 days' notice to the holders of Preferred Shares. The holders of Preferred Shares will receive the same amount per Preferred Share that would have applied had the Company redeemed all of the Preferred Shares on the Maturity Date as scheduled prior to the extension. Preferred Shares must be surrendered for retraction by 5:00 p.m. (Toronto time) on the last Business Day of the month prior to the Maturity Date or subsequent maturity date, as applicable. The holders of Preferred Shares will receive payment for Preferred Shares so retracted no later than the tenth Business Day of the month following the month in which the date of the non-concurrent retraction occurs.

If more Class A Shares than Preferred Shares have been redeemed pursuant to the non-concurrent retraction right, the Company will be authorized to redeem Preferred Shares on a pro rata basis in a number to be determined by the Company reflecting the extent to which the number of Preferred Shares outstanding following the non-concurrent retraction exceeds the number of Class A Shares outstanding following the non-concurrent retraction. Conversely, if more Preferred Shares than Class A Shares have been redeemed pursuant to the non-concurrent retraction right, the Company may issue Preferred Shares to the extent that the number of Class A Shares outstanding following the non-concurrent retraction exceeds the number of Preferred Shares outstanding following the non-concurrent retraction.

# Resale of Preferred Shares Tendered for Retraction

The Company may enter into a recirculation agreement (a "Recirculation Agreement") with a recirculation agent (a "Recirculation Agent") whereby the Recirculation Agent will use commercially reasonable efforts to find purchasers for any Preferred Shares tendered for retraction prior to the relevant Valuation Date. The Company may, but is not obligated to, require the Recirculation Agent to seek such purchasers and, in such event, the amount to be paid to the holder of Preferred Shares on the applicable Retraction Payment Date will be an amount equal to the proceeds of the sale of the Preferred Shares less any applicable commission, provided that such amount will not be less than the retraction price that would otherwise be payable to the holder of such Preferred Shares.

#### General

Subject to the Company's right to require the Recirculation Agent to use commercially reasonable efforts to find purchasers for any Preferred Shares tendered for retraction prior to the relevant Valuation Date, any and all Preferred Shares which have been surrendered to the Company for retraction are deemed to be outstanding until (but not after) the close of business on the relevant Retraction Date, unless the retraction price is not paid on the Retraction Payment Date, in which event such Preferred Shares will remain outstanding.

The retraction right must be exercised by causing written notice to be given within the notice periods prescribed herein and in the manner described. Such surrender will be irrevocable upon the delivery of a notice to CDS through a CDS Participant, except with respect to those Preferred Shares which are not retracted by the Company on the relevant Retraction Payment Date. The Company may, in its discretion, permit the withdrawal of any Preferred Share retraction request at any time prior to the Retraction Payment Date.

If any Preferred Shares are tendered for retraction and are not resold in the manner described above under "Resale of Preferred Shares Tendered for Retraction", the Company will direct the Recirculation Agent to purchase for cancellation on behalf of the Company that number of Class A Shares that equals the number of Preferred Shares so retracted. Any Class A Shares so purchased for cancellation will be purchased in the market.

Any Retraction Notice that CDS determines to be incomplete, not in proper form or not duly executed, for all purposes, be void and of no effect and the redemption privilege to which it relates shall be considered, for all purposes, not to have been exercised thereby. A failure by a CDS Participant to exercise redemption privileges or to give effect to the settlement thereof in accordance with a Shareholder's instructions will not give rise to any obligations or liability on the part of the Company or the Manager to the CDS Participant or the Shareholder.

# **Priority**

The Preferred Shares rank in priority to the Class A Shares, Class B Shares, Class C Shares and Class J Shares with respect to the payment of Distributions and the repayment of capital on the dissolution, liquidation or winding up of the Company.

#### **Certain Provisions of the Class A Shares**

# Distributions

The policy of the Board of Directors is to pay monthly non-cumulative Distributions to the holders of Class A Shares. Such Distributions are paid on or before the tenth Business Day of the month following the month in respect of which the Distribution is payable. Such Distributions may consist of ordinary dividends, capital gains dividends or returns

of capital. There can be no assurance that the Company will be able to pay Distributions to the holders of Class A Shares.

No Distributions will be paid on the Class A Shares if (i) the Distributions payable on the Preferred Shares are in arrears, or (ii) in respect of a cash Distribution, after the payment of a cash Distribution by the Company, the NAV per Unit would be less than \$15.00.

Subject to the dividend entitlement of the holders of the Preferred Shares, the Board of Directors shall allocate return of capital Distributions first to holders of the Class A Shares before paying Distributions representing return of capital to holders of the Preferred Shares. In the event that the Company realizes capital gains, the Company may, at its option, make a special year end capital gains Distribution in certain circumstances, including where the Company has net realized capital gains, in Class A Shares and/or cash. Any capital gains Distribution payable in Class A Shares will increase the aggregate adjusted cost base to holders of Class A Shares of such shares. Immediately following payment of such a Distribution in Class A Shares, the number of Class A Shares outstanding will be automatically consolidated such that the number of Class A Shares outstanding after such Distribution will be equal to the number of Class A Shares outstanding immediately prior to such Distribution.

