Overview

This ETF provides high monthly distributions and the opportunity for capital appreciation through an investment in an actively managed portfolio of large cap global Technology companies selected by Brompton, complemented by a proprietary covered call options program.

Our PM team first uses top-down analysis to identify attractive sub-sectors. Rigorous fundamental analysis focuses the portfolio on global Technology companies which offer a combination of growth and value characteristics. The PMs then actively set the level of covered call writing, with the goal of optimizing distributable cash and total

Investment Highlights: Technology Sector

Tech sector is profitable, with minimal debt and significant free cash flow.

Tech is under-represented in Canada; ETF provides diversification benefits.

Long term trends are supportive of Technology equities:

- Technological Disruption: Emerging technologies have the potential to reshape the world
- Accelerating Adoption: New technologies are being adopted more quickly than in the past
- Demographics: Millennials will continue to fuel demand for services such as mobile applications, user experiences, social media/messaging and e-commerce
- Digitization: Manual/offline businesses converting to online, networked platforms and computer supported environments, enabling real-time decision making and more efficient operations
