

BROMPTON SPLIT BANC CORP.

**BROMPTON SPLIT BANC CORP.
ANNOUNCES EXTENSION OF TERM**

Toronto, March 24, 2022 – (TSX: SBC, SBC.PR.A) As a result of strong performance, Brompton Split Banc Corp. (the “Company”) is pleased to announce that the board of directors has approved an extension of the maturity date of the Class A and Preferred shares of the Company for an additional 5-year term to November 29, 2027. The reset preferred share dividend rate for the extended term will be announced at least 60 days prior to the original November 29, 2022 maturity date and will be based on market yields for preferred shares with similar terms at that time.

The term extension allows Class A shareholders to continue to invest in the Canadian bank sector with an attractive distribution rate of 8.4% based on the March 22, 2022 closing price and the opportunity for capital appreciation. Canadian banks continue to offer attractive dividend yields and return on equity. As well, the extension of the term of the Company is not a taxable event and enables shareholders to defer potential capital gains tax liability that would have otherwise been realized on the redemption of the Class A shares or Preferred Shares at the end of the term, until such time as such shares are disposed of by shareholders.

Since inception in November 2005 to February 28, 2022, the Class A shares have delivered a 13.2% per annum total return, outperforming the S&P/TSX Capped Financials Index by 3.8% per annum and the S&P/TSX Composite Index by 5.8% per annum.⁽¹⁾ Since inception to February 28, 2022, Class A shareholders have received cash distributions of \$19.15 per share. Class A shareholders also have the option to reinvest their cash distributions in a dividend reinvestment plan which is commission free to participants.

The term extension offers Preferred shareholders the opportunity to enjoy preferential cash dividends until November 29, 2027. Since inception, the Preferred shares have delivered a 5.1% per annum total return, outperforming the S&P/TSX Preferred Share Index by 2.2% per annum with lower volatility.⁽¹⁾

Brompton Split Banc Corp. invests, on an approximately equal weighted basis in a portfolio consisting of common shares of the six largest Canadian banks (currently, Bank of Montreal, Canadian Imperial Bank of Commerce, National Bank of Canada, Royal Bank of Canada, The Bank of Nova Scotia and The Toronto-Dominion Bank). In addition, the Company may hold up to 10% of the total assets of the Portfolio in investments in global financial companies for the purposes of enhanced diversification and return potential.

Returns are for the periods ended February 28, 2022 and are unaudited. Inception date November 16, 2005. The table shows the Company's compound return on a Class A Share and Preferred Share for each period indicated compared with the S&P/TSX Capped Financials Index ("Financials Index"), the S&P/TSX Composite Index ("Composite Index"), and the S&P/TSX Preferred Share Index ("Preferred Share Index") (together the "Indices"). The Financials Index is derived from the Composite Index based on the financials sector of the Global Industry Classification Standard. The Composite Index tracks the performance, on a market weight basis, of a broad index of large-capitalization issuers listed on the TSX. The Preferred Share Index tracks the performance, on a market weight basis, of preferred shares listed on the TSX that meet criteria relating to minimum size, liquidity, issuer rating, and exchange listing. The Class A shares and preferred shares are not expected to mirror the performance of the Indices which have more diversified portfolios. The Indices are calculated without the deduction of management fees, fund expenses and trading commissions, whereas the performance of the Company is calculated after deducting such fees and expenses. Further, the performance of the Company's Class A shares is impacted by the leverage provided by the Company's preferred shares.

You will usually pay brokerage fees to your dealer if you purchase or sell shares of the investment funds on the Toronto Stock Exchange or other alternative Canadian trading system (an "exchange"). If the shares are purchased or sold on an exchange, investors may pay more than the current net asset value when buying shares of the investment fund and may receive less than the current net asset value when selling them.

There are ongoing fees and expenses associated with owning shares of an investment fund. An investment fund must prepare disclosure documents that contain key information about the funds. You can find more detailed information about the fund in the public filings available at www.sedar.com. The indicated rates of return are the historical annual compounded total returns including changes in share value and reinvestment of all distributions and do not take into account certain fees such as redemption costs or income taxes payable by any securityholder that would have reduced returns. Investment funds are not guaranteed, their values change frequently and past performance may not be repeated.

Certain statements contained in this document constitute forward-looking information within the meaning of Canadian securities laws. Forward-looking information may relate to matters disclosed in this document and to other matters identified in public filings relating to the fund, to the future outlook of the fund and anticipated events or results and may include statements regarding the future financial performance of the fund. In some cases, forward-looking information can be identified by terms such as "may", "will", "should", "expect", "plan", "anticipate", "believe", "intend", "estimate", "predict", "potential", "continue" or other similar expressions concerning matters that are not historical facts. Actual results may vary from such forward-looking information. Investors should not place undue reliance on forward-looking statements. These forward-looking statements are made as of the date hereof and we assume no obligation to update or revise them to reflect new events or circumstances.