Distributions are payable to holders of Class A Shares of record at 5:00 p.m. (Toronto time) on the Class A Record Date. All cash Distributions are paid through CDS' book-entry only system or paid in such other manner as may be agreed to by the Company.

## Redemptions

All Class A Shares outstanding on the Maturity Date will be redeemed by the Company on the Maturity Date. The redemption price payable by the Company for a Class A Share on that date will be equal to the greater of (i) the NAV per Unit on that date minus the sum of \$10.00 plus any accrued and unpaid Distributions on a Preferred Share, and (ii) nil. Notice of redemption will be given to CDS Participants holding Class A Shares on behalf of the beneficial owners thereof at least 30 days prior to the Maturity Date.

#### Retraction Privileges

Monthly

Class A Shares may be surrendered at any time for retraction to TSX Trust Company, the Company's registrar and transfer agent, but will be retracted only on the monthly Retraction Date. Class A Shares surrendered for retraction by 5:00 p.m. (Toronto time) on the tenth Business Day prior to the monthly Retraction Date will be retracted on such Retraction Date and the Shareholder will be paid on or before the Retraction Payment Date.

Holders of Class A Shares whose Class A Shares are surrendered for retraction will be entitled to receive a retraction price per Class A Share equal to 96% of the difference between (i) the NAV per Unit determined as of such Retraction Date, and (ii) the cost to the Company of the purchase of a Preferred Share for cancellation. For this purpose, the cost of the purchase of a Preferred Share will include the purchase price of the Preferred Share, commission and such other costs, if any, related to the liquidation of any portion of the Portfolio to fund the purchase of the Preferred Share. Any declared and unpaid Distributions payable on or before a Retraction Date in respect of Class A Shares tendered for retraction on such Retraction Date will also be paid on the Retraction Payment Date.

#### Annual Concurrent

In addition to the above, a holder of Class A Shares may concurrently retract an equal number of Preferred Shares and Class A Shares on the Annual Retraction Date of each year, at a retraction price per Unit equal to the NAV per Unit on that date, less any costs associated with the retraction, including commissions and other such costs, if any, related to the liquidation of any portion of the Portfolio required to fund such retraction. For the purpose of calculating the NAV per Unit, the value of securities comprising the Portfolio will be equal to the weighted average trading price of such securities over the last three Business Days of the month. The Preferred Shares and Class A Shares must both be surrendered for retraction by 5:00 pm (Toronto time) on the tenth Business Day prior to the applicable Annual Retraction Date. Payment of the proceeds will be made on or before the tenth Business Day of the following month, subject to the Manager's right to suspend retractions in certain circumstances.

## Non-Concurrent Retraction Right

On the Maturity Date and upon any subsequent maturity date as determined by the Board of Directors, holders of Class A Shares will be entitled to retract their Class A Shares pursuant to a non-concurrent retraction right and the Company will provide at least 60 days' notice to the holders of Class A Shares. The holders of Class A Shares will receive the same amount per Class A Share that would have applied had the Company redeemed all of the Class A Shares on the Maturity Date as scheduled prior to the extension. Class A Shares must be surrendered for retraction by 5:00 p.m. (Toronto time) on the last Business Day of the month prior to a Maturity Date or subsequent maturity date, if applicable. The holders of Class A Shares will receive payment for Class A Shares so retracted no later than the tenth Business Day of the month following the month in which the date of the non-concurrent retraction occurs.

If more Preferred Shares than Class A Shares have been redeemed pursuant to the non-concurrent retraction right, the Company will be authorized to redeem Class A Shares on a pro rata basis in a number to be determined by the Company reflecting the extent to which the number of Class A Shares outstanding following the non-concurrent retraction exceeds the number of Preferred Shares outstanding following the non-concurrent retraction. Conversely, if more Class A Shares than Preferred Shares have been redeemed pursuant to the non-concurrent retraction right, the Company may issue Class A Shares to the extent the number of Preferred Shares outstanding following the non-concurrent retraction exceeds the number of Class A Shares outstanding following the non-concurrent retraction.

## Resale of Class A Shares Tendered for Retraction

The Company may enter into a Recirculation Agreement with a Recirculation Agent whereby the Recirculation Agent will use commercially reasonable efforts to find purchasers for any Class A Shares tendered for retraction prior to the relevant Valuation Date. The Company may, but is not obligated to, require the Recirculation Agent to seek such purchasers and, in such event, the amount to be paid to the holder of Class A Shares on the applicable Retraction Payment Date will be an amount equal to the proceeds of the sale of the Class A Shares less any applicable commission, provided that such amount will not be less than the retraction price that would otherwise be payable to the holder of such Class A Shares.

