Overview

This ETF provides monthly distributions and the opportunity for capital appreciation through an investment in an actively managed portfolio of large-cap North American-listed financial services companies selected by Brompton, complemented by a proprietary covered call options program.

Our PM team first uses a top-down analysis to identify attractive sub-sectors. Rigorous fundamental analysis focuses the portfolio on North American Financial Services Companies with a market capitalization of at least \$5 billion. The PMs then actively set the level of covered call writing with the goal of optimizing distributable cash and total returns, while reducing portfolio volatility.
