

Brompton Global Dividend Growth ETF

TSX:BDIV

Overview

This ETF provides high monthly distributions and the opportunity for capital appreciation by investing in an actively managed portfolio of large-cap global dividend growth companies selected by Brompton, complemented by a proprietary covered call options program to enhance monthly income.

Our PM team first uses a top-down analysis to identify attractive sectors. Rigorous fundamental analysis focuses the portfolio on at least 20 global Dividend Growth Companies with a market capitalization of at least \$10 billion, that have a history (or, in the Manager's view, a future likelihood) of dividend growth. The PMs then set the level of covered call writing with the goal of optimizing distributable cash and total returns and reduce portfolio volatility.

GLOBAL DIVIDEND GROWTH - INVESTMENT RATIONALE

1 Dividend Growth Offers Higher Returns with Lower Risk

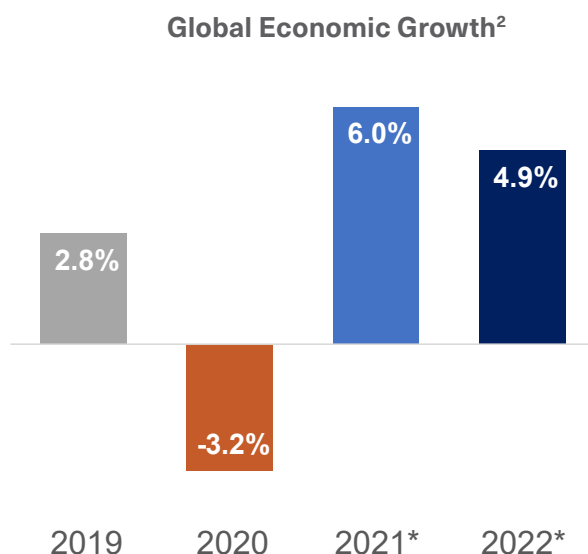

Since 2011, the MSCI World Dividend Masters Index (an index of global dividend growth equities) has outperformed the MSCI World Index by 1.0% per annum while those returns have been less risky (1.5% per annum less annualized volatility).¹

2 Economic Growth Improving

The availability of COVID-19 vaccines, along with the monetary and fiscal stimulus issued by central banks and governments globally, is supportive for economic growth.

The International Monetary Fund forecasts a strong rebound in global economic growth in 2021 and 2022.