#### Non-Matched Shares

The Company may also redeem the Class A Shares on a *pro rata* basis in the event that there is an unequal number of Preferred Shares and Class A Shares in order to reduce the number of Class A Shares issued and outstanding to equal the number of Preferred Shares issued and outstanding (a "Class A Special Redemption"). The redemption price payable by the Company for a Class A Share in respect of a Class A Special Redemption will be equal to the greater of (a) the Net Asset Value per Unit on such date minus the sum of \$10.00 plus any accrued and unpaid distributions on a Preferred Share, and (b) nil.

## General

Subject to the Company's right to require the Recirculation Agent to use commercially reasonable efforts to find purchasers for any Class A Shares tendered for retraction prior to the relevant Valuation Date, any and all Class A Shares that have been surrendered to the Company for retraction are deemed to be outstanding until (but not after) the close of business on the relevant Retraction Date, unless the retraction price is not paid on the Retraction Payment Date, in which event such Class A Shares will remain outstanding.

The retraction right must be exercised by causing written notice to be given within the notice periods prescribed herein and in the manner prescribed. Such surrender will be irrevocable upon the delivery of notice to CDS through a CDS Participant, except with respect to those Class A Shares which are not retracted by the Company on the relevant Retraction Payment Date. The Company may, in its discretion, permit the withdrawal of any Class A Share retraction request at any time prior to the Retraction Payment Date.

If any Class A Shares are tendered for retraction and are not resold in the manner described above under "Resale of Class A Shares Tendered for Retraction", the Company will direct the Recirculation Agent to purchase for cancellation

on behalf of the Company that number of Preferred Shares that equals the number of Class A Shares so retracted. Any Preferred Shares so purchased for cancellation will be purchased in the market.

Any Retraction Notice that CDS determines to be incomplete, not in proper form or not duly executed, shall, for all purposes, be void and of no effect and the redemption privilege to which it relates shall be considered, for all purposes, not to have been exercised thereby. A failure by a CDS Participant to exercise redemption privileges or to give effect to the settlement thereof in accordance with a Shareholder's instructions will not give rise to any obligations or liability on the part of the Company or the Manager to the CDS Participant or the Shareholder.

#### **Priority**

The Class A Shares rank subsequent to the Preferred Shares but in priority to the Class J Shares with respect to the payment of Distributions and the repayment of capital out of the Portfolio on the dissolution, liquidation or winding up of the Company.

#### DESCRIPTION OF SHARE CAPITAL

The Company is authorized to issue an unlimited number of Preferred Shares, Class A Shares, Class B Shares, Class C Shares and Class J Shares. The Board of Directors will determine before the issuance of any Class B Shares or Class C Shares, the designation, rights, privileges, restrictions, conditions and other provisions to be attached to such shares. Currently no Class B Shares or Class C Shares have been issued. The holders of Class J Shares are not entitled to receive dividends and are entitled to one vote per Class J Share. The Class J Shares are redeemable and retractable at a price of \$1.00 per Class J Share. The Class J Shares rank subsequent to the Preferred Shares, Class A Shares, Class B Shares and Class C Shares with respect to distributions on the dissolution, liquidation or winding-up of the Company. There are 100 Class J Shares issued and outstanding. A trust established for the benefit of the holders of the Preferred Shares and the Class A Shares owns all of the issued and outstanding Class J Shares.

## **USE OF PROCEEDS**

Unless otherwise indicated in a Prospectus Supplement, the net proceeds from the sale of Preferred Shares and Class A Shares will be used to fund the purchase of securities for the Portfolio in accordance with the Investment Objectives, Investment Guidelines and Investment Restrictions.

#### PLAN OF DISTRIBUTION

The Company may sell Preferred Shares and Class A Shares to or through underwriters, dealers or agents and also may sell Preferred Shares and Class A Shares directly to purchasers or through agents. The sale of Preferred Shares and Class A Shares may be effected from time to time in one or more transactions at non-fixed prices pursuant to transactions that are deemed to be "at-the-market distributions", including sales made directly on the TSX or other existing trading markets for the Preferred Shares and Class A Shares, and as set forth in the Prospectus Supplement for such purpose.

The distribution of Preferred Shares and Class A Shares may be effected from time to time in one or more transactions at a fixed price or prices, which may be changed, at market prices prevailing at the time of sale, at prices related to such prevailing market prices or at prices to be negotiated with purchasers.

In connection with the sale of Preferred Shares and Class A Shares, underwriters or agents may receive compensation from the Company (a portion of which may be paid by the Manager, in its sole discretion) or from purchasers of Preferred Shares and Class A Shares for whom they may act as agents in the form of concessions or commissions. Underwriters, dealers and agents that participate in the distribution of Preferred Shares and Class A Shares may be deemed to be underwriters and any commissions received by them from the Company and any profit on the resale of Preferred Shares and Class A Shares by them may be deemed to be underwriting commissions. Any such person that may be deemed to be an underwriter with respect to Preferred Shares and Class A Shares will be identified in the Prospectus Supplement relating to such shares.

The Prospectus Supplement relating to the Preferred Shares and Class A Shares offered by the Company will identify each person who may be deemed to be an underwriter with respect to such Preferred Shares and Class A Shares and

will set forth the terms of the offering of such Preferred Shares and Class A Shares, including, to the extent applicable, the offering price, the proceeds to the Company, the underwriting commissions and any other fees, discounts or concessions to be allowed or reallowed to dealers. The lead underwriter or lead agent or underwriters or agents with respect to the Preferred Shares and Class A Shares sold to or through underwriters will be named in the related Prospectus Supplement. The underwriters or agents may over-allot or effect transactions which stabilize or maintain the market price of the Preferred Shares and/or Class A Shares offered at a level above that which might otherwise prevail in the open market. Such transactions, if commenced, may be discontinued at any time.

Under agreements which may be entered into by the Company, underwriters, dealers and agents who participate in the distribution of Preferred Shares and Class A Shares may be entitled to indemnification by the Company against certain liabilities, including liabilities under Canadian provincial securities legislation, or to contribution with respect to payments which those underwriters, dealers or agents may be required to make in respect thereof. Those underwriters, dealers and agents may be customers of, engage in transactions with or perform services for the Company or its subsidiaries in the ordinary course of business.

Subject to applicable laws, in connection with any offering of Preferred Shares and Class A Shares, other than an "atthe-market distribution" of Preferred Shares and Class A Shares, the underwriters or agents may over-allot or effect transactions which stabilize or maintain the market price of the Preferred Shares and/or Class A Shares offered at a level above that which might otherwise prevail in the open market. Such transactions, if commenced, may be discontinued at any time.

Sales of Preferred Shares and Class A Shares under an "at-the-market distribution", if any, will be made pursuant to an accompanying Prospectus Supplement. Sales of Preferred Shares and Class A Shares under any "at-the-market" program will be made in transactions that are deemed to be "at-the-market distributions" as defined in NI 44-102. The volume and timing of any "at-the-market distributions" will be determined at the Company's sole discretion.

No dealer or agent involved in an "at-the-market distribution", no affiliate of such a dealer or agent and no person or company acting jointly or in concert with such a dealer or agent may over-allot Preferred Shares or Class A Shares in connection with the distribution or may effect any other transactions that are intended to stabilize or maintain the market price of the Preferred Shares or Class A Shares in connection with an "at-the-market distribution".

The Preferred Shares and the Class A Shares will not be registered under the 1933 Act or any state securities laws and, subject to certain exemptions, may not be offered or sold within the United States or to U.S. persons.

## ORGANIZATION AND MANAGEMENT OF THE COMPANY

## Manager and Portfolio Manager

Pursuant to the Management Agreement, the Manager is responsible for providing, or causing to be provided, management and administrative services and facilities to the Company, and may delegate certain of its powers to third parties at no additional cost to the Company where, in the discretion of the Manager, it would be in the best interests of the Company and the Shareholders to do so. The Manager is also responsible for the portfolio management of the Company including writing call options and put options in accordance with the Investment Objectives, Investment Guidelines and Investment Restrictions of the Company.

In consideration for the services provided by the Manager to the Company, the Company pays a fee to the Manager equal to 0.85% per annum of the NAV of the Company calculated and payable monthly in arrears plus applicable taxes. The Company reimburses the Manager for all reasonable costs and expenses incurred by the Manager on behalf of the Company.

## **Transfer Agent and Registrar**

TSX Trust Company at its principal offices in Toronto is the registrar and transfer agent for the Preferred Shares and Class A Shares.

#### Custodian

CIBC Mellon Trust Company is the Company's custodian and is responsible for certain aspects of the day-to-day administration of the Company and provides safekeeping and custodial services in respect of the Company's assets. The address of the Custodian is 1 York Street, Suite 500, Toronto, Ontario M5J 0B6.

## **Securities Lending Agents**

The Company has appointed the Securities Lending Agents as securities lending agents, pursuant to a the Securities lending Agreement to provide securities lending services relating to the Portfolio. See "The Company – Securities Lending".

#### **Auditor**

The auditor of the Company is PricewaterhouseCoopers LLP, Chartered Professional Accountants, Licenced Public Accountants located at 18 York Street, Suite 2600, Toronto, Ontario M5J 0B2. PricewaterhouseCoopers LLP has confirmed that it is independent with respect to the Company within the meaning of the Rules of Professional Conduct of the Institute of Chartered Professional Accountants of Ontario.

## RISK FACTORS

Certain risk factors relating to the Company, the Preferred Shares and the Class A Shares are described below. Additional risks and uncertainties not currently known to the Company, or that are currently considered immaterial, may also impair the operations of the Company. If any such risk actually occurs, the business, financial condition, liquidity or results of operations of the Company and the ability of the Company to make distributions on the Preferred Shares and Class A Shares, could be materially adversely affected.

# **Performance of the Portfolio Issuers and Other Considerations**

The NAV per Unit varies as the value of the securities in the Portfolio changes. The Company has no control over the factors that affect the value of the securities in the Portfolio. Factors unique to each company included in the Portfolio, such as changes in its management, strategic direction, achievement of goals, mergers, acquisitions and divestitures, changes in distribution policies and other events, may affect the value of the securities in the Portfolio. A substantial drop in the equities markets could have a negative effect on the Company and could lead to a significant decline in the value of the Portfolio and the value of the Preferred Shares and Class A Shares. Preferred Shares and Class A Shares of the Company may trade in the market at a discount to their NAV and there can be no assurance that the Preferred Shares or the Class A Shares will trade at a price equal to their NAV.

## **Volatile Markets**

Market prices of investments held by the Company will go up or down, sometimes rapidly or unpredictably. The Company's investments are subject to changes in general market conditions, market fluctuations and risks inherent in the securities markets. Securities markets can be volatile and prices of investments can change substantially due to various factors including, but not limited to, economic growth or recession, changes in interest rates, changes in actual or perceived creditworthiness of issuers and general market liquidity. Even if general economic conditions do not change, the value of an investment in the Company could decline if the particular industries, sectors or companies in which the Company invests do not perform well or are adversely affected by certain events. In addition, legal, political, regulatory and tax changes may also cause fluctuations in markets and the price of securities. Certain market conditions, volatility or illiquidity in capital markets may also adversely affect the prospects of the Company and the value of the Portfolio. A substantial decline in equities markets could be expected to have a negative effect on the Company and the market prices of the Preferred Shares and/or Class A Shares.

## **Market Disruptions**

War and occupation, terrorism and related geopolitical risks or other factors including global health risks or epidemics/pandemics may lead to increased short-term market volatility and may have adverse long-term effects on world economies and markets generally. Such events could also have an acute effect on individual issuers or related groups of issuers. The recent outbreak of the respiratory disease designated as COVID-19 has caused increased volatility and disruptions in global financial markets, which has resulted in losses for investors and markets in general. The economic impact of COVID-19 may be short-term or may last for an extended period of time and, in either case, could result in a substantial downturn or recession. These risks could also adversely affect securities markets, inflation and other factors relating to the securities held in the Portfolio.

#### **Concentration Risk**

The Company may invest in as few as 20 issuers and is limited to generally investing its assets in large capitalization global dividend growth companies. Accordingly the Company's holdings are concentrated in the securities of such issuers and may be considered to be less diversified and the NAV per Unit may be more volatile than the value of a more broadly diversified portfolio and may fluctuate substantially over short periods of time. This may have a negative impact on the value of the Preferred Shares and the Class A Shares.

# **No Assurances on Achieving Objectives**

There is no assurance that the Company will be able to achieve its objectives or will return to investors an amount equal to or in excess of the original issue price of the Preferred Shares or the Class A Shares. There is no assurance that the Company will be able to pay quarterly distributions on the Preferred Shares or monthly distributions on the Class A Shares. The funds available for distributions to Shareholders will vary according to, among other things, the dividends and distributions paid on all of the securities in the Portfolio, the level of option premiums received and the value of the securities comprising the Portfolio. As the dividends and distributions received by the Company may not be sufficient to meet the Company's objectives in respect of the payment of distributions, the Company may depend on the receipt of option premiums and the realization of capital gains to meet those objectives. Although many investors and financial market professionals price options based on the Black-Scholes Model, in practice actual option premiums are determined in the marketplace and there is no assurance that the premiums predicted by such pricing model can be attained.

# **Sensitivity to Interest Rates**

The market prices of the Preferred Shares and Class A Shares may be affected by the level of interest rates prevailing from time to time. A rise in interest rates may have a negative impact on the market prices of the Preferred Shares and/or Class A Shares and increase the cost of borrowing to the Company, if any. Shareholders who wish to redeem or sell their Preferred Shares or Class A Shares prior to the Maturity Date will therefore be exposed to the risk that the market prices of the Preferred Shares and/or Class A Shares may be negatively affected by interest rate fluctuations. In addition, the distribution rate on the Preferred Shares may be changed at the time of an extension of the Maturity Date, which may also affect the market price of such Preferred Shares.

## **Greater Volatility of the Class A Shares**

An investment in the Class A Shares represents a leveraged investment by virtue of the fact that the Preferred Shares are entitled to a fixed amount upon the termination or winding-up of the Company. This leverage amplifies the potential return to investors of Class A Shares in so far as returns in excess of the amounts payable to holders of Preferred Shares accrue to the benefit of the holders of Class A Shares. Conversely, any losses incurred by the Portfolio first accrue to the detriment of the holders of the Class A Shares since the Preferred Shares rank prior to the Class A Shares in respect of distributions and proceeds upon the winding-up of the Company.

## **Changes in Credit Rating**

A rating is not a recommendation to buy, sell or hold securities and may be subject to revision or withdrawal at any time. There can be no assurance that the Preferred Shares will maintain their rating by DBRS for any given period of time or that the rating will not be lowered or withdrawn entirely by DBRS if in DBRS' judgment circumstances so warrant. A lowering or withdrawal of the rating of the Preferred Shares may have a negative effect on the market value of the Preferred Shares.

## Reliance on the Manager

The Manager is responsible for providing, or managing for the provision of, management and administrative services including investment and portfolio management services required by the Company. Investors who are not willing to rely on the Manager should not invest in the Preferred Shares or Class A Shares.

The Manager manages the Portfolio in a manner consistent with the Investment Objectives, Investment Guidelines, Rebalancing Criteria and Investment Restrictions of the Company. The employees of the Manager who are primarily responsible for the management of the Portfolio have extensive experience in managing investment portfolios including writing covered call options and cash covered put options in connection with managing such investment portfolios. There is no certainty that the employees of the Manager who are primarily responsible for the management of the Portfolio will continue to be employees of the Manager throughout the term of the Company.

#### **Conflicts of Interest**

The Manager and its directors and officers and its respective affiliates and associates may engage in the promotion, management or investment management of any other fund or trust with similar investment objectives and/or similar investment strategies to those of the Company. Although none of the directors or officers of the Manager devotes his or her full time to the business and affairs of the Company, each devotes as much time as is necessary to supervise the management of (in the case of the directors) or to manage the business and affairs of (in the case of officers) the Company and the Manager, as applicable.

# **Use of Options and Other Derivative Instruments**

The Company is subject to the full risk of its investment position in the securities comprising the Portfolio, including those securities that are subject to outstanding call options and those securities underlying put options written by the Company, should the market price of such securities decline. In addition, the Company will not participate in any gain on the securities that are subject to outstanding call options above the strike price of the options.

There is no assurance that a liquid exchange or over-the-counter market will exist to permit the Company to write covered call options or cash covered put options or purchase put options on desired terms or to close out option positions should the Manager desire to do so. The ability of the Company to close out its positions may also be affected by exchange imposed daily trading limits on options or the lack of a liquid over-the-counter market. If the Company is unable to repurchase a call option which is in-the-money, it will be unable to realize its profits or limit its losses until such time as the option becomes exercisable or expires. In addition, upon the exercise of a put option, the Company will be obligated to acquire a security at the strike price which may exceed the then current market value of such security.

In purchasing call or put options or selling call or writing put options, the Company is subject to the credit risk that its counterparty (whether a clearing corporation, in the case of exchange traded instruments, or other third party, in the case of over-the-counter instruments) may be unable to meet its obligations.

## Sensitivity to Volatility Levels

The Company intends to sell call options in respect of some or all of the securities held in the Portfolio. Such call options may be either exchange traded options or over-the-counter options. By selling call options, the Company will receive option premiums. The amount of option premium depends upon, among other factors, the implied volatility of the price of the underlying security as, generally, the higher the implied volatility, the higher the option premium. The level of implied volatility is subject to market forces and is beyond the control of the Manager or the Company.

## **Securities Lending**

The Company may engage in securities lending. Although the Company will receive collateral for the loans and such collateral is marked-to-market, the Company will be exposed to the risk of loss should the borrower default on its obligations to return the borrowed securities and the collateral is insufficient to reconstitute the Portfolio of loaned securities.

#### **Taxation**

In determining its income for tax purposes, the Company treats option premiums received on the writing of covered call options and cash covered put options and any losses sustained on closing out such options as capital gains and capital losses, as the case may be, in accordance with its understanding of the CRA's published administrative policy. Gains or losses on the disposition of shares, including the disposition of shares held in the Portfolio upon exercise of a call option, are treated as capital gains or losses. The CRA's practice is not to grant an advance income tax ruling on the characterization of items as capital gains or income and no advance ruling has been requested or obtained.

The Company may use derivative instruments for converting non-Canadian currency exposure to the Canadian dollar. Gains or losses realized on derivatives by virtue of the fluctuation of foreign currencies against the Canadian dollar will, where such derivatives are not "derivative forward agreements" as defined in the Tax Act and are sufficiently linked with and hedge currency exposure in respect of, underlying securities, be treated and reported for purposes of the Tax Act on capital or income account depending on the nature of the securities to which the hedge is linked.

If some or all of the transactions undertaken by the Company in respect of options or currency derivatives were treated on income rather than capital account, after-tax returns to Shareholders could be reduced, the Company could be subject to non-refundable income tax from such transactions and the Company could be subject to penalty taxes in respect of excessive capital gains dividend elections.

There can be no assurance that changes will not be made to the tax rules affecting the taxation of the Company or the Company's investments or that such tax rules will not be administered in a way that is less advantageous to the Company or its Shareholders.

# **Loss of Investment**

An investment in the Company is appropriate only for investors who have the capacity to absorb investment losses.

## **Significant Retractions**

If a significant number of Preferred Shares or Class A Shares are retracted, the trading liquidity of the Preferred Shares and Class A Shares could be significantly reduced. In addition, the expenses of the Company would be spread among fewer Preferred Shares and Class A Shares resulting in a potentially lower NAV.

#### **Non-Concurrent Retraction**

Holders of Preferred Shares and Class A Shares will be offered a non-concurrent retraction right on the Maturity Date and upon any subsequent extension of the maturity date as determined by the Board of Directors. To the extent that there are unmatched numbers of Preferred Shares and Class A Shares tendered for retraction, the Preferred Shares or Class A Shares, as the case may be, may be called by the Company for redemption on a pro rata basis in order to maintain the same number of Preferred Shares and Class A Shares outstanding. The number of retractions by holders of Preferred Shares and Class A Shares may be influenced by the performance of the Company, the management expense ratio, and the trading discount to NAV, among other things.

# Changes in Legislation and Regulatory Risk

There can be no assurance that certain laws applicable to the Company, including securities legislation, will not be changed in a manner which adversely affects the Company or Shareholders. If such laws change then such changes

could have a negative effect upon the value of the Company, the Preferred Shares or Class A Shares and upon investment opportunities available to the Company.

#### **Accrued Gains**

The adjusted cost base to the Company for tax purposes of shares of certain securities in the Portfolio may be less than their fair market value. Accordingly, all Shareholders may be liable for tax on capital gains attributable to such securities to the extent such capital gains tax is not refundable to the Company and such capital gains are therefore distributed as a capital gains dividend.

#### **Exchange of Tax Information**

Due diligence and reporting obligations in the Tax Act have been enacted to implement the Canada-United States Enhanced Tax Information Exchange Agreement. As long as Preferred Shares and Class A Shares continue to be registered in the name of CDS, the Company should not have any U.S. reportable accounts and, as a result, should not be required to provide information to the CRA in respect of its Shareholders. However, dealers through which Shareholders hold their Preferred Shares and Class A Shares are subject to due diligence and reporting obligations with respect to financial accounts they maintain for their clients. Shareholders, or their controlling persons, may be requested to provide information to their dealer to identify U.S. persons holding Preferred Shares and Class A Shares. If (a) it is determined that a Shareholder, or their controlling persons, is a "Specified U.S. Person" (including a U.S. citizen who is a resident of Canada), (b) no such determination has been made but the information provided includes an indication of U.S. status and sufficient evidence to the contrary is not timely provided, or (c) if a Shareholder does not provide the required information and indicia of U.S. status is present, then Part XVIII of the Tax Act will generally require information about the Shareholder's investments held in the financial account maintained by the dealer to be reported to the CRA, unless the investments are held within a Registered Plan. The CRA is required to provide that information to the U.S. Internal Revenue Service.

Reporting obligations in the Tax Act have been enacted to implement the Organization for Economic Co-operation and Development Common Reporting Standard (the "CRS Rules"). Pursuant to the CRS Rules, Canadian financial institutions are required to have procedures in place to identify accounts held by tax residents of foreign countries (other than the U.S.) ("Reportable Jurisdictions") or by certain entities any of whose "controlling persons" are tax residents of Reportable Jurisdictions. The CRS Rules provide that Canadian financial institutions must report certain account information and other personal identifying details of Shareholders (and, if applicable, of such controlling persons) who are tax residents of Reportable Jurisdictions to the CRA annually. Such information would generally be exchanged by the CRA on a reciprocal, bilateral basis with Reportable Jurisdictions in which the account holders or such controlling persons are resident under the provisions and safeguards of the Multilateral Convention on Mutual Administrative Assistance in Tax Matters or the relevant bilateral tax treaty. Under the CRS Rules, Shareholders will be required to provide such information regarding their investment in the Company to their dealer for the purpose of such information exchange, unless the investment is held within a Registered Plan.

#### **Currency Exposure**

As the Portfolio will include securities denominated in foreign currencies, the NAV of the Company, when measured in Canadian dollars will, to the extent that this has not been hedged against, be effected by changes in the value of the foreign currency relative to the Canadian dollar. Currency hedges entail a risk of illiquidity and, to the extent that the foreign currency appreciates in Canadian dollar terms, the risk that the use of hedges could result in losses greater than if the hedging had not been used. Hedging arrangements may have the effect of limiting or reducing the total returns to the Company if the Manager's expectations concerning future events or market conditions prove to be incorrect. In addition, the costs associated with a hedging program may outweigh the benefits of the arrangements in such circumstances. Currency hedges also involve the risk of the possible default by the other party to the transaction (whether a clearing corporation in the case of exchange-traded instruments or other third party in the case of over-the-counter instruments) in that it may be unable to meet its obligations.

# **Foreign Market Exposure**

The Company's investments will include securities of issuers established in jurisdictions outside Canada and the United States. Although most of such issuers will be subject to uniform accounting, auditing and financial reporting

standards comparable to those applicable to Canadian and U.S. companies, some issuers may not be subject to such standards and, as a result, there may be less publicly available information about such issuers than a Canadian or U.S. company. Volume and liquidity in some foreign markets may be less than in Canada and the United States and, at times, volatility of price may be greater than in Canada or the United States. As a result, the price of such securities may be affected by conditions in the market of the jurisdiction in which the issuer is located or its securities are traded. Investments in foreign markets carry the potential exposure to the risk of political upheaval, acts of terrorism and war, all of which could have an adverse impact on the value of such securities.

## **Cybersecurity Risk**

The information and technology systems of Brompton Funds, the Company's key service providers (including its custodian, registrar and transfer agent, valuation services provider and securities lending agent) and the issuers of securities in which the Company invests may be vulnerable to cybersecurity risks such as potential damage or interruption from computer viruses, network failures, computer and telecommunications failures, infiltration by unauthorized persons (e.g. through hacking or malicious software) and general security breaches. A cybersecurity incident is an adverse intentional or unintentional action or event that threatens the integrity, confidentiality or availability of the Company's information resources.

A cybersecurity incident may disrupt business operations or result in the theft of confidential or sensitive information, including personal information, or may cause system failures, disrupt business operations or require Brompton Funds or a service provider to make a significant investment to fix, replace or remedy the effects of such incident. Furthermore, a cybersecurity incident could cause disruptions and negatively impact the Company's business operations, potentially resulting in financial losses to the Company and Shareholders. There is no guarantee that the Company or Brompton Funds will not suffer material losses as a result of cybersecurity incidents. If they occur, such losses could materially adversely impact the Company's net asset value.

#### FEES AND EXPENSES

#### **Management Fee**

The Manager receives an annual management fee (the "Management Fee") from the Company equal to 0.85% per annum of NAV, calculated and payable monthly in arrears, plus any applicable taxes for providing management, administrative and investment advisory services to the Company. The Manager is responsible for providing, or causing to be provided, management and administrative services and facilities to the Company, and may delegate certain of its powers to third parties at no additional cost to the Company where, in the discretion of the Manager, it would be in the best interests of the Company and the Shareholders to do so.

## **Operating Expenses**

The Company also pays for all expenses incurred in connection with its operation and administration. It is expected that these expenses will include, without limitation, all costs of Portfolio transactions, fees payable to the Manager, debt service costs, custodial fees, legal, audit and valuation fees and expenses, expenses of the directors of the Manager, fees and expenses of the members of the IRC and expenses related to compliance with NI 81-107, premiums for directors' and officers' insurance coverage for the directors and officers of the Manager and the Company and members of the IRC, costs of reporting to Shareholders, registrar, transfer and distribution agency costs, printing and mailing costs, listing fees and expenses and other administrative expenses and costs incurred in connection with the continuous public filing requirements of the Company and investor relations, fees and expenses relating to any services provided by third parties, taxes, brokerage commissions, costs and expenses relating to the issue of shares, costs and expenses of preparing financial and other reports, costs and expenses arising as a result of complying with all applicable laws, regulations and policies, extraordinary expenses that the Company may incur and all amounts paid on account of indebtedness of the Company. Such expenses also include expenses of any action, suit or other proceedings in which or in relation to which the Manager and/or any of their respective officers, directors, the IRC members, employees, consultants or agents is entitled to indemnity by the Company. The Company also pays for all expenses incurred in connection with its termination on or about the Maturity Date.

# **LEGAL MATTERS**

Unless otherwise specified in the Prospectus Supplement, certain legal matters relating to any offering of Preferred Shares and Class A Shares will be passed upon by Osler, Hoskin & Harcourt LLP, Toronto, Ontario. As of the date hereof, the partners and associates of Osler, Hoskin & Harcourt LLP, as a group, own less than 1% of the outstanding Preferred Shares or Class A Shares of the Company.

## **PURCHASERS' STATUTORY RIGHTS**

Securities legislation in certain of the provinces and territories of Canada provides purchasers with the right to withdraw from an agreement to purchase securities. This right may be exercised within two business days after receipt or deemed receipt of a prospectus and any amendment. In several of the provinces and territories of Canada, securities legislation further provides a purchaser with remedies for rescission or, in some jurisdictions, revisions of the price or damages if the prospectus and any amendment contains a misrepresentation or is not delivered to the purchaser, provided that such remedies for rescission, revisions of the price or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser's province or territory.

The purchaser should refer to any applicable provisions of the securities legislation of the purchaser's province or territory for the particulars of these rights or consult with a legal advisor.
